NECRO FARATICISM DYING OUT. - We ever and anon find good coming from an unex pected source. With all the intensity of its opposition to the Democratic party, with all its devotion to the general principles of Black Republicanism, the New York Times; Occa sionally, gives the public a candid statement of things as they actually exist. We copy the following from that paper, and ask that it may be attentively read: THE ANTI SLAVERY AGITATION IN ENGLAND.

THE ANTI SLAVERY AGITATION IN ENGLAND. -Our London correspondent states that the Palmerston party has revived the Anti-Slavery. orusade, as a means of exciting anew popular prejudice against America, and thus checking eking the agitation in favor of the ballot and the extension of suffrage. We print the speech of

that amiable but not very gifted nobleman, Lord Carlisle, which is one of the incidents of this new movement. It indicates very clearly the absurdity and ignorance which characterize the crusade.

The Earl says that the Abolitionists are making great progress in the United States, and encourages the belief that they will soon control the Presidential election. Nothing could be more exactly untrue. There has not been a time for ten years when the Abolition ists were so weak and exercised as little in fluence on public affairs, as at the present moment. The only way in which their action produces any effect, is by giving the Pro-slavery ultraists of the South fresh material for exciting the apprehensions of the people. and thus enabling them to increase th of the slave code and make still more deplorable and hopeless the condition of the slaves themselves. Lord Carlisle seems to be aware of this fact, for he speaks of the movements in several of the slave States to exclude free blacks from them, as among the signs of the proper cause, the alarm occasioned by the clamor and threats of the Abolitionists.

The public mind of the Northern States has settled down into the general conviction, that as a local institution slavery must be left to the control of those States wherein i exists. The movement in England against i may answer some party purpose of those who have started it, but it cannot fail to injure here the cause it professes to aid.

.... THE MECHANIC .- We extract the following from the closing address of Mr. A. H. Myers, delivered before the Mechanics' Association of San Francisco, at the recent Fair :

"It is the patient, tohing, persevering me chanic that leaves footprints behind him.— And such our youth must become, if the top st me of this magnificent superstructure is be laid ' with shouting of grace unto it.' But such they will not, cannot be without a regu lar system of training. And why should they not enter and submit to the discipline of this school? Can they obtain position and pro motion in the Navy and Army of our Govern ment on easier terms? Can they obtain the charge of the books of a banking or commer cisl house-of an insurance office-without they discipline in the art of book keeping ?-Will they dure assume the responsibility of the management of any business without pre vious training and discipline? But, perhaps, tions training and discipline? But, perhaps, this aversion is not much in the minds of their parents. What! my son a mechanic? I scorn the thought. My son shall be a scholar, shall adorn a profession, or fill an honorable position in the government.' Well said! But, if what you say is true, why not give him ed-ucational advantages until he reaches the proper age, and then encourage him to acquire a trade us not only the best and safest road a trade, as not only the best and safest road t an independent and useful life, but to the honors that you believe in store for him in the temple of fame.

Was Franklin ruined by dipping candles, serving an apprenticeship, and laboring as a mechanic? Was Washington ruined by carry-ing a surveyor's chain through the swamps of Virginia? Was Roger Sherman consigned infamy by hammering onta lapstone? Elibu Burritt by the soot and sparks of an anvil? Away with your aristocratic notions. man-you don't apprehend the spirit of the the age. Have you heard that labor is king, and is about to assume the government of the land? Already she has placed one of her favorite sons in the Chair of State in old Massachusetts, and others in the Senate Chamber of our country.'

LUMBER .--- We cut the following from an exchange, upon the subject of the lumber trade, from which it may be inferred that it will command a higher price next season than usual. As this is a matter in which builders have a deep interest, we would call their at-

rest Rheumatic and Neuralsias Ramady.

Hear what Mrs. Vaughn of Duncansville says: I have used the Galvanic Oil prepared by J. D. Skonarcoad, of Lewistown, Pa., for a very painful disease myself and recommend it to others, and in every case found it to be one of the very best medicines for sore and painful dis-eases. Relieves all pain in a few minutes. Every family should have it in the house.

tention to it, that they may be enabled to lay in their stock as far as possible before the rise shall take place :

The almost total absence of snow, thus fa during the winter, has led many to apprehend that the stock of lumber for 1859 will be quite limited, inasmuch as the mills can not be supplied with logs, unless there is sufficient snow for sledging purposes. The Williams port Gazette, in alluding to this subject, says that for five years past the prospect of getting a suitable supply of logs to the mills upon the West Branch of the Susquehanna have not been so unpromising as at present. Up to this time, nothing like the usual number have been put in readiness for the Spring freshets; and even with plenty of snow between this and Spring, the deficit can hardly now be made The shipments of manufactured lumber, next season, will probably fall far below any one for a number of years past; for, in addi-tion to the prospects of a very short crop of logs for next year's cutting, the quantity of dry lumber now in the hands of manufacturers is stated to be less than has been known in this month for the last six years. Serious doubts are entertained by lumbermen about being able to get in any logs, unless an unusual quantity of snow should yet fall.

## FROM UTAH.

LEAVENWORTH, Jan. 28.-The Utah mail from Salt Lake, December 28th, has arrived at St. Joseph. Me.

There was no quorum of the Utah Legislature obtained when the mail left. Governor Cummings' message was described as being brief and pointed.

The weather had been very severe. The mercury stood twenty-eight degrees below zero, during four consecutive days.

President's Message was carried to Salt Lake in eleven days.

There has been discovered an entire practi able pass through Sierra Nevada, which will chorten the distance to the Pacific materially. Fifteen mules had perished from the cold in Sweet Water river, and fifteen men were badly frozen.

SUFFERING IN MICHIGAN.-The people of Gratiot county, Michigan, are represented as being in a very destitute condition, and an appeal has been made to the Legislature for aid. There are about 1000 families in the county, and of these not more than one quarter, it is believed, have the means of subsistence until the next harvest. An almost total failure of the crops is assigned as the cause of the existing want.
