Missouri will just take care of your own negroas, manage your own affairs, regulate your own domestic concerns to suit yourselves, and while midding your own basiness, let your neighbors alone, you will be at peace with the whole world "and the rest of nankind." We in Illinois have done that very thing. We first, while a Territory, adoptid elavory, maintained it twelve years, and then finding we could make no money out of it, it was not profitable in our climate, it was not good for us and our postarity, and we abolished shavery, as we had a right to do. You in Mis-souri just follow our example, by doing just as you please. If you want it, have it, if you do not want it, abolish it; it is your business, not ours. If aving decided our institu tions to suit ourselves, we have performed our whole duty under the Constitution, and now we recognize the right of every other State to do the same thing, without interfe-rance from any quarter whatsoever. Judge Douglas was repeatedly applauded in the course of his speech. He left for New Orleans, whither private business calls him, and will be in Washington on the convening of Congress.

We find the following paragraph in a speech Judge Douglas made in Chicago since the election, and take it to be a direct cut at those Democrats who "bolted" the party in the Northern and Eastern States at the last election -

"When this dark cloud of fanaticism, which has spread "when this dark cloud of manufactum, which has appead over the New England States, rolled over New York, com-plotely overwhelming Pennsylvania, Indiana and Ohio, and reached in its course the Wabash river, it was there met by the gallant, unlited Democracy of Illinois, who turned back the tide, and kept the flag of the Constitution and the Union floating over their helowed State."

We don't know whether the gentlemen referred to-in Canal street, New York, pretty plain terms-will understand it or not ; it is pretty generally understood however, in this section, to whom Judge Douglas referred. It is a rebuke to somebody, and hat body will have to wear the shoe whom it best fits. The Hon. Judge Breese of Illinois, is now on a visit to

Mr. Lincoln is the first man who en deavored to cram down the throats of the people of the Free States, the delusive idea that this Union would some lay either be all free territory or all slave territory. Wm. H. Seward of New York smallowed it, and is now "throwing it up" on to the people of the Northern Free States, but we think the dose will kill him, if it has not already done

The Jefferson City Inquirer, one of the very few Black Republican papers west of the Mississippi river, has changed its complexion. The editor not feeling disposed to war against a State which furnishes him his bread and butter, has washed his hands of the foul stain of Black Republicanism, and in a recent number came out openly for the Democratic party, by aunoancing his intention to support the Democratic party and the nominees of the Charleston Convention. DR. KEYSER :- Although not an advocate of Patent Medicines in general, it affords me pleasure indescribable to recommend your Pectoral Syrup. As a medicine it is well worthy the attention of any person who may in any manner be affected with colds, cough and hoarseness of any kind; and for its peculiar qualifications for removing all that disagreeable sensation attending a severe cold. I have been, more or less, in my life afflicted with the severest of colds and hoarseness. At times my throat would become so closed as to prevent my speaking above a whisper and by taking a few doses of the above Syrup

it would relieve me entirely. In recommending this medicine, I must unhesitatingly say, that it is the best remedy I ever found, purporting to | cure the above, nor should any family be without this remedy for diseases so prevalent.

THE LOWFR CLASSES IN ENGLAND.-The Paris Presse, of the 20th ultimo, takes the following gloomy view of the state of the lower classes in England : Misery, whatever the optimists may say, makes constant progress in England. Trade, we are told increases in activity; manufactures are developed; they call for workmen, and offer them higher salaries. We will not dispute these assertions, but we will call attention to the fact that they disagree from the tendency to emigration daily more strongly manifested by the working classes. It is destitution, it is hunger, that drives these unfortunates from their native country; and so much has emigration become a social necessity for Great Britain, that a committee has just been formed with the object of obtaining from government a gratuitous emigration.

TYPOGRAPHICAL ERRORS.—One of our ex-changes says, "the wife crop of Gasconade county, Mo., this year is estimated at 25,000 galls." The Wine arrow properties of the second second galls." The Wine crop was referred to, but 25,000 galls will make a good crop of wives notwithstanding. A locofoco editor says, "the Democracy are *licked* like a band of brothers," instead of linked, and another says, "we have wet the enemy and we are theirs!" Types play sad pranks.—Louisville Journal.

'Astounding Developement.-Mr. S. S. Jones, late president of the Iowa Central Air Line railroad, in a letter to a director resigning his office, states that the cost of his company of getting the Iowa land grant through Congress during the session of 1854 was seven hundred thousand dollars! The original "pecuniary compliments" were bestowed in the shape of lands, of which the Air Line company got something near 900,000 acres, but subsequently the lands were exchanged for the stock of the company to the amount stated.
