NEW PROCESS IN DENTISTRY ... CHEOPASTIC PROCESS of mounting ART IFICIAL TEETH, re-ently patented by Dr. BLANDY, formerly Profesor in the Baltimore College of bental Surgery, is certainly one of the greatest discoveries of the present are and destined to work a great change in Mechanical Dentistry. The undersigned being the first in the State to introduce this process into practice, and which has been attended with irrest success, feels no hesitation in recommending it as superior to any other method of mounting Artificial Teeth heratofore known—the casting of the plates having great advantage over the common custom of "swaging." The same accuracy in fitting, perfect clashliness, and durability connot be obtained by any other process.

APThe undersigned is alone authorized to dispose of office rights for the counties of Lancaster, Chester, Berks. Dauphin and York.

The proprietors of these Colleges design perfecting a chain of Schools throughout the Principal Cities of the East and West that shall afford to Young Men opportunity to qualify themselves in the various modes of doing business not only in Great Commercial centres of the East, but in the great and growing West also. The establishment of such schools is believed to be indispensable to this result. The Schools at the above points are all in a prosperous condition. Over 800 Students were in attendance upon them during last Winter's Session.

There are no terms and no vacations. Students may therefore enter and prosecute the studies without reference to classes.

APPLETON, TRACY & CO.,
WALTHAM, MASS., MANUPACTURERS OF PATENT LEVER WATCHES. PATENT LEVER WATCHES.

These superior Watches are made by the sid of new and original machinery, expressly designed to secure, with a low price, a first, substantial, purable and uniformit reliance to the find are pronounced by the highest authorities to be faultless in principle and quality, and have been proved by the most exacting tests to be reliable and unfailing in action. These watches are manufactured entire from the crude material. In a stocke establishment, by connected and uniform processes—the manufactory being organized upon the same system that has been adopted in the production of the unequalled American frearms, which enables us to produce a movement at one half the price of any foreign movement of the same quality, and we guarantee the perfect performance, for ten years, of every watch manufactured by us.

All foreign watches are made by hand, the American watches being the only once made by machinery up on a uniform system throughout. Nearly all hand-made watches are defective, and are continually getting out of order. In many parts of the country it is impossible to find good watch repairers, and watch repairing is always uncertain and expensive. The introduction of American watches disposes of this difficulty, and country merchants, as well as watch dealers, can keep watches as part of their misculaneous stock, and thus supply their customers with a New Staple. which may be used as any other article. without mystery or humbur. REEVES' PATENT LEVER PEN."
The subscribers would respectfully call the attention of their frieuds and the public generally, to this new Pen, which is constructed upon an entirely new principle. It has been the aim of the inventor to combine the stiff point of the pencil with the elasticity of the goose quill and the sannexed certificates, by parties who have used the Pen, will show that he has succeeded.

Among the advantages attained by this over all other Pens, are

1st. The nibs being stiff they act as a support to the hand, enabling the writer to use it with the same rapidity that he would a lead pencil.

2d. The manner in which the nibs are operated upon for the purpose of producing light and shade, is of such a nature that it is impossible for the nibs to lap over each other, or stick in the paper, thereby causing spattering and blotting as the ordinary elastic nibbed Pens are liable to do.

I have for some time past been using one of "Reeves" the Pen. Hear them.

I have for some time past been using one of "Reeves" the Pen. Hear them.

I have for some time past been using one of "Reeves" the Pen. I have ever used. It possesses more elasticity, and will produce a stroke of almost any thick ness, with greater regularity and without danger of strain ing or getting out of order, than any Gold Pen I over saw, Signed.

JOHN B. LIVINGSTON. JOHN B. LIVINGSTON. Signed. Lancaster, May 14, 1858.

Having used one of "REEVES PATENT LEVER PENS" I am free to say it is far superior to acything in the Pen line I have ever used. With the same Pen the beaviest dash and the finest hair-stroke can be made at the will of the Pensman, and being constructed of such heavy material, the nib thereby being more firmly secured, it will wear longer and better than any other Pen now in use. Of Pens it is CHAS. R. FRAILEY.

A CARD FROM DR. JAMES M.

JARRETT, OF THE NEW YORK LUNG INFIRMARY.—Wr connection for the past eight years with
the above institution, as Chief Physician, and a twelve
years' course of steady dovotion to the Cure of Pulmonary Concumption and its kindred diseases, together with
my unrivaled opportunities and advantage of patholocical
research—sided not a little by a perfect system of Medical
Inhalation—has enabled me to arrive at a decisive, direct,
and successful course of treatment for the pocitive and
radical cure of all diseases of the Throat, Lungs and dirPusager. By Inhalation, the vapor and curative properties
of medicines are directly addressed to the diseased organs and
the integument. I do not advise the use of Medical Inhalalation of any kind, to the exclusion of general treatment;
and although I consider it a useful adjuvant in the proper
management of those fearful and often fastal diseases, yet I
deem it very necessary that each patient should have the
benefit of both general and local treatment. The success of my
treatment in the above diseases, and the high character of
the institution over which I have so long had the honor
to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and
professional friends, through whose philanthropic aid the
above charity has been long and liberally supported, and
after lduc consideration. I have concluded to make such
arrangements as will bring the benefits of my experience
and treatment within the reach of all, and not confine myself, as heretofore, to those only who entered the Infirmary,
or who were able to visit me at my office. Hoping, therefore, that the arrangement will give entire satisfaction,

THE GREATEST MEDICAL DISCOVERY OF THE AGE.—Dr. KENNEDY, of Roxbury, had discovered, in one of our roumon pasture weeds, a remedy that cures

EVERY KIND OF HUMOR,

from the worst Scrofula down to a commun pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, al within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth One to three bottles will care the worst kind of Plimples on the face.

Two to three bottles will clear the system of Biles.

Two bottles are warranted to cure the worst canker the mouth or stomach.

Three to five bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure all humor in the byes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly oruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the sal rheum.

Five to eight bottles will cure the worst case of scrofula A benefit is always experienced from the first bottle, and a perfect cure is warranted whon the above quantity is taken.

Reader, I peddied over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I nover soid a bottle of it, but that soid another; after a trial it always speaks for Itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has nover been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1854, I peddied it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wl-desale Druggists who have been in the business twenty and thirty years, say that nothing in the aunias of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, creat and wenderful virtues have been found in it that I never suspected.

Soveral cases of epileptic fits—a disease which was always considered in urable, have been cured by a few bottles.—O, what a mercy if it prove effect all in all cases of that awful malady—there are ful few who have seen more off than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the carbout diseases of the Liver, Sick Headache, Dyspepsia. Asthma, Fever and Agne, pain in the side. Diseases of the spine, and particularly in diseases of the Kidneys, &c., the diseavery has done more good than any medicine ever known.

No change of dist ever necessary—eat the best you get and enough of it.

No change of dist ever necessary—eat' the best you get and a nouch of it.

Directions for Use.—Adults one table spoonful per day—Children over ten years dessert spoonful. Children from five to eight years tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.
