"A Constellation is but one.

"A Constellation is but one.

Though 'tis a train of stars."—DENDEN,

The subscriber has great pleasure in announcing that he has made arrangements to issue on SATURDAY, JANUARY 1, 1859. the largest, handsomest, and most complete Weekly Newspaper ever published.

It will be a superb Folio Sheet, pouble the size of the New York Ledgerl containing Nine broad Columns on each page, 35 inches in 'length, and bounts the quantity of reading matter given by any weekly paper now published—embracing the choicest and freshest matter, selected and original, furnished from abroad and at home. It will be in all respects A Livins Journal—containing the productions of the most popular writers in liberal quantity—Romances, Stories, Esasys, Poems, Anecdotes, Sketches, Editorials, Notices of Amusements and the Arts, &c., &c.—in fine, all things which are new, beautiful, interesting, and attractive. Each Number will contain not only a carefully condensed synopsis of the General News during each week, but all the very latest information and Telegraphic Despatches up to the hour of going to press.
"The Constellation" will not be an linustrated Paper—as the pleture sheets are—but it will contain beautiful Designs and Engrayings, when they really illustrate and ornament a subject.

The subscriber has already engaged a Corps of Contribution

and Engravings, when they really illustrate and ornameus a subject.

The subscriber has already engaged a Corps of Contributors, "a Train of Stars," unequalled for genius, brilliancy, and reputation, by those of any other journal now-published, no matter what may be its pretensions. It is with no slight gratification that he amounces his success in engaging, after much persuasion, the able and experienced services of a gentleman, so long and so justly emisent, as Mr. PARK BENJAMIN. Connected for twenty years with the Press of New York City, and always successful in his literary enterprises, whether as Editor, Author, or Public Speaker, the name of Mr. Benjamin is an augury of certain good fortune.

ary enterprises, whether as Editor, Author, or Public Speaker, the name of Mr. Benjamin is an augury of certain good fortune.

The public may rest assured that no means will be untried by the subscriber to secure a grand and brilliant accompilshment of his effort to establish the largest and best Weekly Paper ever published—since nothing will be left undone that can be done by talents, capital, experience, learning, and a resolute perseverance.

"The Constellation" will mainly recommend itself to a cordial and generous support from the very best people by its observance of good and avoidance of evil. It will be an unobjectionable and perfect Family Newspaper—giving offence to no sect or party—the favorite alike of both sexes, of young and old. The subscriber, having had nearly a quarter of a century's experience in the publication of daily and weekly journals, and having now connected himself with such well known and invaluable Editorial aid as he has herein announced, flatters himself that his new enterprise will at once achieve a popular favor and success unparalleled in newspaper enterprises.

The terms for "The Constellation" will be Two Dollars per Annum each, when Ten Copies are sent in one enveloge to one address; Twenty-Eight Copies, to one address, Forty-Nino Dollars; Wow Copies, Five Dollars; Five Copies, Twelve Dollars; One Copy, Three Dollars, including postage or delivery. A late Saturday Evening Edition will be published, and left-early Sunday Mornings at the residences of City Subscribers by regular Carriers, employed by the Publisher.—Those, who desire to commence with the first number, should send in their subscriptions and orders as early as possible—since, owing to the immense size of the sheet, only such numbers will be printed as may be ordered.

R W H W IT M OR,

Where he has been in successful practice for a number of years, received his, education at the best Medical College in the United States, and had the experience and practice in the different Hospitals for several years; a member of the Analytical Medical Institute of New York, and late Medical Surgeon of the U.S. Navy, now offers himself to the public to attend any professional calls.

The purest medicines always on hand direct from the best Laboratories of our country, and the Botanical Gardens of the world. No patent medicines prescribed or recommended. Medicines used only which will not break down the constitution, but will removate the system from all injuries it has sustained from mineral medicines.—Chronic and difficult diseases must be treated upon analytical principles; which is to know and ascertain what disease is. Its nature and character require a knowledge of the chemical constituent of every solid and fluid of the human body—the changes those solids and fluids are capable of undergoing. To know what medicines, and if we are in possession of this knowledge, it is possible to cure any disease—no matter of how long standing—and leave the patient in a healthy and perfectly cured condition!

Drayersia, that distressing diseases and fell destroyer of health and happiness, undermining the constitution, and yearly carrying thousands to untimely graves, can most emphatically be cured.

RECEMATISM, in any form or condition, chronic or acute, warranted curable; Epilepsy, or falling sickness, all chronic and Scrolulous Diseases, which have bafiled all previous medical skill cen be curred by my treatment, when the constitution is not exhausted.

I do say all diseases, (yee Consumption) can be cured.

PATENT AMBROTYPES.—The subacribers having purchased the exclusive right of Lancaster city, are enabled to offer to the public a new style of
Pictures, far exceeding, in beauty and durability, any ever
before made. These pictures are not reversed, as dazuerreotypes areand may be seen in anylight. They also possess the
rare property of being imperishability, help hermetically
sealed between class plates, which is secured by Letters
Patent, in the United States, Great Britain and France,
and practised in Lancaster city by T. & W. CUMMINGS.
only, over Sprecher & Bro.'s New Store, North Queen st.
Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrados, signifying Indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the black varnish in immediate contact with the Picture.—Such are not permanent, as the varnish must crack and dostroy the Picture.

AMBROTYPE STERESOPES MUST BE SEEN, to be appreciated—the relief being fully 'as perfect as life. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are insured of polite attention.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows LOSS OF POWER, FATUITY, AND EPILEPTIC FITS—in one of which the pationt may expire. Who can say that these excesses are not frequently followed by those direful diseases—INSAN—ITY AND CONSUMPTION? The records of the INSANE ASY LUMS, and the melancholy deaths by CONSUMPTION, bear ample witness to the furth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. DISCOVERY OF THE AGE.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.—Dr. KENNEDY, of Roxbury, has discovered, in one of our common pastnre weeds, a remedy discovered, in one of our common pasture werea, a remeay that curse

EVERY KIND OF HUMOR,
from the worst Scrofula down to a common pimple.
He has tried it in over they cross and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth One to three bottles will cure the worst kind of Pimples on the face.

on the face.

Two to three bottles will clear the system of Biles.

Two bottles are warranted in cure the worst canker in
the mouth or stomach.

Three to five bottles are warranted to cure the worst case
of Erysipelas.

One or two bottles are warranted to cure all humor in
the Eyes. Two bottles are warranted to cure running of the ears

and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the sait neum.
Fire to eight bottles will cure the worst case of scrofula
A benefit is always experienced from the first bottle, and
perfect cure is warranted when the above quantity is
sken. A conent is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Render, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.— So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some off the wholesals Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of splieptic fits—a disease which was always considered incurable, have been cured by a few bottles.—O, what a mercy lift prove effectual in all cases of that awful maindy—there are but few who have seen more of it than I have.

awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Agus, pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine over known.

No change of dist ever necessary—cat the best you get and snough of it.

R. E. M. O. V. E. D.
DR. H. ENWOOD, SR., bers leave to call the attention o
those suffering under a partial or total loss of the sense of
hearing to the following facts: He treats diseases of the mid
die and internal ear with medicated douches, such as is
practised in the Infirmarles of Berlin, Lepisic, Brussels,
Hamburg and Petersburg, and lately by the most distinguished London aurists, with the most wonderful success;
indeed, it is the only method that has been universally
successful.

Hamburg and Petersburg, and lately by the most distinguished london aurists, with the most wonderful success; indeed, it is the only method that has been universally successful.

The best proof of the efficacy of this treatment will be a reference to nearly uine hundred names, residents of the United States, Canada. New Brunswick and Nova Scotia, who have been restored to acut hearing, and not a single solltary case, to our knowledge, did we fail to effect either a partial or total restoration of the hearing, when our advice and instructions were faithfully and punctually adhered to. Many who could not hear the report of a pistol at arm's length, can now hear a watch best at the distance of four feet. In cases of mucus scenmulation in the Eustechian Tube and Tympanum, inflammation of the mucus membrane, nervous affections, diseases of the mombrane tympani, called the "Drum." or when the disease can be traced to the effects of fevers, or colds, the use of quining or mecurial medicines, gatherings in the ears in chidhood, &c., this treatment stands per caniment. When the auditory canal is dry and scally, with little or no secretion, when the deafness is eccompanied with hoise in the ear, like failing of water, chirping of insects, might got feels; rustling of leaves, continued pulsations, a discharge of matter; or when stooping, a seas-sation is felt as it a a rush of blood to the head had taken place; when the hearing is less acute in dull, cloudy weather, or when a cold has been taken, this method of treating the discase is infallible. In deaf and dumb cases, my experience warrants me in saying that if the hearing was good at any time, much can be accomplished. In the deaf and dumb schools at Lepsic, out of a class of fourteen, I succeeded in restoring four to acute hearing.

Dr. E. bega explicitly to state that in those cases he untakes, he guarantees a successful result—complete restoration of the sans, my experience warrants me in saying that if the hearing, so we are considered to the deafness. When the hea
