The Vincennes, Indiana, Sun says-"Our reports from all sections of this and the adjoining counties are very favorable. Harvesting was began by some of our farmers several days ago, and the wheat thus far promises an average yield. The rust has done serious damage in some localities, but the evil is not very extensive or general."

The Alton, Illinois, Democrat says the weather is very fine, and harvest operations are progressing rapidly in this locality. The wheat stands well and is an excellent yieldtwenty-five to thirty bushels per acre.

Gentlemen who have travelled extensively over our State, inform us that the wheat and grass crops appear remarkably fine. We are glad to learn that the quantity of wheat, growing, is not less than usual, as some may have supposed, owing to the excessive wet weather in the spring. Corn is coming forweather in the spring. Corn is coming for were extremely limited. Flour selling at \$3@3 75; Wheat ward finely, although the early part of the 50@07/2c; Corn 45@65c; Oats 33@44c; Barley 40c; Whis-senson was very unfavorable for it. With fair key 19c; Hides 14c; Hay 70c per 100 lbs; Hemp \$55@75 prices, we shall recover this fall very considerably from our present prostration .- Milwaukee

many parts of our State. The wheat has a great increase in the mortality report of the past week, ripened very rapidly in the past fortnight of Our usual average of deaths is about 50 per week, but for warm, dry weather, recovering from injury which was aprehended from previous rains. Several fields have been cut in the vicinity of Baltimore and the western counties. On the eastern shore, the work of harvesting has progressed finely. Gentlemen who have recently travelled in that region are convinced there will be an abundant yield in quality and quantity. From all we can ascertain the Maryland crop this season will be a full average one, so far as wheat and rye are concerned. The oats look remarkably well, whilst some rain is wanting for the corn, though it promises hopefully. A finer crop of grass has never before been known.

More favorable weather, preparatory to gathering in the harvest, could not have been

Our advices from all parts of the country are decidedly encouraging with reference to Wheat and rye have ripened the crops. beautifully, and as a general thing free from rust, mill dew, seab, &c. If there are any who calculate up it short crips, making the (the paying offices) for me, and a herring (thuse of non-or "wish father to the thought," our present only for you; and here is a herring for you and a shud for me &c., &c. When the ticket was nearly completed—all impression is they will be disappointed .-Baltimore Patriot

AFFAIRS IN CHINA .- The Hong Kong correspondent of the New York Tribune supplies the following intelligence : "The state of feeling on the part of the Chi-

ness connect be determined with any accuracy. They are a lying, treacherous race, and gifted with such great p wer of concealment that it is impossible to say whether they are prepar ing to welcome or to poison their guests. Of violance there is little danger, although on last Sunday evening there was a rumor of an attack on Canton by 30,000 braves-a false alarm, however, as usual. The 1000 troops in jugs, and not a German. Three German names were then the field the Chinese are contemptible. We party had up to that period of the proceedings kept have some fear of poison, and are much at the squiet, and the three very indignantly declined the honor mercy of our servants in this regard. Other wise there is no alarm.

" The Chinese are now willing to trade with the Americans, because they have had no cause and elected. A ballot was taken and they were electrolto be atraid of them. But they are at heart more bitter against England than ever, and if they could, would stop all trade with that nation, throwing their whole traffic into other hands. However, there is little danger of such a proceeding. There is even now a fleet on the way to the Gulf of Peschee-lee, which can easily carry out the threat of the English Ambassador to serve Pekin as he has served Canton. And the regiments of native troops which have in India volunteered for foreign service will soon be on hand to hold every advantage gained. All the fleet which can be spared from this region is under orders with a Dutchman, one or two Know-Nothing Representafor the rendezvous at the mouth of the river tives were hauled down and Dutchmen put up, and the leading up to Pekin, and the French have a candidate for Jailor is a German. This much has been like destination.

" An attack upon Pekin, however, must of communication has been forced up to the is yet to be seen. Emperor himself, and he has replied to it—a we have two grades of Know Nothings in our city—ong the Free-Seil Anti-Dutch, and the other the Pro Slavery success which has probably never been achiev-ed before. The Emperor did not even know that there was such a country as the United States until lately informed of the good con duct of its naval representatives. But he is in a fair way to become enlightened on this in a fair way to become enlightened on this as on other points, so that he will be more capable of attending to his foreign affairs than times past. 'The coolie trade may be said to have languished out of existence. There are somany obstructions thrown in the way of the traffic. and there is so strong a public sentiment sengers lost all their baggage. The boat was valued at against it, that few English or American ships \$20,000 with no insurance; it with the cargo are a total are found offering. The passenger trade, however. to Australia and California is most brisk, and forms the chief present employment." TERRIBLE ACCIDENT IN THE SCHUYLKILL COUNTY MINES-Four Men and two Boys precipitated a depth of Two Hundred and Forty Feet and Dushed to Pieces.—We are pained to anuounce the occurrence of a sad catastrophe, the result, it is to be feared, of carelessness. It appears that about noun on Tuesday last, four men and two boys ascended the shaft at the Thomastown colliery, in a car resting on a cage. When within a few inches of the top, a pin, upon which the cage rests when it reaches the top, was pulled out too soon, and the car was not on the level with the platform sufficiently to permit it to be rolled off the cage. In this position two of the wheels of the car were rolled off the cage; but it was found impossible to get the other wheels off. A signal was then given to the engineer, who could not see the position of the cage, to hoist it a little. Unfortunately, it was hoisted too high; the car tilted, was freed entirely from the cage, and the next instant, with its freight of precious lives, consisting of four men and two boys, was dished down the shaft, a perpendicular depth of two hundred and forty feet. The remains of the unfortunate men and boys were, after the occurrence, removed to the surface, in a shockingly mutilated condition. Two of the men killed, named Sullivan and Kenwich, leave families. The other two, one tity of carbonate and phosphate of lime. It is upon the of whom was named Brennan, were unmaried. existence of these insoluble sais that the choice of in-The names of the two boys we have not learn halants is made. If we can introduce into the lungs The names of the two boys we have not learn-AN OCEAN TRIP IN A BALLOON. -- Prof. J. H. | ones, this will produce liquefaction of the tubercles, and Steiner, proposes to cross the Atlantic in a balloon 200 feet, in diameter. He says in a familiar with chemistry will easily recall to their memories letter to the Harrisburg *Telegraph*: I am sat isfied in my own mind that with such an ap paratus I could cross the Atlantic in 75 hours. and the whole cost would not be more than \$20,000. The balloon, net work and valve would weigh about 2,000 pounds, and the boat and rigging 3 tons and a half-this will leave about 3 tons ascending power, for provisions, passengers and ballast. It would require three good ocean navigators, and one astrono-mer, besides myself. I would suggest New York as the starting point, and am certain I would strike within 200 miles of any given distance in Europe I would engrast May as distance in Europe. I would suggest May as the time for making the experiment, and would make the attempt in 1859, if I could get the government or others to assist me. MOUNT VERNON ASSOCIATION .- Mrs. Susan L. Pellet, Secretary of the Mount Vernon Association, has made a report of the condition of the Association's affairs. From this we learn that the sum stipulated to be paid to Mr. John course the earlier it is resorted to, the botter the prospect A. Washington, for Mount Vernon, in April last, was \$200,000, of which \$18,000 was paid in cash. Of the remainder, the first instalment \$57,000 is due on the 1st of Japuary, 1859, and the balance in three annual instalments. In the event of the failure to pay the \$57.000 in January next, the \$18,000 already paid is forfeited. The sums now on hand in the Association's treasury contributed by private persons and public bodies, and gathered from lectures of Mr. Everett, are sufficient to meet the January payment; but the means necessary to meet the interest on the notes, and the three subsequent payments, are yet to be raised. -----TERRIBLE ACCIDENT FROM A MOWING MA-CHINE.-- A young man named Healy, residing in Falsington_Bucks county, Pa., was almost immediately killed, last week, by a mowing machine, which he was operating. It appears that something had got wrong with the knives, in attempting to fix which, Mr. Healy sat down in front of them. The machine was in gear at the time, and something occuring seem the very acme of infatuation for a consumptive to which started the horses, the unfortunate man was literally cut to pieces in an instant. Both of his legs were cut off above the knees. After the machine had meaned are him the state of consumption. It seems more in accordance with was literally cut to pieces in an instant. Both the machine had passed over him he cried out twice, which called the attention of a boy who was working in another part of the field. The The was working in another part of the heid. The boy ran for help, but before any had arrived capable of effecting what it pr fesses, viz: to cure Consump-the unfortunate man was dead. The machine tim; and the only way yet discovered, seeing that the old was one that had been in use for the last three r**ydaini,**ddal ydd ynwraithau. 199 ailwr gwlai ynwraithagwr o sillorywydr - Laingen ager

THE CROPS. ST. LOUIS CORRESPONDENCE. -Healu. ns Fightin, with the rwo Fourth-Warm Weather-Market Report-City-Political-The Black Republicant emselves in the Bush-Great Dissatisfactio Themselves in the Ticket—Know-Not Know-Nothing Deception meeting its Just Revolution Teaching the Black Republicans a Lesson

, dec., 87. Louis, July 5, 1858. arshalled The glorious anniversary of the Fourth of July will be appropriately celebrated to-day---(the 4th coming on Su day.) The military of the city will be out; steamboat and railroad excursions will be the main features of th day. The booming of cannon and the firing of crackers are heard in every direction, and all business has been suspended—every body participating in the celebration of another anniversary of the Nation's birth. On Saturday night the whole city was illuminated with bon-fires; and

fire-works shooting up from every street, presented a grand sight to look upon. What accidents and occurrences will take place, we are unable to say-the day will reveal all. The weather in the past week has been excessively warm, but occasional refreshing showers have come to our relief Business continues very dull; receipts of produce light and rivers falling rapidly. Sales on 'Change Saturday per ton. The recent high water has accumulated considerable

News. H urvesting has already been commenced in the vicinity of the river in a very bad condition, causing the seven days just closed the number has reached 101 .-There have been two or three cases of cholera, and four or five of sun-stroke. Two thirds of the deaths have been children of five years and under.

There has been nothing locally of any importance trans pired during the week, except three murdars, which have become so common of late, that our daily papers scarcely

soil Greely Giddings Black Republicans, and some of the most rampant Know-Nothings that ever infested our city -deemed it policy to unite the Black Republican and Know-Nothing parties as much as possible, hence the admittance of Know-Nothing delegates. This conglomeration met-with a full knowledge of what they intended to do before the Convention convened, and entirely forgutting, with their association with Know-Nothingism, that there was such a class as Germans-parcelled out the offices as the old woman did the fish-Nigger says here is a shad me &e., &c. When the ticket was nearly completed-all but three nominations on the Assembly ticket, Mr. Blair

arose, who, very luckily for him, happened to be in the convention, and said that his German fellow-citizens should be represented on the ticket. The looks, the twisting and the movements of the delegates can better be imagined than described. "What have we done !" savs one: "What will wo do?" says another; "What can use Orleans Delta: do?" says a third. We can hardly think it possible that In the Coolie they intentionally overlooked the German population-of which unnotenths of their party is made up, but their great joy over the union of Black Republicans and Know-Noth" ings, and the great certainty of office, perhaps, made them forget that the nominees were to be voted for at the polls. and without the Germans they could not obtain 500 votes.

The ticket at that time contained four rank Know-Noth. would not accept unless they were each voted for separately

receiving all the votes. The ticket went forth, but the editor of the Anzeiger Des Westers, that old reprodute Boernstein, refused to accept classes of labor in our various industry, be it, and for three or four days pitched into the party with gins to show itself in vitiated subordination a savage vengeance, and told them that unless he had such a licket as he named, he would not support it, and further that he would defeat it at the polls! He demanded a remodeling of the ticket, and claimed the following places on it for his German friends and the bone and sinew of the party-one State Senator, four Representatives, the County Marshal, the Jaior, and the Coroner; and still further that every Know-Nothing be taken from the ticket! And will your readers believe us when we say that one Know-Nothing Senator was taken off and his place supplied candidate for Jattor is a German. This much has been doue to satisfy old Boernstein, and he declares that he inut have his "pound of flesh" the County Marshal, and all the Know-Nethings off of the ticket.

any one afflicted with Consumption can be found so foolish to go near such; they should be carefully avoided. ing patient Inhalation is daily working its cures and raisi from their beds, who under the old treatment, would soon have been tenants of the cold and silent tomb. It is sad to see the young, the lovely, the gifted and the loved, to the grave, in the grasp of the foul ogr Consumption, when so many might be saved by a ti

resort to treatment by inhalation. The statistics of death by Consumption showed such a marked diminution in the City of New York, when inhalation was extensively in ad there by Drs. Melville, Hunter, Robinson, &c that the newspapers noticed the fact with enthusiasm, and were unanimous in attributing it to the success of the new mode of practice. N. B. WOLFE. M. D.

Note-For the information of those laboring under disease of the Throat and Lungs, who may wish to consult me, personally or by letter, I beg leave to state, that I will visit Columbia, the latter part of June, and remain until the first of September, when an opportunity will be af-forded them to do so. Medicated inhalation, consists in charging atmospheric air with medicines in a state of vapor, which are then inhaled into the lungs, when they exert their benign influence, by addressing their action directly to the parts diseased In this manner al diseases of the respiratory organs, such as Bronchitis, Asthma and Consumption, hitherto deemed the opprobia Medicine, have become amenable to successful treatment though until the introduction of Medicated Inhalation they were considered incurable.

THE GRAIN TRADE OF CHICAGO .- The re ceipts of grain at this place during the last week have been over a million bushels, namely: 482,184 bushels wheat, 496,495 bushels corn, and 157,301 bushels oats; besides 36,005 bushels of flour (in 7,201 barrels) making a total do more than merely mention the *fact* of such a thing oc- of 1,171,985 bushels of grain. The total receipts of the season thus far are 6.125.692 The past week, politically, however, has been one of bushels wheat, {including 1,107,400 bushels excitement, fear, and black with approhension. On Monday ground up into 221,480 barrels of flour) 2,965,-last the Black Republican Convention met, and a full 507 bushels corn, and 1.242,025 bushels oats ; county ticket was selected. It seemed that the delegates -composed of bogus Democrats, who assumed to be free grain, (10,333,214 bushels.)

The shipments of the week have been 6,312 barrels flour, 305,311 bushels wheat, 387,112 bushels corn, and 93,540 bushels oats, equal to 817,523 bushels of grain. The total ship-ments of the season are now 6,299,367 bushels of wheat, (including 914,860 bushels ground up into 182,972 barrels of flour) 2,328,875 bushels of corn, and 916,367 bushels oats, making a total of over nine and a half millions bushels of grain (9,544,609 bushels.)

The receipts of lumber during the last week were 6,025,000 feet, making the total receipts for the season now, 107,027,000 feet.— Chicago Times of Wednesday.

THE COOLIE TRADE.-We extract the following from the Havana correspondent of the N.

In the Coolie trade we still continue to in vest heavily, and three large vessels have contracts for as many as they can possibly furnish with transportation, or procure in the East. Arrived, on the 14th instant, the Danish bark Treia, Soreuse, muster, from Swatoa and St. Helena, with 302 Asiatics, having lost during the passage 158! The value of this class of labor hands, with indenture bonds for eight Cust on are fully able to withstand a Chinese annunced for the Assembly ticket, and on motion were of labor hands, with indeature bonds for eight annunced for the Assembly ticket, and on motion were of labor hands, with indeature bonds for eight annunced for the Assembly ticket and on motion were of labor hands, with indeature bonds for eight annunced for the Assembly ticket. one ounces, or in case of remarkable points or moral and physical qualities combined, twenconferred upon them in that way-they wished to stand ty four ounces might be obtained, or from \$289 their chances in the Convention like other white men, and to \$408 per head. The stock has been much increased recently, and for a few weeks serious decline threatened the prospects of the speculators. The inevitable effect of mixing the two

on the part of the African and submission to the superior intelligence of the Indian, with whom he is associated on equal terms in the field, for any purpose of evil the latter may design. Several attempts at revolt, instigated by the Chinese laborers, have been with difficulty suppressed without bloodshed. The ring leaders in these cases have been punished with moderation, having to serve out their contract term in the chaingang. The whole

MARRIAGES.

DEATHS.

In Nexve twp., Darke county, Ohio, on the 22d of June, Daniel Hiestand, formerly of Lancaster county Pa., in the Sith year of his age. In this city, on Wednesday evening the 7th, Geory Michael Gumpf, son of Jacob and Mary Gumpf, aged years 9 months and 9 days,

PHILADELPHIA MARKET.

SATURDAY, July 10 .- Flour and Meal --- Breadstuffs

rery inactive, and the receipts daily less. Sales at \$4 12 1858. for standard brands, \$4 37 for extra family. There is little [july 6 for standard brands. \$1 37 for extra family. There is little or no demand for shipment. The sales making are for home amption from \$4 25 up to \$6 00, as in quality. P flour and Corn Meal are scarce, and firm at \$3 311½ for the former, and \$3 371½ for the latter. Grain.-Wheat is steady at the recent advance. Sales of

fair and good Red at \$1 09 a \$1 15 per bushel, and White from \$1 10 to \$1 15 per bushel. Bye is now selling at 70 cents, with little coming forward. The demand for Corn is steady, with light receipts. Sales of Yellow at 80 cents, which is a further advance. Oats are in fair demand at 40

ants for Pennsylvania, and 38 a 39 cents for Delaware. Cloverseed.-Last sale at \$4 62@4 75 per bushel, of 64 lbs. Nothing doing in Timothy and Flaxseed. The latter is in lemand at \$1 55@1 60 per bushel

Sheep and Beeves .- The arrival of Sheep and Beeves from the West, at the present time, is quite large, particu-larly the former; over 7000 having arrived during the past few days. The prices for Sheep and Beeves is much less now than for two or three summers past; the best quality of sheep-selling at \$4 per head, and the poor and middling at from \$2 to 3 each; while Beeves such as are sold at retail in our markets can be purchased as low as \$8 50 per 100 lbs. The best quality of cattle were sold this week at \$9 50 per 100 lbs., and many excellent ones as low as \$9. Notwithstanding this fact, the prices to consumers has not been much reduced, the butchers demanding from 14 to 15 cents per pound for the bes cuts. The price of mutton and lamb is more reasonable, good to prime retailing from 5 to 10 cents per pound. The best mutton and lamb obtained at present is from the boats plying on the Delaware, the sheep having been purchased last spring, while poor, and fed in Jersey, Delaware, &c. About 150 head arrive daily at the various wharves along the city front, and are brought at prices realized at the regular cattle markets.

EVEN TEACHERS WANTED .-- The Board of Directors of Providence School District, will meet at the public house of Mrs. Mary Miller, on SATUR-DAY, JULY 31st, at 1 o'clock, P. M, for the purpose of ap-pointing toachers. None but competent teachers need apply. By order of the Board, july 23 2t 26 MATHIAS SHIRK, Seer'y.

THIRTEEN TEACHERS WANNTED THRTEEN TEACHERS WANNTEL to take charge of the Public Schools of East Donega District. An examination by the County Superintenden will take place at Maytown, on the 30th of 3ULY next, a 9 o'clock, A. M., where teachers are respectfully invited to attend. By order of the Board. july 10 3t 25 JOHN MUSSER, Secretary.

N INE TEACHERS WANTED TO N take charge of the Public Schools in Paradise District. The County Superintendent will hold an examination at the Blark Horse School House, on the 20th of JULY, at 9 oclock, A. M., where teachers are respectfully invited to be present. Term eight months-liberal wages will be given. By order of the Board, july 13 3: 26 JOHN RANCK, President.

Introduction of the second sec

With this mixture of affairs it is not safe to predict the to render him temporarily helpless and insensiresult of the election. The Germans hold the balance of power, and where this vote is thrown a triumph will be achieved.

The steamer Galena, running between Galena and St. Paul, was burnt to the water's edge at Red Wing Landing, on the Mississippi river. No lives were lost, but the pasloss. The U. S. Mail was also consumed. It is said that a duel took place on the opposite side of the

river yesterday, between two of our phisycians. The result There were 28 commitments to our county iail-9 for

murder, and 3 for assault to kill. The number discharged was :::)-now remaining 111. Yours, OLD GUARD.

LETTERS ON CONSUMPTION.

SERIES CONTINUED BY DR. N. R. WOLFR.

LETTER XVII.

which the cure of Consumption in the first stage, or that of grey tuberculization, is founded, and that this result is care not to tell their renders that we are cortigin in the greater number of cases, by means of medi-indebted to the late Know Nothing and Black cated inhalation. I propose to discuss the mode in which Republican Congress for the present low duties the cure of the second stage, or yellow tuberculization, is of which they complain. Why did they not accomplished. The tubercles, from being grey and glisten let the Democratic tariff of 1846 alone / It is become concrete the accompliance of may exist isolated, or they may coalesce and form masses of various sizes. When they soften, it is from the outside to the centre, which accounts for the appearances noted in the first period it is sticky, and varies in appearance from transparency to a dark blueish grey. When the yellow tubercles soften, this expectoration becomes streaked with yellow, and at last altogether yellow, and small specks of cheesy matter are found interspersed: these are the cen-tres of yellow tubercles which have escaped softening.-The chemical composition is changed from that of the grey tubercle, as they are found to contain a considerable quan-

vapors which possess the property of attacking these in-soluble salts of limo and converting them into soluble Valuable papers on this subject were written fifteen years ago by Mr. Murray, M. R. C. S. L., and Dr. Boudet of Paris, but seem most unaccountably to have been overlooked by little hope of her recovery. inhalation, let it be the physician's care to pay strict attention to the removal of any local causes that may have induced the complaint, and to adopt judicious constitutional treatment to remedy the depraved state of the blood, that favors the deposit of tubercles. A very few years ago bleeding, depletion and low diet were universally resorted to for the cure of Consumption, with the effect of removby the profession, and the opposite plan is now pursued .--It is by combining a local and a general treatment that medicated inhalation is so successful; it operates directly on the seat of disease, and removes the local affection, full and while the general treatment puts the system at large in price. such a state that the blood is so improved as no longer to deposit fresh tubercle. In this stage the proportion of recoveries is not so great as in the first, but still a very of cure. Those who expectorate most on rising in the morning, and perceive yellow streaks in the spit, have reached the second stage, and when this becomes decidedly

yollow, the third stage is nigh at hand, if not already be-gun, when the chances of successful treatment are very uch lessened. In my late letters I have pointed out the mode in which inhalants act in curing the first and second stages of Consumption, and to close this part of the subject, I shall do the same in regard to the third stage. In this case masses of yellow tubercle soften and are expectorated, carrying with them the lung tissue, so leaving caverns lined with a membrane, secreting matter abundantly, and accompanied

by severe constitutional disturbance, indicated by hectic fever, drenching night sweats, &c. ever, drenching night sweats, &c. In this state of things we employ vapors that are capa-ers to call and examine his work. A. F. BAIR. ble of stimulating the ulcerated surface to set up a new action, and also of diminishing and finally arresting the secretion of matter. The sides of the cavity either become glued together, or it is lined with a pseudo-mucous membrane. This is the true explanation of the way that inhalation operates a cure in Consumption, and is so simple and reasonable as to convince every unbiased mind at firs sight. Until this mode of treatment was introduced, Consumption in any stage was invariably fatal, and it does put himself in the hands of a physician who confesses that common sense that the patient should shun such a Jack Ketch of a practitioner, and put himself in the hands of one who follows a treatment that has been proved to be mode of practice confessedly holds out death as the inevi- imitation. table result of its treatment. It passes comprehension that

To the Editor of the Missouri Democrat: Sin: lu my last letter I explained the principle upon are trying very hard to again make political

ing, become converted into a yellow, cheesy matter; they afforded ample and adequate protection and the expectoration, in the second and third stages. During saddle on the Democracy-they made the

covered with a young growth of wood, most of which is chestout. Twenty Acres of this Lot is subject to a valuable "Ore Leave," which has heretofore yielded an average income of \$400 a year. The leaves of the said 20 acres will pay to the purchaser of the land a root of five doilars per annun, and 25 cents a ton on whatever amount of iron ore is taken out. The fine quality of this land and the large revenue heretofore received from the "ore leave" attached, renders this lot peculiarly valuable. The Iron ore on this lot is represented to be of the finest quality and almost inex-haustible. The original lease on "Ore Leave" was from Charlotte D. Owingo to Richard Green. The improvements on this part of the property consist of a small frame Dwel-ling.

on this part of the property consist of a small frame Dwel-ling. LOT NO. 7 contains 50 acres, 3 roods and 21 perches of land-has no improvements upon it, and is in all respects like unto Lot No. 6 as to the wood and lease to Green for part thereof, to be subject to a road along its north side 20 feet wide for common me. LOT NO 8, contains 83 acres and 1 perch of land-is sim-liar to Lot No. 6 in its young growth of wood, and subject to the right of way laid out along its north side for common use 20 feet wide. A fine spring of water is on this lot. A Plat of this property may be seen as above described and laid off, at the office of T. M. LANAHAN, Ksq., No. 31 Loxington street. Terms of sale as prescribed by the decree-one-fourth cash, balance in six, twelve and eighteen months, with interest and security, to be approved by the Trustees. TRUS, M. E. FRIGK, GRO, WM. BROWN, 10 Room
