A LARGE AND BRILLIANT WEEKLY

NEW-PAPER.

THE CONSIELLATION.

PURK BENJAMIN, BUTOR.

"A Constitution is but one.

Though 'tis a train of stars'"—DRYDEN.

The subscriber has great pleasure in announcing that he has made arrangements to issue on SATURDAY, JANUARY 1, 18 9 the largest, handsomest, and most complete Weekly Newspaper ever published.

It will be a superb Polio Sheet, Double the size of the New York Ledger! containing Nine broad Columns on each page, 35 inches in length, and bouble the quantity of reading matter given by any weekly paper now published—on bracing in unrished for a buroad and at home. It will be in all respects A Livino Journal—c untaining the productions of the most coping witers in liberal quantity—Bomances, Stories, Essais, Pems. An colotes, Sactobes, Editorials, Notices of Anusements and the Aris, &c. &c.—in fine, all things which are new, beautiful, interesting, and attentive.

a satject.

The subscriber has already engaged a Corps of Contributors, "a Train of Stara," unequalled for genius, brilliancy, and reputation, by those of any other journal now published, no matter what may be its pretrusions. It is with no slight gratification that he announces his success in engaging, after much persuasion, the able and experienced services of a gentleman, so long and so justly eminent, as Mr. Pars BENJAMS. Connected for twenty years with the Press of New York City, and always successful in his literary enterprises, whether as Editor. Author, or Public enterprises, whether as Editor. Author, or Public iker, the name of Mr. Benjamin is an augury of certain fortune.

The pu lic may rest assured that no means will be untried by the subscriber to secure a grand and brilliant accomplishment of his eff rit to establish the largest and best Weekly Paper ever published—since nothing will be left undone that can be done by talents, capital, experience, learning and a resolute perseverance.

"The Constellation" will mainly recommend itself to a cordial and generous support from the very best people by its observance of good and avoidance of evil. It will be an unobjectionable and perfect Pamily Newspaper—giving offence to no sect or party—the favorite alike of both s-xes, of young and old. The subscriber, having had nearly a quarter of a century's experience in the publication of daily and weekly journals, and having now connected himself with such well known and invaluable Editorial aid as he has herein announced, flatters himself that his new enterprise will st once achieve a popular favor and success unparalleled in newspaper enterprises.

The terms for "The Constellation" will be Two Dollars per Annum each, when Ten Coppes are sent in one enrelope to

deliv-ry. All subscriptions to be invariably in advance. Single Copies, Five Cents. To Newspaper Agents, \$3,50 per 100.

A late Saturday Evening Edition will be published, and left early Sauday Mornings at the residences of City Subscribers by regular Carriers, employed by the Publish-r.—Those, who desire to commence with the first number, should send in their subscriptions and orders as early as possible—since, owing to the immense size of the sheet, only such numbers will be printed as may be ordered.

All orders and letters to be addressed to the undersigned.

July 27 tf 28 PATENT AMBROTYPES.--The subscribers having purchased the exclusive right of Lancaster city, are enabled to offer to the public a new style of Pictures, far exceeding, in beauty and durability, any ever before made. These pictures are not reversed, as davuerency presareand may be seen in anylight. They also possess the rare property of being imperimentally, being hermetically sealed between glass plates, which is secured by Letters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINGS, only, over Sprecher & Bro.'s New Stors, North Queen st., Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible coment, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned acainst imitations made on single plates of glass, with the black varnish in immediate contact with the Picture.—Such are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life.

Leaving to others the discussion of vexet political and polemical questions, it will yet be the aim of the editors to procure for the body of the Magazine the most brilliant articles upon the topics of the day; and the large resources at their command will enable them to make the pages of the KMCKERBOCKE unsurpassed in excellence and variety of matter. The DEAFNESS, TOTAL OR PARTIAL, ENTIRELY R E M O V E D.

DR. H. ENWOOD, Sa., beys leave to call the attention o those suffering under a partial or total loss of the sense of hearing to the following facts: He treats diseases of the mid die and internal ear with medicated douches, such as is practised in the Infirmaries of Berlin, Lepisic, Brussels, Hamburg and Petersburg, and lately by the most distinguished London aurists, with the most wonderful success; indeed, it is the only method that has been universally successful.

The best proof of the affirmation of the control of the affirmation of the control of the affirmation of the affirmation of the control of the affirmation of the affirmation of the control of the control of the control of the affirmation of the control of the co guished London aurists, with the most wonderful success; indeed, it is the only method that has been universally successful. The best proof of the efficacy of this treatment will be a reference to nearly one hundred names, residents of the United States. Canada. New Brunswick and Nova Scotia, who have been restored to acute hearing, and not a single solitary case, to our knowledge, did we fail to effect either a partial or total restoration of the hearing, when our advice and instructions were faithfully and punctually adhered to. Many who could not hear the report of a plated at arm's length, can now hear a watch best at the distance of four feet. In cases of mucus accumulation in the Eustachian Tube and Tympanum, inflammation of the mucus membrane, nervous affections, diseases of the meubrana tympani, called the "Drum," or when the disease can be traced to the effects of fevers, or colds, the use of quinine or mecurial medicines, gatherines in the ears in chidbood, &c., this treatment stan is pre-emment. When the auditory canal is dry and scal, "Fin little on no secretion, when the destines is accompanied with noise in the ear, like failing of water, chirping of insects, ungage 3 belis, rustling of leaves, continued pulsations, a discharge of matter; or when stooping, a seensation is felt as if a a rush of blood to the lead had taken place; when the hearing is less acute in duit, cloud, weather, or when a cold has been taken, this method of treating the disease is infallible. In deaf and dumb cases, my experience warrants me in saying that if the hearing was good at any time, much can be accomplished. In the desf and dumb schools at Lepsic, out of a class of fourteen, I succeeded in restoring four to acute hearing.

Dr. E. beys explicitly to state that in those cases he untakes. he guarantees a successful result—complete restoration of the sense, or such a marked improvement as will be perfectly satisfactory, if his remedies are faithfully applied and directions adhered to; applicants will please state their
