" Little Giant" appear to have any truth or plausibilitythey are without foundation, and the Democracy heres bouts look upon all such statements as mere moonshine. Judge Douglas has been endorsed and sustained by the cracy of Illinois, and the Democracy of that State have never faltered in sustaining a Democratic candidate for President: they are true to the party, the Constitution and the Union. It is now said that the letter written by the Vice President-though opposed to Douglas' course last winter, yet prefering his election to that of Lincoln, who is as great an abolitionist as Seward, of New York-had the effect—that that letter written by John C. Breckenridge actually elected Judge Douglas. It went to show that many of the rumors in regard to Mr. Douglas and Mr. Buchanan were without foundation, and it had influence enough to draw many Democrats who were opposed to his course in Congress last winter, over to his side. This mayor may not have been the case, but when they say that Mr. Breckinridge wrote the letter endorsing Douglas, for his own personal future ambition, we do not believe it. It is further said that Mr. Breckenridge can elect Senator Douglas or defeat him in the Legislature, and that the probability is that the Vice President's influence will consummate the victory on Mr. Douglas; and the reasons for doing 50, it is said, are these-that at the Charleston Convention both Judge Douglas and Mr. Breckenridge will be candidatès for the nomination; if, on the first or second ballot, Douglas cannot get the support of the Southern Delegates, it will not be safe to run him, and as Mr. Pierce and Mr. Buchanan are both from the North, the South will, in all probability, ask for the candidate, when Mr. Breckinridge be the most available man, and can, we think, obtain the undivided Southern Delegation, and this, with the friends of Judge Douglas among the Northern members, will secure for him a two third vote. Should Mr. Breckenridge

be the candidate of the Charleston Convention, we hardly think the Black Republicans will show us any signs of a fight. OLD GUARD.

+++ KANSAS.-The Legislature of Kansas was required to fix a permanent seat of Government before any Congressional appropriation for the erection of public buildings could be

arailable. The seat of Government was fixed in 1855 at Lecompton, and the money expended for that purpose. In April last the Legislature passed a law, over the Governor's veto, changi g the seat to Minnesota. At the request of Governor Denver a decision has recently been given by Attorney General Black-namely, that this law is void, and that the sent must be at Lecompton, at least during the existence of the Territorial Government. For the reasons above stated, the money having been thus conditionally appropriated and expended, the change would be violative of the act of Congress, and a fraud on the United

DREADFUL ACCIDENT .--- A serious accident ccurred at the new hotel, in Chesnut street, biladelphia, on Thursday morning, by the giving way of a derrick. While a party of workmen were engaged in raising a heavy stone, the derrick and stone came to the ground, striking two men in the fall, one of firm; 20,000 bus. sold at 117(2):23 for red. NEW RAILROAD .- We learn that John Fulton, Esq., Resident Engineer of the Hunting-don Broad Top Railroad, is now engaged, with a corps of assistants, in making the surveys for the location of the Bedford Railroad. Thi road is intended to connect with the II. & B. T. R. R. at Hopewell, and will be about 20 miles long, and can be very cheaply constructed, and when finished will not only add largely to the business of the Broad Top road, but will make Bedford Springs a second Saratoga in popularity and importance. THE CAPTURED AFRICANS .- We learn from the Washington Union that despatches have been received from Captain Chauncey, of the Niagara, dated at Porto Grande, October 22d. which state that forty five of the captured Africans had died during the passage to that place. It was found impossible to break up the filthy habits of the negroes, which greatly tended to spread the rarages of disease.— Remonstrance was unavailing. Those portions of the ship allotted to them, in spite of every effort to keep them cleanly, had become almost a pest-house, filling the air with pestilential vapors. Captain Chauncey considers these negroes the most degraded class he had ever seen. The females, however, of whom one only had been lost, were in far better condition of health and habits than the males.

Mrs. Rachel Hunt and Mrs. Rachel Ayres, one aged 104 years and the other 101 years died in Hartford county, Md., week before last. Both died the same day, and both were buried on the same day.

he finds that the lungs are half gone, or that destructive lesions have occurred, so as to render a curs. in many cases, impossible. The patient will find that the little cough which he thought had merely annoyed him betimes, has laid waste a large portion of an organ, whose functions are necessary to life: we meane the lungs. If the incipient cough is heeded, and a timely resort is had to medicine, such as Dr. KEYBER'S PECTORAL SYRUP, a real scientific compound, prepared by a careful physician, known to most of our readers. -----COUNTERFEITING ESTABLISHMENT SUPPRES-SED.—In Brooklyn, N. Y., the inmates of a very elegant brown stone house fell under the suspicion of the police, and it was ascer-tained, after three months of watching night and day, to be an establishment for the man ufacture of base coins, veiled under an appearance of great respectability. On Thurs-day week they made a descent, and captured the inmates, three men and a woman, with all their apparatus. In the basement was one of the most complete workshops for counterfeiting ever known to the police; indeed it was on a much grander s-ale than anticipated. There were lathes, dies, chemi cals, rolled oxide, metal crucibles, punches, small saws, acids, &c., &c., used for making bogus United State quarter engles and gold dollars, besides dies for making quarter dollars; also the coin in various stages of completion from the punched metal, and other highly

finished coin ready for circulation. POTATOES PLENTY IN THE WEST.—During the last two weeks 20 000 barrels, equal to 40,000 bushels of potatoes were received at Cincinnati. The entire receipts during the year ending September, 1858, comprised only 110,000 bushels.
