ST. LOUIS CORRESPONDENCE. A Pigeon Hunt—The New Eldorado at Pike Peak—Com-panies Organizing in our City—What the Pupers say of it—Is it, a Humbug gotten up to take People to the Fron-tier Territories!—Depreciation in the Value of Land— Our Money Market—Thaddeus Stevens and his Fanati-cisms—Will the Voters Elect Him, &c.

Sr. Louis, Sept. 27, 1858. The omission of "Old Guard" last week was unavoida ble. The season for pigeon shooting having arrived, we gathered up our hunting equipments and proceeded on the Iron Mountain Railroad to Sulphur Springs, where pigeons in great abundance "do congregate" for the sulphu water, and "mast," which grow in great profusion on the sturdy old cake in the vicinity. The first day we bagged but fourteen, and at night-fall took lodgings at 'Equire Crowe's-a neat, comfortable house on the road side. The Squre is a man of many callings—the Postmaster for that section of country; a Justice of the Peace; a country mer chant and dealer in dry goods, drugs and groceries; landlord, and we believe a country preacher; a printer of the "old stock"—having learned his trade with the re nowned Duff Green, and for a long time a compositor or the St. Louis Republican, and twenty years ago the edito and proprietor of a paper in this city: his father was a native of Lancaster county, Pa., and to take him all in all a first rate member of the craft. The 'Squire made us as comfortable-in his branch of accommodation-as the juice of the grape would permit, whilst his lady prepared a sumptuous supper-one that would satisfy the appetite of the most ravenous hunter. It has always been a please ure to us to set down to a good meal, gotten up in the old style of country cooking-particularly when very hungry After the inner man was satisfied, we puffed a fine segar for a half hour, in the meantime gazing intensely at the Comet, which we thought looked clearer and brighter than at any previous time, dragging in its course a brilliant Our attention was next drawn to a table, upor which was placed the "History of the Four Kings" and a game of euchre was proposed—with the 'Squire's accom-plished daughter as a partner, we entered the game, but must confess, and do it boldly, that when the evening's amusements terminated, we were only "second best" the game. At day light on the following morning we re paired to the Sulphur Springs-about a mile distant-and in about an hour or two bagged thirty pigeons; returning, we had a fine breakfast, and started for the railroad-has forty four pigeous. We enjoyed the sport greatly, and think something of repeating the hunt. Hundreds of our citizens are out daily, and the lovers of such amusements have a good time. Millions of wild pigeons pass over the city every morning, and hunters are seen in all directions

The weather has been coel and pleasant since the date of our last report. The rivers are falling slowly, but boats are arriving from and departing to all sections. Our produce market presents no new feature-prices remain changed in most articles. The wholesale dealers and jobbers are doing a good business, but not so extensive as money in the hands of country merchants, and consetly they buy but sparingly. Our banks, however, of her legislative or judicial authorities." have a great plenty, but there seems to be no demand for it and it lies idle. There is little doing in exchange, and rates are steady and dull on the Eastern cities at ½, and scarce and quiet on New Orleans at 11/2 per cent. premium. Ime bills are wanted, but few are making, and first-class and good names can readily be negotiated at 3/@1 per cent per month discount. Currency is scarce. Illlinois and Wiscousin notes are received at 3/61 per cent. discount, and some of the bankers are taking the notes of the anks of Kentucky, and the State Banks of Indiana and Ohio, at par with Missouri bills,

Property, both city and country, has very much depreciated. Land that would have brought, twelve months ago, \$10 an acre, is now offered for \$5, without purchasers at that That which was held at \$40 and \$50, is now in market for \$20 and \$25. Those who have money to invest in land, cannot find a better opportunity than the present. It is thought and believed that it will take at least five years bring land up to the standard it was this time last year, We think those of your readers who have any desire to invest in Western lands, should embrace the present opportunity-but its rise in value must be waited for-the time will come when fortunes will be made from such invest-

There is just now a wild and furious excitement pervad ing the people of the Western States, relative to the lately discovered gold fields of Pike's Peak. Several companies are now organizing in this city, for the new Eldorado-to tart in a few weeks. One or two companies have already left. Some of the yellow dust found at Pike's Peak has been brought here, and its exhibition has spread to such a degree, that the disease has been pronounced an "epidemic," and assuming a contagion form throughout the city future to decide. For ourselves we have not much faith in this discovery of gold, and even should all be true as represented, we think it worth at least a wagon load of rold to endure the privation to and from Pike's Peak .--What sad accounts did we have from the California emigration-who could read them without a shudder-many eft never to return with their fortunes-falling victims to disease and death, whilst many of those who reached the rolden shores of the Pacific, found themselves worse off worth less than nothing, and ashamed to come back and case with those who we to the newly discovered "mountains of gold " at what is called Pike's Peak. We are inclined to think the story is got up for speculation. If it is a humbug, however, many thousands of people will share in the "sell," which will, doubtless, satisfy each individual

As there may be some ambitious young me desirous of undertaking the journey to Pike's Peak, and as it seems to be the all absorbing topic just now, we will say something more concerning this new Eldorado, for r especial benefit. These diggings are only about 500 access by river and by railroads is so easy-a rush to the mines may be expected. The Republican adds:

mines may be expected. The Republican adds:

"As starting points on the Missouri, Kansas City, Weston, Leavenworth City, St. Joseph and Nebraska City, may each be named as having advantges for outfitting the gold-seekers. We notice that many parties are being made up for a visit to the mines, this winter; not a very prudent step in most cases, when it is considered how scanty is the shelter there at present against the inclemencies of the weather. Some of them will, we fear, encounter hardships and sufferings, which they will be very badly prepared to meet. Early next spring will be soon enough for most who wish to seek their fortunes in these mines. Meanwhile, they can get all the information they need, and can make their arrangements leisurely, so as to be enabled to reach their d-stination with the smallest outlay of time, labor and money." of time, labor and money. The Nebraska City News indulces thus.

The Nebraska City News indulges thus:

On the corners of the streets, in the banking house, at the desk, at the bench, the plow—everywhere—everyhody is talking about the new El Dorado, the Cherry Creek and Pike's Peak Gold Mines. We were cautions at first—our citizens, with the wary shrewdness and sagacity peculiar to western people, doubted, disbelieved, questioned; but at last the faror has broken out here, the stampede is made. We are a community of gold hunters.

"Already several different companies are formed and will start early in the coming week. They go to dig gold. There is no longer any doubt in their minds.

"Lleut. R. H. Miller, of the firm of Goddin, Miller & Co., H. C. Norton. Mayor A. A. Brookfield, Geo. Sroat, W. H. Hill and brother, Chas. W. Sears, Tom. Lorton, go in one company with two wagons. They start the coming week. The Hon. James H. Decker, late Speaker of the House of Representatives, Judge Brown, and others go in another company. Everybody here, who can possibly content themselves for a while, declare their determination to leave in the spring.

themserves of a man, in the spring,
"All accounts from the mines indicate good paying diggings, and with the proper instruments and further prospecting, there is no longer left a doubt that fortunes will be made in the new El Dorado."

The St. Louis Republican further remarks "There is no longer room for any suggestion, that the gold stories are inventions or exaggerations set on foot, with a view to draw emigrants to the frontier Territories. We have said that they have attained general credence on the frontier; and we will add that we see no reason t the frontier; and we will and that we see no reason to doubt that they deserve the credit they have received.— The witnesses to their truth are not only numerous, but they are many of thom well known citizens, whose char-acters are a guarantee that their reports may be relied on. The evidence goes far to show that the gold diggings of the Rocky Mountains promise to turn out as rich, and perhaps as extensive as those of California. Every person has his own opinion about the gold at

We are inclined to think the story is greatly xaggerated, and many of the seekers of gold will be disappointed when they arrive at the Peak. But, to those the have nothing of importance to keep them at home, they will have the means of learning something of the geography of the country from personal knowledge and experience, by making the journey. We have before us a report of a committee appointed at a citizen's meeting, held n Leavenworth City, on the 13th inst., to report with reference to the advantages which that city presents as a starting point for the Pike's Peak Gold Fields. The report contains a table of distances, from which it appears that the whole distance from Leavenworth to the fields, is 783 miles. It also states that the cost of an outfit for a party of four, will be, inclusive of six months' provisions, one hundred dollars for each man.

our city on Saturday last, to fill vacancies in the Board of Delegates. In both the National Democracy triumphed. The contested election case between Blair and Barre terminated as we supposed, and so stated, in smoke. It is now beyond a question, a fixed fact, that Mr. Blair has made his last race on Missouri soil. In all probability he will remove to Massachusetts.

The two wings of the Democracy in Illinois still stand apart, with no prospect of a union. The result is inevita-

We see that Mr. Stevens has endeavored to silence the Intelligencer by prosecution. That is an old game of his. He should know by this time, for he is old enough, that sueing an editor-a printer-amounts to about as much as a grain of mustards-eed on the sea-shore. We think the best thing the people of Lancaster county can do, will be to keep Stevens from Washington, for he can sertainly like Frank Blair with us-representing a little sectional faction, and having become so obnoxious, that everything he proposed would savor of niggers, and as a matter of course arouse suspicion and discust, and his proposition would pass unheeded, and you as well as us, as a people, would suffer for his fanaticisms. The Western Representatives can't join Stevens, and if the people regard their interests of any worth or value, they had much better vote for and elect Mr. Hopkins as their Representative in the

National Congress: he will be able to accomplish for your people what Mr. Stevens would not, under the circumstances, on account of his fanaticisms. We expect a good account from Lancaster county, as well as your neighbor old Berks.

Mr. N. Bear, printer, formerly of the Lancaster Exami ner, is now in our city. Mr. J. McCarty was instantly killed on Monday last near Jefferson city, by the accidental discharge of a gun. He was from Pennsylvania, 24 years of age, and leaves a wife and child.

A lady in Payette county, Ky., has emancipated 49 slaves-mostly women and children-and planted them in Green county, Ohio. How would you like to have a like number in Lancaster, Mr. Stevens? OLD GUARD. Yours,

From the Examiner & Herald. MR. STEVENS' PUBLIC HISTORY.

In your account of Mr. Stevens' public career, last week, you say nothing of his having been Canal Commissioner during the Ritner and Porter campaign; during which time there was more corruption in the man-agement of the public works than during

double the same period of time under any his successors in office. The curious reader is referred for evidence to the reports made by sundry investigating committees of the Legislature during the session of 1839. If you had space, it would be worth while to re-publish

The following extracts from McElwee's report on the Gettysburg railroad, made June 15th, 1839, (see House Journal, vol. 2, page 15,) will be found interesting. His report refers to the management of the road while Mr. Stevens was Canal Commissioner:

"Of all works of doubtful expediency constructed by the state, in the opinion of your committee, there is none so useless, so expensive, or of so little value as the Gettysburg rail road. It was commenced by fraud and intrigue and will end in disgrace and loss to the commonwealth. The means of the commonwealth are inadequate to its completion, and if com- its country's glory and its country's good. pleted it could never be productive of general benefit.

"The Gettysburg railroad commences at a small town of that name in Adams county, which is separated by a distance of 43 miles from any other work belonging to the State, and extends thence near to and nearly parallel to the Maryland line over the South mountain It crosses into Maryland at a distance of 50 miles from Gettysburg, and extends 13 miles was anticipated a few months since. There seems to be no into that state, where the funds of Pennsylvania would be squandered beyond the control

"Besides these disadvantages, the route of the Gettysburg line is located for a considerable distance over a mountainous, barren and almost uninhabited country, which offers either now or prospectively, no transportation from its products, either agricultural, mineral, or manufacturing, to render the work profitable or even to sustain its ordinary repairs. A proper idea of the travel upon this line may e inferred from the fact that a tri-weekly two horse stage coach, which is but poorly sustained, accommodates the public travel from Hagerstown through Gettysburg to York,

and is very frequently without a passenger."

"By the estimates of the engineer in his report herewith presented, it will be perceived that the cost of the road from Gettysburg to Clearspring, a distance of 63 miles, would be \$4,872,348 78 cts., and the cost of the line from Gettysburg to Vork would be \$1,000 for from Gettysburg to York would be \$1,104,000. In all \$5,976,348 78 cents, a sum equal to onefifth the cost of all the other public works belonging to the state."

"The testimony taken by the committee establishes the fact that the persons who conducted the works on the Gettysburg railroad during the past summer, in the most unjustifiable manner, interfered in the then pending election for Governor; that the Superintendent raised the contractors prices by a connivance at the provisions and injunctions of the law, and that the contractors in turn taxed the men engaged upon the work as laborers, large proportionate amounts of their hard earnings to bet upon Mr. Ritner's election, and to bear the electioneering expenses. In some cases this system of oppression and robbery resisted and the money collected by an appeal to the law. One person employed upon this work, a foreigner, who has never been naturalized, testifies to the fact that he was clerk of than when they started. Indeed, whilst one made a "for- the election at Millerstown district—that he tune," an hundred returned penniless, or are still there was also a clerk for two of the principal contractors, and that said contractors retained a Small sales of new at \$5.57%@\$6 3 64 bs., and old at \$5.75. look their old friends in the face. This may not be the portion of the men's wages for electioneering purposes, and betting on Mr. Ritner's election. | bushel Others stated that many workmen who were foreigners and not naturalized, were compelled to attend the election polls and vote for Mr. only about 700 barrels were sold, ranging from \$5.50 to Ritner on pain of being discharged."

"Your committee found much difficulty in arriving at the whole truth relative to official transactions of officers upon the road, as many witnesses refused to answer questions asked, and others positively refused to obey the summons of the committee; while others left the State, and were not on that account within the jurisdiction of the committee."

The road was estimated to cost, when completed, six millions of dollars: but if it had been finished it would have cost nearer ten millions, and would not then have been worth INVESTIGATOR.

TERRIBLE ACCIDENT AT SEA.

Burning of the Steamer Austria--Over Five Hundred Lives Lost--Scenes and Incidents--Twelve Sur-vivors Arrived.

Halifax, September 27. The Cunard steamer at sea proves to have been the Austria. Twelve of the survivors have arrived here. There were in all about six hundred souls on board the ill-fated steamer, of which only sixty-seven were saved. SECOND DISPATCH.

Halifax, September 27. The brig Lotus arrived yesterday with twelve of the sixty-seven survivors of the destruction of the steamer Austria, burned at sea on the 13th. A passenger reports that a "little after 2 o'clock on the afternoon of the 13th, a dense volume of smoke burst from the after entrance to the steerage, the speed was instantly slackened one-half, at which speed she continued going until the magazine exploded, when the engineers, it is supposed, vere instantly suffocated. The fire next burst through the lights at midship, traveling aft with fearful rapidity. A boat let down on the port side was instantly crushed, and another on the starboard side was swamped from the numbers rushing into it. All the first cabin passengers were on the poop, excepting a few gentlemen, who must have been smothered in the smoking room. Many of the second cabin passengers were also on the poop, but a number were shut up in the cabin by the fire.— Some were pulled up through the ventilator, but the greater number perished in the flames. A woman was drawn up who said that six were then already suffocated. Several men and women jumped into the sea by twos and threes. Some of the women were then already in flames-others hesitated until driven to the last moment by the advancing flames. In half an hour not a soul was left on the poop deck. The French bark Maurice, Capt. Ernest Renaud, came alongside at 5 o'clock, rescued forty passengers who were chiefly taken off the bowsprit, but some were struggling in the water. At 8 o'clock one of the metalic boats came up with 22 persons, including the first and second officers, and subsequently four men were picked up floating on a piece of a broken boat. The second officer was after-wards rescued from the water. Both he and the third officer were severely burned. Many of the male passengers were frightfully burned. Only six women were saved, three of whom

were shockingly burned." The last number of the West Chester Jeffersonian, came to us in an enlarged and improved form. It is now the handsomest newspaper published in Chester county, and is conducted with ability and spirit. The Jeffersonian stands fast by the old landmarks, and battles manfully for the preservation of the Democratic party in its integrity.

BRANDRETH'S PILLS PURIFY THE BRANDRETH'S PILLS PURIFY THE

Bill-00D.—Continued pain or uneasiness in any organ
is generally cured by one or more doses of Brandreth's
Pills. Thirty years' personal experience by the undersign-of fully justify this assertion.

Dr. James Lull, of Postdam. N. Y., says:—"I have cured
the most deplorable costiveness of the bowels with Brandreth's pills, when every other remedy had failed, and the
patient was given up to die. Skin diseasses of any inveterate and painful character, such as erysipelas, sait rheum,
tetter and summer-beat, I have seen eradicated by their
use. I have cured the rheumatic, the eplieptic, the paralytic and the consumptive with these excellent pills alone."

In juundice and all affections of the liver, dyspepsiadysentery and diarrheca pleurisy, sudden pains and infamations, female obstructions; scorbutic and scrofulous,
even gouty and neuralgic affections have given way to the
use of this medicine, and now, after twenty years' experience, my estimation of Brandreth's Pills continues to increase.

ORSTRUCTION.

OBSTRUCTION.

A young lady, beautiful and heaithy, took cold, which caused a serious obstruction for two years. a young lady, beautiful and healthy, took cold, which caused a serious obstruction for two years; her health was broken down and her beauty departed. At length Brandreth's Pills were tried; eleven doses, of from two to four, were taken in fifteen days preceding the usual period.—Regularity was restored, and her health and good looks recovered.

recovered.

WORMS.

Brandreth's Pills are the best vermifuge; they are infallible. A little child, six years old, for some weeks was drooping; its mother gave it one of Brandreth's sugar coated pills; the next day there came away a worm sixteen inches long, and as large as a child's finger. The child

inches long, and as large as a child's longer. The child was well.

A gentleman away from home, was taken with plenrisy; the inflamatien was terrible; every breath made him writhe with agony. Eight Brandreth's Pills were swallowed, and warm oil applied locally; the pills operated, and the pain was relieved; plenty of gruel was taken, and six more pills, and the second day the patient was cured.

These statements should have weight, and prevent the use of poisonous drugs, and stop the sad practice of bleeding.

TANCY FURS-FOR LADIES AND CHILD TO THE AND CHILD TO THE NO. 100 IN FAREIRA & CO., No. 818 (new no.) MARKET STREET, ABOVE EBOURH, PRILADELPHIA.—Importers, Manufacturers and Dealers in FANCY FURS, for Ladies and Children; also, Gent's Furs, Fur Colars and Gioves. The number of years that we have been engaged in the Fur husiness, and the general character of our Furs, both for quality and price is so generally known throughout the country, that we think it is not necessary for us to say anything more than that we have now opeued our assortment of FURS, for the Fall and Winter Sales, of the largest and most beautiful assortment that we have ever offered before to the public. Our Furs have all been Imported during the present season, when money was scarce and Furs much lower than at the present time, and have been manufactured by the most competent workmen; we are therefore determined to self them at such prices as will continue to give us the reputation we have borne for therefore determined to sell them at such prices as will continue to give us the reputation we have borne for years, that is to sell a good article for a very small profit. Storekeepers, will do well to give us a call, as they will find the largest assortment by far to select from in the city, and at manufacturers prices.

The Twenty-third session of this Institution will open on MONDAY, OCTOBER, 11th, 1858.

The following are some of its advantages:

It is the only Institution in the City which turnishes its Students with Hospital Tickets and material for dissection WITHOUT CHARGE. The classes are examined daily by the Professors, who take a personal interest in the advancement and welfare of every Student.

A limited number of young men of restricted means will be received as beneficiaries; paying but \$20 for a full course of Tickets. In all cases, the sons of physicians and of clergymen have the preference.

MANUFACTURERS OF PATENT LEVER WATCHES. Those superior Watches are made by the ald of new and original machinery, expressly designed to secure, with a low price, A FINE, SUBSTANTIAL, DURABLE and UNIFORMLY RE-LIABLE time-keeper. The movements are new in construction, and are pronounced by the highest authorities to be fauillies in principle and quality, and have been proved by the most exacting tests to be reliable and unfalling in action. These watches are insunfactured entire from the crude material, in a single establishment, by connected and uniform processes—the manufactory being organized upon the same system that has been adopted in the production of the unequalled American fire-arms, which enables us to produce a movement at one half the orice of any

duction of the unequalled American fire-arms, which enables us to produce a movement at one half the price of any foreign movement of the same quality, and we guarantee the perfect performance, for ten years, of every watch manufactured by us.

All forcign wotches are made by hand, the American watches being the only ones made by machinery upon a uniform system throughout. Nearly all hand-made watches are defective, and are continually getting out of order. In many parts of the country it is impossible to find good watch repairers, and watch repairing is always uncertain and expensive. The introduction of American watches disposes of this difficulty, and country merchants, as well as watch dealers, can keep watches as part of thoir miscellaneous stock, and thus supply their oustomers with a NEW STAPLE, which may be used as any other article, without mystery or humbur. DR. O. PHELPS BROWN,

The Great Curren or Consumerion, was for several years so boddly afflicted by Dyspepsia, that for a part of the time he was confined to his bed. He was eventually cured by a prescription furnished him by a young clairwoyant girl. This prescription, given him by a mere child, while in a state of trance, has cured everybody who has taken it, never having failed once. It is equally sure in cases of Firs as of Dyspepsia. The ingredients may be found it any drug store. I will send this valuable prescription to any person on the receipt of one stamp to pay postage. Address DR. O. PHELPS BROWN,
