Politics have absorbed all other matters in the past week. The three parties are moving, as it were, heaven and earth, for the election of their respective candidates Meetings have been held every night during the week, each party carrying on the canvass with a will and deterto triumph. The Free-Soil, Black Republican Giddings-Fred Douglass faction, with Francis P. Blair at their head, are carrying on their war with appeals to the Germans-telling them that they are now on a level with the negro slave, and that the object of Mr. Blair and his ult. party is to elevate them above the slave negro and place lives. them on an equality with free negros! Which do you suppose, of this dark doctrine, the German will prefer? Let the Germans in your county answer. The Know Nothings, at least those of that which was once a party, and who cannot support either of the candidates have put up one of their own-that they may thus throw their votes away! If, therefore, the Know Nothings stick to their ticket, the National Democracy will prove triumphant, but it is believed, that and some plausibility, too, that a great majority of the K. A LAW DECISION INTERESTING TO BUILDERS.

One who erects a house in a city, near the line of neighboring property, must make his foundation with proper regard to the probable future use of the property adjacent.

The owner of adjacent property who builds subsequently may excavate the earth for his foundation deeper than the foundation of the first erected building, by giving timely notice of his intention so to do; and in such ase it becomes the duty of the first builder to take proper measures to avoid any evil consequences, and the duty of the second to use ordinary care and diligence in the prosecution of his work, and to afford the first builder an opportunity to come upon his lot and underpin his wall. If, instead of giving such notice, he underpin it himself, he must do it with care, and is responsible for negligence.

In cases of mucus accumulation in the Eustachian Tube and Tympanum, inflammation of the mucus membrane, nervous affections, diseases of the membrane tympani, called the "Drum" or when the disease can be traced to the effects of fevers, or colds, the use of quinine or mecurial medicines, gatherings in the ears in chidhood, &c. this treatment stands pre-eminent. When the auditory canal is dry and scaly, with little or no screttion, when the deafness is accompanied with noise in the ear, like failing of water, chirping of insects, ringing of bells. rustling of leaves, continued pulsations, a discharge of matter; or when stooping, a sensation is felt as if a rush of blood to the lead had taken place; when the hearing is less acute in dull, clondy weather, or when a cold has been taken, this method of treating the diseases in infallible. In deaf and dumb cases, my experience warrants me in saying that if the hearing was good at any time, much can be accomplished. H. ENWOOD, Sr. Brooklyn, N. Y aug 3 6m 29 CARD FROM DR. JAMES M

A CAR D FROM DR. JAMES M. AJRRETI, OF THE NEW YORK LUNG IN-FIRMARY.—My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivade opportunities and advantage of pathological research—aided not a little by a perfect system of Medical Inhalation—has snabled inc to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Threat, Lungs and Air-Passages. By Inhalation, the vapor and curative properties of medicine-sare directly addressed to the diseased organisma the integrament. I do not advise the use of Medical Inhalalation of any kind, to the exclusion of general treatment and although I condeier it a useful adjuvant in the proper management of those fearful and often fatel diseases, yet I dem it very meessary that each patient should have the benefit of both general and local treatment. The success of my directment in the above diseases, and the high character of the Institution over which I have so long had the honor ment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported, and after [due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to these only who entered the Infirmary, or who were able to visit me at my office. Hoping, therefore, that the arrangement will give entire satisfaction, both to my professional brethren and the public. I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each Individual case, Inhaling 1a pors, Madical Inhalers, &c. &c., will be forwarded by express to any part of the United States or the Canadas. Terans—My terms of treatment by letter are as follows: \$12 per month for each patient, which will include medicine sufficient for one motth's use also Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: \$5 to be paid to Kxpress Agent on receipt of the box of Medicine, and their symptoms to full, can be treated as well by letter as by personal examination. Patieuts availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case more than thirty days. Latters for advice promptly answered the formary, where many interesting cases can be witnessed, and where our improved apparatus for the inhalation of medicated vapor can be seen and inspected.
