EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding late is secured with an indestructible cement, by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is boild in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the Black varieth in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as lite. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.

The Map will be very minute in its details, being a complete plot of the city with all the new and contemplated streets and alleys, and all the original town lots, numbered as recorded, together with a ground plan of all the buildings as they stand on their respective lots, the Schools, Colleges, with all Churches, Hotels, Stores, Manufacturing Establishments and all the offices of professional men in the city, distinctly named and colored, and the names of all the subscribers duly inserted on the margin, making it not only a complete map of the city, but also a business directory; and, in connection with all this, there will be from fifteen to twenty-five original views of Residences, Churches, Colleges, and Manufacturing Establishments in the city and vicinity beautifully colored, the natural color, as I make all my own sketches and color them on the spot. Samples of which can be shown that were published in West Chester cand Chester county, which have never been equalled by any views published on any map in the United States. Having had considerable experience in map publishing, and having devoted a great deal of time to the art of perspective drawing. I faster myself that I am able to produce beautiful life-like pictures that cannot be excelled, and in fact defy all competition in this style of Map publishing. All persons wishine views published on the city man, or having property they wish plated in, will please leave orders at J. Franklin Reigart's office, Pulton Buildings, which will be promptly attended to by the subscri-

ings, which will be promptly attended to by the subscriber.

The mass of voluntary testimonials on hand, which have accumulated within the last month, plainly indicate the points in which this Machine excells all others, viz:

Its easy convertibility from a Mower to a Reaper, and vice versa; its construction for adaptation to uneven surfaces; the ease with which it can be raised or lowered for outling from two inches to eight inches from the ground, which is done by means of a lever controlled by the driver while in his seat; its case of druft portability and cleanness, and case of cut; its simple and easy apparatus for throwing in and out of gear while in motion; its freeness from side drafts its perfect adaptation for cutting all kinds of grass, grain and cloverseed; its carrying its own weight upon its wheels, thereby relieving the hores from all weight upon its wheels, thereby relieving the hores from all weight upon the embodied in any other Machino, and all will admit how essential and indispensable they are to a complete combined Machine.

apr 13 3m 13 Cor. 8th and Cherry streets, Philads. Great Journal of Crime and Criminals is in its Thirteeuth year, and is widely circulated throughout the country. It is the first paper of the kind published in the United States, and is distinctive in its character. It has lately passed into the hands of Geo. W. Matsell & Co., by whom it will hereafter be conducted. Mr. Matsell was formerly Chief of Police of New York City, and he will no doubt render it one of the most interesting papers in the country. Its editorials are forcibly written, and of a character that should command for the paper universal support.
