NEW PROCESS IN DENTISTRY... CHEOPASTIC PROCESS of mounting ARTIFICIAL TEETH, ently patented by Dr. BLANDY, formerly fessor in the Baltimore College of Dental Surgery, is car-Professor in the Baltimore College of Dental Surgery, is cartainly one of the greatest discoveries of the present are and destined to work a great change in Mechanical Dentistry.

The undersigned being the first in the Enta to introduce this process into practice, and which has been attended with great success, feels no hesitation in recommending it as superior to any other method of mounting Artificial Teeth heretofore known—the casting of the plates having great heretofore known—the casting of the plates having much heretofore known—the casting of the plates having much heretofore known—the casting of the plates having fresh heretofore known—the casting of the plates having great advantage over the common custom of "swaging." The same secturacy in fitting, perfect cleanliness, and durability connot be obtained by any other process.

DATENT AMBROTYPES.--The scribers having purchased the exclusive right of Lancaster city, are enabled to offer to the public a new style of Pictures, far exceeding, in beauty and durability, any ever before made. These pictures are not reversed, as dacuerrotypes areand may be seen in anylight. They also possess the rare property of being inferentially sealed between glass plates, which is secured by Latters Patent, in the United States, Great Britain and France, and practised in Lancaster city by Z. & W. CUMM INGS, only, over Sprecher & Bro.'s New Store, North Queen st., Lancaster.

EXPLANATION.

The term AMBROTTPE, by which these Pictures are designated; is derived from the Greek word Ambrolos, surifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages, it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the Slack varnish in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.

THE GREATEST MEDICAL DISCOVERY OF THE AGE—Dr. KENNIAY, of Boxtury, ha discovered, in one of our common pasture weeds, a remedy that cures

EVER F KIND OF HUMOR, that curves

EVERT KIND OF RUMOR,

from the worst Scrottila down to a common plumple.

He has tried it in over 1100 cases, and never failed except
in two cases, (both thunder humor.) He has now in his
possession over two hundred coefficiates of its virtue, al
within twonty miles of Beston.

Two bottles are warranted to cure a nursing sore mouth
One to three bottles will cure the worst kind of Piniples
on the face.

Two to three bottles will clear the system of Biles.

Two bottles are warranted to cure the worst canker
the mouth or somesh.

Three to five bottles are warranted to cure the worst case
of Erysipelas.

One or two bottles are warranted to cure will humor in
the Eyes.

Two bottles are warranted to cure running of the ears
and blotches among the bair.

Four to six bottles are warranted to cure current and
running ulcers.

running ulcers.
One bottle will cure scaly couption of the skir.
Two to three bottles are warranted to cure the worst
cases of ringworm.
Two to three bottles are warranted to cure the most desperate case of rinemacism.
Three to four bottles are warranted to cure the sa perate case of riceums ism.

Three to four bottles will cure the worst case of scrofula. Five to eight bottles will cure the worst case of scrofula. A ben-fit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Render, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been shown until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rice, and creat popularity of the discovery, I will state that in April, 1853, I peddled it and sold abouts ax bottles per day—in April, 1854, I sold over one thou and bottles per day of it.

Some of the wholessle Druggists who have been in the business twenty and thirty years, say that outhing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family mudicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epiloptic fits—a discuse which was always considered incurable, have been cured by a few bottles.—O, what a mercy if it prove effectual in all cases of that considered incurable, have been cured by a few bottles.—
O, what a mercy if it prove effectual in all cases of that awful malady—there are but few who have seen more of it

awith manay—there are out lew who have seen above than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Agus, pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of dist ever necessary—eat the best you get and enough of it.

Directrons for Use.—Adults one table spoonful per day—Children over ten years dessert spounful. Children from five to eight years te a spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

A. JARRETT, OF THE NEW YORK LUNG INFIBIATION of the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Curs of Pulmonary Consumption and list kindred diseases, together with my unrivaled opportunities and advantage of pathological research—aided not a little by a perfect system of Medical Inhalation—has, enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical curs of all diseases of the Threat, Lungs and Air-Pusages. By Inhalation, the vapor and cursive properties of medicines are directly addressed to the diseased or gans and the integument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjuvant to the proper management of those fearful and often fatri diseases, yet I deem it very necessary that each pathent should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution ver which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported and after jdue consideration, I have concluded to make such arrangements as will bring the benefits of my excerience and treatment within the reach of all, and not confine myself, as beretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping, therefore, that the arrangement will give entire satisfaction, both to my professional brethren and
