These pletures are not reversed, as da in-rree-types are and may be seen in anylight. They also possess the rare property of boing torhatist duta: being hermelically sealed between glass plates, which is secured by Letters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINGS, only, over Sprecher & Bro.'s New Store, North Queen st., Lancaster.

EXPLANATION. The term AMBROTYPE, by which these Pietures are designated: is derived from the threek word Ambrotos, sgs-nifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corres-ponding size is secured with an inde-structible cement, by by which the picture will retain its original berlilinary for ages; it will not correde by acids, nor be injured by water or climate. It is bold in its endet, and berlilinary surgasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the black variable. It is bold in the gradations of the security of the black variable.
