DR. H. ENWOOD, SR., bogs leave to call the attention o
those suffering under a partial or total loss of the sense of
hearing to the following facts: He treats diseases of the mid
die and internal ear with medicated douches, such as is
practised in the Infirmaries of Berlin, Lepisic, Brussels,
Hamburg and Petersburg, and lately by the most 'distinguished London aurists, with the most wonderful success;
indeed, it is the only method that has been universally
successful.

Hamburg and Petersburg, and lately by the most distinguished London surists, with the most wonderful success; indeed, it is the only method that has been universally successful.

The best proof of the efficacy of this treatment will be a reference to neetly uine hundred names, residents of the United States, Canada, New Brunswick and Nova Scotia, who have been restored to acute hearing, and not a single solitary case, to our knowledge, did we fail to effect either a partial or total restoration of the hearing, when our advice and instructions were faithfully and punctually adhered to. Many who could not hear the report of a pistod at arm's length, can now hear a watch beat at the distance of four feet. In cases of mucus accumulation in the Eustachian Tube and Tympanum, inflammation of the mucus membrane, nervous affections, diseases of the membrana tympani, called the "Drum," or when the disease can be traced to the effects of fevers, or colds, the use of quinties or mecurial medicines, gatherings in the cars in childhood, &c., this treatment stands pre eminent. When the auditory canal is dry and scall, with little or no secretion, when the deafness is accompanied with noise in the ear, like failing of water, chirping of insects, ringing of bellarquing of leaves, continued pulsations, a discharge of matter; or when stooping, a sensation is felt as if a a rush of blood to the head had taken place; when the hearing is less acute in duil, cloudy weather, or when a cold has been taken, this method of treating the disease is infallible. In deaf and dumb cases, my experience warrants me in saying that if the hearing was good at any time, much can be accomplished. In the deaf and dumb schools at Lepsic, out of a class of fourteen, I succeeded in restoring four to acute hearing.

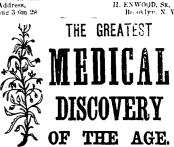

Dr. R. bege explicitly to state that in those cases he untakes, he guarantees a successful result—complete restoration of the sense, or such a marked improvement as will be perfectly satisfactory, if his remedies are faithfully applied and dir

THE GREATEST MEDICAL DISCOV-

EVERY KIND OF HUMOR,
from the worst Ser-fula down to a common pimple.
He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor). He has now in his possession over two hundred certificates of its virtue, al within twerty miles of Boston.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—
So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until 1 discovered if in 1846-second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and creat popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various discusses of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, pain in the side. Diseases of the Spine, and particularly in diseases of the Kidnoys, &c., the discovery has done more good than any medicine ever known.

A. CAR D. FROM DR. JAMES M. JARRETT, OF THE NEW YORK LUNG INFIRMARY.—My connection for the past eight years course of steady devotion to the Cure of Pulmonary Consumption and list kindred diseases, together with my unrivaled opportunities and advantage of pathological research—dided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs and Air-Passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseases of grass and the integument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and atthough I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both general and local treatment. The succes of my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any-eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported, and after jdue consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine my-self, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping, therefore, that the arrangement will give entire satisfaction, both to my professional brethren and the public, I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all diseases as above, and that the medicines, the same as used in the Institution, prepared to

HOVER'S LIQUID HAIR DYE..-The testimony of Prof. Booth and Dr. Brinckle having previously been published, the following is now added:—From Prof. McCLOSKEY, formerly Professor of Theory and Practice of Modicine in the Female Medical College of Pennsylvania, and late Professor of Surgery in the American college of Medicine, &c.

Mr. Joseph E. Hover:—A trial of your LIQUID HAIR DYE will convince the most skeptical, that it is a adje, clegant and efficacious preparation. Unlike many others, it has in several instances proved serviceable in the cure of some cutaneous eruptions on the bead, and I have no hesitation in commending it to those requiring such an application.
