NEW PROCESS IN DENTISTRY.--OHEOPASTIC PROCESS of mounting ATTIFICIAL TYREFTH, recountly patented by Dr. BLANDY, formerly The Professor in the Baltimore College of Dental Surgery, is cas-tainly one of the greatest discoveries of the present age and destined to work a great change in Machanical Dentistry. The undersigned being the first in the State to introduce this process into practice, and which has been attended with great success, feels no be editation in recommending it as su-perior to any other method of mounting Artificial Teeth heretofore known-the casting of the plates having great advantage over the common custom of "swaging." The sune accuracy in fitting, perfect cleanliness, and durability connot be obtained by any other process. Softles rights for the counties of Lancaster, Chester, Berks, Daphin and York. the perfect performance, for ten years, of every watch man-ulactured by us. All foreign watches are made by hand, the American watches being the only ones made by machinery upon a uniform system throughout. Nearly all hand-made watches are defective, and are continually getting out of order. In many parts of the contry it is impossible to find good watch repairers, and watch repairing is always uncertain and expensive. The introduction of American watches disposes of this difficulty, and country merchants, as well as watch dealers, cau keep watches an part of their miscellaneous stock, and thus supply their customers with a NEW STAPLE.
