13 Don't Use Much Medicine .- There AT Don't Use Much Medicine.—There are faw persons in this country who are not continually pouring in some kind of medicine, which is often of a powerful nature. Caution in diet, and the proper care in the selection of wearing apparel, will often do away with its necessity. If you do fall sick apply to a good physician—H you have a cough or cold, do not neglect it, you can cure it by a few doses of Dr. Keffers's Payroan Coura Bruy, prepared by that gentleman, at his great medicine establishment, No. 140 Wood street, Pittaburg, Pa. Frof. Duvall's Galvanic Oil.--The dreat Rheumatic and Neuralgias Remedy.

SUPPERING HUMANITI BEAD THIS:
The undersigned takes this method of informing the public generally that there is no medicine now offered to the public that is equal to DUVALL'S GALVANIC OIL in relieving suffering humanity.

I was an observer of its effects in a friehd of mine, who suffered almost everything from a neuralgic affection which resisted the best medical treatment in Centre county. We applied freely the Galvanic Oil to the painful part, and gave some inwardly, and in 20 minutes the patient was asleep, and when awakened was free from pain, and continued so. This is a positive fact which I am willing to make good at any time. A case of Felon was cured in nearly the same length of time.

Hear what Mrs. Vaughn of Duncansville says:

I have used the Galvanic Oil prepared by J. D. Stoneroad, of Lewistown, Pa., for a very painful disease myself and recommend it to others, and in every case found it to be one of the very best medicines for sore and painful diseases. Relieves all pain in a few minutes. Every family should have it in the house.

Dear Sir—Mr. Wm. Turnbaugh has been smffering several years from rheumatism, got so ill that his friends sorter summoned to witness his desth. I induced his friends to try the virtue of your preparation—they did so, as the last resort; and, to their astonishment and joy, he bozan to improve, got better and better, and now, so lar as I know he is a hale and stout man This is not the only case where the Galvanic Oil has surpassed human expectations. In every case where I have recommended the Oil, it has done what it promises to do. Send us another \$20% worth. us another \$20's worth.

EIGHTH ANNUAL REPORT OF THE BOARD OF INSPECTORS
OF THE LANCASTER COUNTY PRISON,
FOR THE YEAR 1858.

To the Honorable the Judges of the Court of Quarter Sessions of Lancaster County.

THE undersigned, in pursuance of law, submit to the Court the following Report of the Prison for the year ending Movember 30, 1858:
On the 30th Mov., 1807, there were in confinement 102 prisoners. In the course of the year there were received.

The manufacturing operations during the year produced as follows: 5,936% yards carpet for sale; 12,101 yards ditto for customers; 3,831 yards bagging; 250 pairs boots and aboes; 94 dozen bags; 1648 willow baskets; 620 fish netts; 60 fly nets and 232,268 cigars, &c.

There are manufactured goods on hand to the amount of \$3,534.66, consisting among other articles of 1,038 yds. of carpet; 1261 lbs. of rage; 519 fish nets; 750 willow baskets of various sizes, and 180,500 yerrs, Cubs, sixes, and half spanish cigars. The apparent profit of the labor of the prisoners, for the past yar, was but \$1,001.93 as shown by the state ment of gain and loss; this sum however indicates little more than one-fourth of the actual profit, as will be more fully explained hereinafter. Yet, the following statement will serve to verify the correctness of the foregoing recapitulation: Maintenance Department \$6,494.88
Add miscellaneous and current expenses 4,075.92

By a comparison of the foregoing statement with the corresponding statement of last; ear, it will be see, that the Maintenance and Expense Departments then amounted to \$12,008 37½, whereas, this year it amounts but to \$10,500 75. a decrease in favor of this year of \$1,438.6½, so that it is evident that the difference in the apparent actual cost is wholly in the item of profits; the cause of this apparent diminution of profits we shall now proceed to explain and account for, and we hope satisfactorily to the public.

In submitting our report to the people, whose servants we are, and to whom we acknowledge our official accountsability, we feel it due as an act of justice and strict impartiality to the people, whose interests are committed to our care, and to cursoive and all the officers of the prison, to briefly recur to some of the extraordinary diancial and pectualry features of the past year. If we say that all human enterprise, ising from the smallest business operations, to those involving millions of dollars, was more terribly crippled and prostrated than the world ever knew before, we know we shall be sustained in what we say.

A monetary convalision that shook the who'e civilized

Making 1648 willow and oak baskets in 1858, at 12.25 50.00

In these items enumerated we find an agregate of \$925.59 apparent deficiency in the earnings, for doing the same labor as last year, but only because of the lower price allowed for labor. Other items in different departments of labor would increase the amount of apparent diminution perhaps some two hundred dollars, yet the amount of work done as shown per tables, is proof conclusive that the Industrial and Mechanical Department has not retrograded.

of work done as snown per tables, is proof conclusive that the Industrial and Mechanical Department has not retrograded.

The extraordinary expenses of the prison for the year, growing out of the introduction of another furnace, and making soveral new roofs for shops, &c., &c., calls for explanation. It has been an acknowledged fact by every Prison Inspector for several years past, and by all the officers of the prison, that during the coldest weather of every winter, it was impossible to keep some portions of the prison comfortably warmed; prisoners were unable to perform their work properly on account of suffering from cold. To permit it longer to remain so seemed not only a pecuniary loss, but inhuman. We resolved to correct this evil as early as possible and practicable. We called to our assistance an experienced gentleman-and mechanic, long familiar with the warming of public as well as private buildings, and we unanimously concluded that we were attempting to warm too much room, and trying to heat too great a volume of air with an entirely insufficient force. To warm 80 cells, extending nearly 175 feet in length on each side of the building, and two ston less high, besides supplying sufficient heat for the spacious corridor, was more than other furnaces of equal number performed in other public buildings.

of the building, and two sto less high, besides supplying sufficient heat for the spacious corridor, was more than other furnaces of equal number performed in other public buildings.

There were but four in number, none of the very largest size, two being No. 6 and 2 No. 5, and required to warm a volume of nearly 170,000 cubic feet of tim. We believe it to be simply an impossibility to perform in severe cold weather, while maintaining a decent degree of ventilation, a consideration too little entertained overy where, not sufficiently appreciated any where, and of equal importance to that of warmth. In conformity with this conclusion, we purchased a new furnace, and as the old ones were arranged in pairs, and nearly at the extreme ends of the prison, it was deemed advisable to separate them, thus more equally distributing the heat, and rendering the cells more uniformly comfortable. In resetting one of the old ones, portions were found to be worthless, and had to be replaced with new, which of course helped to augment the cost. The mild weather of the winter thus far has not afforded a severe test of the efficiency of the improvement, but we have strong confidence that the object in riew is statisted. During the wet weather of least spring, the leaky condition of several roofs rendered it imperative that they should be renewed or repaired immediately, to save from total destruction the walls of the building, and the contents stored therein. The room occupied as a wardrobe for prisoners' clothes was peculiarly defective, and at one period before the roof was renewed, came near destroying all the prisoners' clothing. It was re-covered with new tin, and has since been free from dampness or injury.—We have found it necessary to increase the number of workshops in the yard, as the number of prisoners is constantly increasing, which we have done by roofing over two of the yards in the rear of the cells. This has been substantially done, and affords increased facilities for carrying on the different mechanical trades o

a leaking roof. So, too, of the spouting and gutters upon of the roof.

The broad pointing of the wall on the inside, which extends around the Prison, has been done in the most thorough manner, and we believe with the best of materials; so much mortar had failen from between the stones, that it was evident the stones would soon drop out if not secured immediately by pointing; to have longer neglected it would have been shameful neglect on our part and ignorance of enr duties.

HOWARD ASSOCIATION,

PHILADELPHIA.

A Benevolent institution established by special Endowment, for the relief of the Sick and Distressed, afflicted with Virulent and Epidemic Diseases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life caused by Sexual diseases, and the deceptions practiced upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their names, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS to all who apply by letter, with a description of their condition, (ago, occupation, habits of life, &c) and in case of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their Annual Report upon the treatment of Savnal Diseases, express the highest satisfaction with the success which has attended the labors of their Surgeons in the cure of Spermaterrhora, Seminal Weakness, Genorrhora, Gleet, Syphilis, the vice of Omaniam or Self Abuse, Diseases of the Kidneys and Biadder, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that

THE "GREAT REPUBLIC" MONTHLY."—To the Public, the Book and Periodical Trape, and the Press.

We have the honor to announce that we shall issue, on or about the lat of December next, so as to be in season to command the early attention of the public and the periodical trade, the FIRST NUMBER OF A NEW ILLUSTRATED MAGAZINE, to be called THE "GREAT REPUBLIC" MONTHLY.

It is intended to make this Magasine superior in every respect to anything ever before issued in this country.—
The general scope of its character can best be understood by its name. It will get no this union a common field, where they can meet on the highest ground of cotemporary literature. It will aim to gather about it every variety of intellect.

The range of articles will be a wide one, covering, among other grounds, Essays, Sketches, Humorous Tales, Stories, Historical Incidents, Reviews, Critiques, Blographies, Scientific Articles, Travels, Table Talk, Dramas, Incidents, Politics, Poems, Ballads, Stanzes, Sonnets, Music, Correspondence, Gossip, etc., etc., etc.

"Have you room for a word about Ripley and Dana's new Cyclopædia? I have frequent occasion to use one; and I am so delighted with the two volumes we have that I must ask you to allow me the relief of saying very simply, what I find them—that is, the very best Cyclopædia for practical use ever published. I have some knowledge of all in our own language and a faw of those of the continent of Europe. The best and largest of these surpass this of Appleton's in the extent to which they carry out special dissertations. But this Cyclopædia is full of the best matter. By skillful selection and compression, and sedulous avoidance of mere show and verblage, room is found for an immense amount of the latest information, put forth clearly, carefully and accurately. The book embodies, and adequately represents, the ability and knowledge available at this day for a work of the kind.

"Its merit and extreme cheapness must place it eventually in every Library. And if a good word from one who has found out it as excellence by making use of it, can hasten or extend its diffusion, my purpose in writing this brief notice will be accomplished."

ASTROLOGY.

The never-failing Mas. VANEGRN is the best; she succeeds when all others have failed. All who are in trouble,—all who have been unfortunate, all whose fond hope have been disappointed, crushed and blasted by faise promises and deceit,—all who have been deceived and triffed with,—all fly to her for advice and satisfaction,—all who are in doubts of the affections of these they love, consuit her to relieve and satisfy their minds. In love affairs the encor fails. She has the secret of winning the affections of the opposite sex. It is this fact which induces illiterate pretenders to try to initiate her. She shows you the likeness of your future wife, husband, or absent friend; she warrants and guarantees the single a happy marriage, and makes the married happy. Her ald and advice has been solicited in innumerable instances, and the result has always been the means of securing a speedy and happy marriage; she is therefore a sure dependence. She has been the means of bringing many hundred hearts and hands together. Thousands of broken hearts have been healed and made happy by her.

It is well known to the public at large that she was the first, and she is the only person who can show the likeness, in reality, and who can give entire satisfaction on all the concerns of life, which can be tested and proved by thousands, both married and single, who daily and eagerly was the first of the same are strictly private and confidential.

VIRGINIA FARM FOR SALE—GREAT
INDUCEMENT FOR CAPITALISTS.—Will be sold at private sale, the valuable Farm known as the "Wheatland State," containing \$10 ACRES, climate in what is called the Hickory Level, Buckingham county, Va. 5 miles morth of Mayaville, the county seat, and 7 miles from Hardwickwille—a bridge crossing the James river to the canal at this point. About 600 acres are cleared, and almost level land—the balance well timbered. The land is very productive, and celebrated for the growth of Wheat, Corn and Tobacco. It is also well watered.

The improvements are a new, handsome and convenient DWELLING HOUSE, so situated on an elevation as to command a view of nearly the whole estate—and the Barn and Out Houses are consumed to the convenient of the season the premises of Apple, Pasch, Charry and other trees.—It is seldom that such an estate is offered, laying as it does in an intelligent and healthy neighborhood convenient to markets, churches, &c., and so highly productive, and level in every portion as that all the implements of husbandry can be used to the very best advantage. If I sell, my object is to remove to a warmer climate. A large portion of the land cost me \$40 per acre—but I will sell it, with the crop of Wheat from the sowing \$40,000; or without the negroes, for \$20,000. My object for wishing to dispose of the slaves with the land, is to prevent the separation of families.

TERMS—One third Cash, (or in two or three months,) and the balance in equal instalments of one, two and three years, with interest.
