By the arrival yesterday of the schooner Virgnia Antoinette, Captain Shisa, from npico, we have received files of the Union of the 14th inst., which contain some details of the recent movements of the beligerent forces

in the interior. The Union-a paper devoted to the Zuloaga Government-confirms the accounts of the cap-ture of San Luis Potosi by the Liberal forces under Col. Zuazua. We translate the following from the Union's account:

The reports of the details of this event which are in circulation are various; but that which appears nearest the truth is that Zuazua, taking advantage of the departure of Miramon's brigade to the relief of Guadolajara, advanced to attack San Luis with a force more than double that of the garrison, and after six hours fighting, which cost many lives succeeded in capturing the place, its defenders retiring towards Mexico, with the exception of some who remained prisoners, and whose number is unknown. Once within the city, the assailants tore down and sacked many houses in the suburbs. Three or four in the centre of the city met a similar fate, and if others escaped, it was owing not to the clemency of the victorious, but to the massive ess of their structure and solidity of their doors, which resisted the efforts made to demolish them till the passion of the soldiery subsided, and order was in a measure restored "The Commander assembled the Spanish

merchants, and wanted to impose on them a forced loan of \$200,000, with the object it is supposed, of punishing their sympathy with the Supreme Government. They were imprisoned with the intention of keeping them confined till they should comply with the demand; but the other foreign merchant came to their assistance, and by their intervention the sum was reduced to \$120,000, and was imposed on all, without distinction of nationality. Another of the outrages of Zuazua was to imprison thirty ecclesiastics; and to demand from the Bishop \$50,000 as a fine, which that respectable prelate refused to pay. One of the most notable circumstances and that which most strongly demands atter tion, is that the second in command of the

force held a similar position under celebrated filibuster Walker, and that artiller ists who served the seventeen pieces with which San Luis was assaulted and who caused the most damage, were taken from among the followers of the same adventurer."

An extra of the Union of the 14th reports

An extra of the Union of the 14th reports that General Miramon had gained a victory on the 9th, over the Liberal forces, near Guanajuato, capturing a large amount of arms

TUNNEL UNDER THE ALPS -- The mails per America, received July 23d, bring accounts of the commencement some months ago of the Alpine Tunnel, connecting Modena and Bardeniche on opposite sides of the Alps, which there tower to a height of four thousand eight hundred English feet, nearly a mile high. Its length will be nearly eight and a half English miles. From the great height of the mountain, it can only be worked from the ends. By the ordinary means hitherto employed, thirty-six years would be required to complete it. By the perforators or drilling machines, operated by compressed air, the work, it is estimated, will be completed in six years. Alnine Tunnel connecting Modena and Buris estimated, will be completed in six years.

ar Mexican Mustany Liniment .-- From rich and poor, boud and free; all colors, grades and condi-

tions of life, we hear the same meed of praise awarded, this wonderful article. Sores are healed, pains relieved, live saved, valuable suimals made useful, and untold ills as suaged by this great medicine which are surprising to the judgment of man. What family does not require a standard Liniment? Who ever heard of the same effects produced by any other article? For Cuts. Bruises, Sprains, Rheum atism, Swellings, Strained Horse, &c. It has no equal.—
Becare of Imitations. The genuine Mustang Linimen' is sold by all respectable Druggists and Livery Men in every town, parish and hamlet throughout North and South America, Europe, and the Islands of the Ocean. Buy at once. Beware of any "other Bragg's Liniment." It is a base imitation. aug 10 1m-30 Proprietors, New York.

OF FACT AND FANCY, WIT AND HUMOIS.

RITYME. REASON, AND ROMANCE

EDITED BY S. G. GOODRICH—(PETER PARLEY)

One volume, large octave, handsomely bound in red morroreo, with gulit side and back; containing 750 pages, and Illustrated by 300 Beautiful Engravings.

The design of this book is to bring whole libraries into a single volume—to furnish a mental meal for every day and every hour—for every taste, humor age, capric—a book for the grave and gay, the old and y ung: we have, therefore, Sclence and Philosophy, Rhyme and Reason, Wit and Wisdom, Fact and Easoy, which, put together as they come, produce a sort of intellectual plum pudding, inasmuch as the whole is peppered and spiecd with puts, conjudrums, and drolleries, to say nothing of a garnish of three hundred engravings.

In these pares are given the essence of thought and sentiment from Guethe, Sidney Smith, Sam. Johnson, and others; clerical anaedotes, Hibernian eccentri-titles, West ern extrawaganzas, gathered from the four winds of the press; on this of Flavian and Lafontaine; of the the epic pooms of Jerusalem D-livered, Telemachus, Jerland Yuriose, and others; of the Life and Savings of Mrs. Parting ten and the Widow Bedott; of the Bun-by Paers and the Green Mountain Girls; of the Bun-by Paers and the Erypt and Palestine, Paul and Virginia, Alexander Dumas, the Swiss Family Rothnson, Mr. Gildon and Sam Patch; with spicy citations of prose and poetry, from the master-spirits of the day—Longfellow, Bryant, Bayard Taylor, Dr

DEAFNESS, TOTAL OR PARTIAL, ENTIRELY

BE MOV46 D.

DR. H. ENWOOD, SR., beers leave to call the attention of those suffering under a partial or total loss of the sense of hearing to the following facts: He treats diseases of the middle and internal ear with medicated douches, such as is precised in the Infirmaries of Borlin, Lepisic, Brussels, Hamburg and Petersburg, and ladely by the most distinguished London aurists, with the most wonderful success; indeed, it is the only method that has been universally successful.

unished London nurists, with the most wonderful success; infineed, it is the only method that has been universally successful.

The best proof of the effi-acy of this treatment will be a reference to nearly nine hundred names, residents of the United States. Canada. New Brunswick and Nova Scotia, who have been restored to acute hearing, and not a single solitary case, to our knowledge, did we fail to effect either a partial or total restoration of the hearing, when our advice and instructions were faithfully and punctually adhered to. Many who could not hear the report of a pistol at srm's length, can now hear a watch beat at the distance of four feet. In cases of mucus accumulation in the Eustacham Tube and Tympanum, inflammation of the mucus membrane, nervous affections, diseases of the membrana tympani, called the "Drum," or when the disease can be traced to the effects of fovers, or colds, the use of quinine or mecurial medicines, gatherings in the cars in chidhood, de., this treatment stands pro eminent. When the auditory canal is dry and scaly, with little or no secretion, when the deafness is accompanied with noise in the ear, like failing of water, chirping of insects, ringing of bells.rustling of leaves, continued pulsations, a discharge of mater; or when stooping, a asensation is felt as if a a runk of blood to the head had taken place; when the hearing is less acute in dull, cloudy weather, or when a cold has been taken, this method of treating the disease is infallible. In deaf and dumb cases, my experience warrants me in asying that if the hearing was good at any time, much can be accomplished. In the deaf and dumb sobools at Lepsic, out of a class of fourteen, I succeeded in restoring four to acute hearing.

Dr. E begs explicitly to state that in those croses he un-

Dr. E. begs explicitly to stake that in those cases he untakes. he guarantees a successful result—complete recornation of the sense or such a marked improvement—as will be perfectly satisfactory, if his remedies are shiftfully applied and directions adhered to: appli-auts will please that their age, duration of the disease. If matter issues from the external passages, if there are noises in the cars, state of general health, and what they suppose to have been the cause of the deafness. When the hearing is restored, it is expected that those in easy circumstances will contribute liberally.

AGR D FROM DR. JAMES M.

A CAR D FROM DR. JAMES M.

A JARRETT, OF THE NEW YORK LUNG INFIRMARY.—My connection for the past eight years with
the above Institution, as Chief Physician, and, a twelve
years' course of steady devotion to the Cure of Pulmonary Consumption and its kindsed diseases, together with
my unrivaled opportunities and advantage of patholorical
r-earch—aided not a little by a perfect system of **Indiana**
Inhalation—has enabled me to arrive at a decisive, direct,
and successful course of treatment for the positive and
radial cure of all diseases of the **Invast Lungs and AirPatsugez.

By Inhalation, the vapor and curative properties
of medicines are directly addressed to the diseased organs and
the interument. I do not advise the use of Medical Inhalalation of any kind, to the exclusion of **general treatment;
and although I consider it a useful adjuvant in the proper
management of those fearful and often fatal diseases, yet I
deem it very necessary that each patient should have the
benefit of both **general and local treatment. The success of my
treatment in the above diseases, and the high character of
the Institution over which I have so long had the honor
to preside, are too well known to need any ealogy or comment from me. At the solicitation of many private and
professional friends, through whose philanthropic aid the
above charity has been long and liberally supported, and
after idue consideration. I have concluded to make such
arrangements as will bring the benefits of my exercisece
and treatment within the reach of all, and not confine myself, as heretofore, to the se only who entered the Infirmary,
or who were able to visit me at my office. Huppe, therefore, that the arrangement will give entire satisfaction,
both to my professional brethren and the public. I would
respectfully announce in conclusion, that I can now be consulted personally or by letter, on all diseases as ab-ve. at
that the medicines, the same as used in the

medicated vapor aug 3 6m 29 an be seen and inspected.
