Having used one of "REFVES PATENT LEVER PENS" I am free to say it is far superior to anything in the Pen line I have ever used. With the same Pen the haviest dash and the finest hair-stroke can be made at the will of the Pens-man, and being constructed of such heavy material, the bib thereby being more firmly secured, it will wear longer

These pictures are not reversed, as daguerroo-types areand may be seen in anylight. CUMMINGS, only, over Sprecher & Bro.'s New Store, North Queen st., Lancaster.

EXPLANATION.

EXPLANATION. The term ANBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambralos, sig-nifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corres-ponding size is secured with an indestructible comant, by by which the picture will retain its original brilliancy for ages; it will not corrole by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any taking in the graditions of light and shade, and may be seen in any light. The public are cautioned against initiations made on single plates of glass, with the Slack varnish in immediate contact with the Picture.— buch are not permanent, as the varnish must crack and destroy the Picture.
