Business has somewhat revived. The fall trade is now about commencing, and our Main street merchants are busily engaged in receiving goods. Our Third Annual Fair commences on Monday next, when we expect large numbers of country merchants. This Fair promises to fully equal if not surpass in grandeur and magnitude those of previous years. All kinds of stock are daily arriving from Kentucky, Indiana, Illinois, Iowa and other finest stock in the Union will be on exhibition at this Fair. Great preparations are being made to make this one of the grandest affairs over held in the Mississippi Valley There are \$21,000 offered in premiums—the most liberal

list ever published in this country.

The health of the city is not so good—chills and fever prevail to a considerable extent. The interments for the Bluff. past week number 140—an increase over the usual number of about 60. Our accounts from the surrounding country are most

favorable to the crops.

The yellow fever in New Orleans and along the coast is still on the increase. The City Council of Natchez, Miss., have established a rigorous quarantine. No person who has been aboard of a boat from a port where the yellow fever is known to exist, shall be allowed to enter the city before the expiration of twenty-one days after leaving such port. The yellow fever has been declared an epidemic at

ject the New Orleans Courier says:

Applying this test to Illinois, we shall be compelled to recognize both Mr. Douglas and his Democratic adversaries in that State as our friends. Mr. Douglas has always been bitterly hostile to the federal Northern sentiment, and sternly strong on the doctrine of State rights. He has always been prominent in dencuncing the meddling spirit of Northern fanatics, and almost firce in his assertion of the full right of each State to carry out its own ideas of its own policy. In his last speech at Chicago, while he was being daily twitted from behind by the "Union" with his rebellien last whiter, and beset before and around by anti-slavery fanatics, he came out with more than his usual massive strongth in favor of the Dred Scott decision and the rights of the slave States generally. However grave his error in disregarding the wishes of his party in Congress on the last Kansas Bill, he is now at least fighting a glorious battle on true Democratic ground. It is to be hoped that his Democratic opponents will withdraw their opposition and give him their support, or at least leave him to demolish the common enemy alone. We are glad to see it intimated in various quarters that Mr. Buchanan himself does not by any means approve the course of the "Union" on this point.

Not that there is a scarcity of these articles, but because men desire and mean to grow rich by speculation. Now, as was suggested last year, all people have to do is buy less of these year, all people have to do is buy less of these year where the suggestion of the second was widely known as an active, enterprising business. Gen. M. was at one time High Sheriff of Lancaster County, and was a construction of the commodities. Make one pound of sugar, and one quart of molasses do where you have used two of each. In this sway you will soon lessent the demand for the articles, und the rascals who have bought largely with a view to speculate, will be non-suited in their bases attempt. Flour, too, has taken an upward start from a similar cause. We presume the pretext is shortness of the wheat crop. If we should up any nregard to this old stereotyped ory, we should need not only to expect high prices, but a down-right famine! The greatest ory, we should need not only to expect high prices, but a down-right famine! The greatest enemies which mankind have now to contend with are speculators. It is time that the people should understand their tactics, and defeat them, not by frenching, and thus lessen the demand for the articles speculators have in hand.

A MERICAN WATCHES.
APPLETON, TRACY & 00.,
WALTHAM, MASS,
MANUPACTURERS OF
PATENT LEVER WATCHES.

These superior Watches are made by the aid of new and original machinery, expressly designed to secure, with a low price, a first, substantial, duranta and uniformity reliable time keeper. The movements are new in construction, and are pronounced by the highest authorities to be faultless in principle and quality, and have been proved by the most exacting tests to be reliable and unfailing in action. These watches are manufactured entire from the crude material, in a single establishment, by connected and uniform processes—the manufactury being organized upon the same system that has been adopted in the production of the unequalled American fire-arms, which enables us to produce a movement at one half the price of any foreign movement of the same quality, and we guarantee the perfect performance, for ten years, of every watch manufactured by us.

the perfect performance, for ten years, of every watch manufactured by us.

All foreign watches are made by hand, the American watches being the only ones made by machinery upon a uniform system throughout. Nearly all hand-made watches are defective, and are continually getting out of order. In many parts of the country it is impossible to find good watch repairers, and watch repairing is always uncertain and expensive. The introduction of American watches disposes of this difficulty, and gountry merchants, as well as watch dealers, can keep watches as part of their miscellaneous stock, and thus supply their customers with a Naw Staptz, which may be used as any other article, without mystery or humbing. Sold by the trade generally, and by ROBBINS & APPLETION,

Dr. James Lull, of Postdam, N. Y., says:—"I have cured
the most deplorable costiveness of the bowels with Brandreth's pills, when every other remedy had failed, and the
patient was given up to die. Skin diseases of any inveterate and painful character, such as erysipelas, salt rheum,

use. I have cured the rheumatic, the epileptic, the paralytic and the consumptive with these excellent pills alone."
In jaundice and all affections of the liver, dyspepsia,
dysentery and diarrheca, pleurisy, sudden pains and inflamations, female obstructions; scorbutic and scrofulous,
even gouty and neuralgic affections have given way to the
use of this medicine, and now, after twenty years' experience, my estimation of Brandreth's Pills continues to inrease.

A young lady, beautiful and healthy, took cold, which caused a serious obstruction for two years; her health was broken down and her beauty departed.
