Sr. Louis, Feb. 7, 1859.

The weather has been cool and pleasant, and the past two days very windy, with clouds of dust flying in every direction. We are much in need of snow, the growing wheat mop requires it. Navigation in the upper rivers intinnes suspended. The ice is running very heavy in the river opposite. The Produce market is very dull, as receipts, are very light. Sales on 'Change Saturday ranged scelpts, are very light. Certs on Onlings Schuld y langed s follows: Hemp from \$100 to \$118 per ton; Lead \$5,25 ar 100 fbs; Flour \$5 to \$5,50; Wheat 90c to \$1,18; Corn 70 to 77c; Oats 65 to 76c; Mess Pork \$19 to \$20; Beel \$3,25 per bbl; Bacon 91/c; Lard 111/c; Sugar, fair. 6% to To : Molasses, Plantation from 37 to 29s per gal; Whisky 261/2 to 27c; Batter, very common, 8c; Hides I61/2 to 16/2; Cloversed \$7; Timothy seed \$2,25; Pig Iron \$32 to \$34. Nothing doing in Hogs, except in a ratail way. There were but fifty-two deaths in the city last week.

Local news of interest is scarce. The boy murderent

sentenced to be hung on Friday last, have again been res. pited for six weeks. It is now thought that they will not hung. This respite was granted on the recommends tion of the Legislature. Twenty-one prisoners will be sent up to the Penitentiary

to-day, and twelve more on Wednesday next. Some person entered the Union Bank at Jackson, Tennes

e struck and killed the Teller, and then robbed the Bank of a large amount of money. No clue of the murderers and robbers.

Judge S. W. Parker, of Indiana, died on the 1st inst. He was one of the old Whig leaders, in the days of that party. The following report is from the Inspectors and officers the Missouri Penitentiary :

of the Missouri Perilentiary: <sup>10</sup> The receipts and disbursements for 1857 were—receipts, §51,051: Disbursements, §52,174; biance on hand at the und of the year, §507 For 1858; the receipts were \$25,815; disbursements, \$21,947; biance, §508. The account of the Prison against the State for work done by the convicts was \$16,062; that for 1855 was \$59,724. The net proceeds of the various shops, show a balance of \$16,429 33. Deducting the satarles of officers, there re-mains \$2,000 in favor of the Peniteutary. Fince the last report, there has been a large addition to the number of prisoners; the number in December, 1855, bing, \$259; D-cember, 1857, 344; and at this time, 383. The average number for 1858, was \$55. The cost of feeding each prisoner in 1857, was \$55. 13 per annum, or 9½ cents per day; owt of clothing, bedding and medicine for exch per a nnum, \$11,611/, or 3 b8 per day. The expenses for the last year wore something greatst.

The nativity of the convicts now in the prison is thus

At a meeting of the Chamber of Commerce on Wednes-day last, they adopted the following rule, to prevent the sent system of peddling on 'Change which has hitherto

It would seem that the area of Alabama will soon beincreased by the addition to the State of a portion of Weet Florida, including the seaport of Pensacola. The Legisla-

ture of Florida has passed a joint resolution, which has received the approval of the Governor, leaving it to the people of the State to vote upon the question of cession. This acquisition is deemed of vast importance to the interests of the state of Alabama. It is thought that the people of Mrs. Rodgers, who, besides having nine small

Blorida will favor the change. It was with considerable pleasure that we learned by telegraph of your election to the chief office of the "ouly ratic City." Democrats here, as well as in all quar ters of the Union, will rejoice at the triumph of the Democmer of Luncaster-the home of Buchanan. The "opposi 'were all "cocked and primed" to herald abroad the defeat of Mr. Buchanan and his party, at his own home; but our Black Republican neighbors here s-em not to have heard of the election-they only hear of an election when be offered. it is in their favor !- they are mum on the result. Allow us to congratulate you and the noble Democracy upon the victory you have achieved. Yours was a pretty fair begin ning for the year 1859, and unless we are greaty mistaken many more of the same shots will be fired before the year

We here in St. Louis, have a duty to perform in April next, and so far as the lion-hearted Democracy are conerned, it will be done. We also have a Mayor and other city officers to chose, and thus far the Democracy are work ing harmoniously and with a will, and unless something unforeseen should enter the political areas between this and the election, you may expect gun No 2 to awaken you from your slumbers one morning early in April. We gust, and that triumph will not be complete unless we the bodies, when the Jury brought in their weep the city in April-undersing our action of August verdict that the deceased came to their deaths from exposure.

We are seldom wide of the mark in our predictions, and are now led to believe that Col. Churchill, our present able representative in the State Senate, will be our standard bearer in the approaching campaign.

Republicans and the Know Nothings. They are endeav. oring to units upon a man for Mayor, but it seems that both factions want the head of the ticket. How the matter will be settled we are not prepared at present to say.— Much depends upon this, and while they are quarreling over who shall be who, we will settle the question for them by electing 0.1. Churchill, and the ticket. There is now a "Democratic Club" in avery ward of the city, and before the day of election we will be fully equip-pad for the contest. We will not promise too much, but you can rest assured the unterrified will do their whole

WASHINGTON CORRESPONDENCE. FRIDAY MORNING, February 11, 1859. Retrenchment, reform, and the greatest economy, is the motto which pervades the spirit of both Houses of Congress At a caucus of the Democratic Representatives, held on Saturday night last, several plans and programmes we submitted for approval or rejection. About fifty mem principally Southerners, were in attendance. A report of a principally Souther line, were in attendance. A report of a previous caucus was read by Mr. Cochrane, of Geo., and the plans of economy contained therein were fully discussed. Eleven millions were to be saved to our National coffers by

the outting down of appropriations and by reduch some of the branches of expenditure. The main project shown forth were to make the Post Office Department se sustaining, the franking privilege being limited to a certain degree ; to make the Light House system self sustainin by taxing commerce; to discontinue the Coast Survey; suspend work on the Governmental Forts and Buildings, and to contract the expenses of collecting revenue the number o officers employed, etc. It closed by proposing that the Freasury be relieved by a continuance of the Treasury Not Law, and the expenditures be reduced to the amount of revenue collected. which was (in the course of the debate which followed) said to amount to \$61.000,000 per annum The Democratic members from Pennsylvania did not neet with the caucus, but formed a caucus themselves, an lectared their intention not to recognize any of the proreedings of the other caucus as binding upon them; depre cated and opposed the creation of a National Debt, and esteemed the recommendation of the President in regard

to a revision of the Tariff as eminently proper and politic suitable to the best interests of the country, and flually declared their intention to use all means to procure legisly tion on the subject during this session. The subject of an increase of tariff was up before Senate on Monday, whereupon Senator Bigler urged the

cessity of an increase of the tariff to increase the revenue as the sentiments of the Legislature and people of your State, and successfully, defended Pennsylvania from the imputation that her people were selfish, only anxious for their own interests and aggrandizement. Mr. Toombe renlied to Mr. B. in an extended speech, declaring that th Tariff of 1857 would produce enough revenue for an eco nomical administration of the government; he did not believe that the great State of Pennsylvania desired to be taxed, and endeavored to prove that the expenses could

he so cut down as to obviate the necessity of a revenu Yesterday the Tariff and Cuba occupied the attention of the Senate. Mr. Pugh, of Ohio. main a very elaborate aprech on the Cuba question, and proposed that we should not give more than \$150,000,000 for this 'Gem of the

In the House the admission of Oregon was debated .-From statistics read in the course of the debate, it is apparent that the population is nearly 93,000, which would entitle it to one member of Congress. The vote on the

admission will take place on to morrow at 1 o'clock, that hour being fixed upon by general consent The Appropriation Bill was passed, but very much curtailed in all its air proportions. Piccolomini sang here again on Monday, but this tim-

1859. 1859. 1859. POPULAR TRADE IN RIBBONS AND MILLINERY GOOD

There is a probability that the "opposition" in Ken-tucky will not be able to get a man of standing to run upon their ticket for Governor, squinst the popular nom-ines of the Democratic party. We hope they may, just to chare the computer how here a man can be here? show the country how bad a man can be beat !

There seems to be just now considerable interest mani-fested on the Cuban question. Many are opposed to spend ing thirty-millious or more in opening a treaty for the contemplated acquisition of the Island; whilst others are for "fillbustering" it into the Union. The opponents of the Democratic party, who have always, and at all times, opposed the acquisition of territory, are, of course, dead set against Cuba. It would seem that they never can see the necessity of acquiring more territory, until the Democracy accomplishes it, and then they strive to shoulder some of the credit. For ourselves, we are decidedly averse to the the credit. For ourselves, we are decidedly averse to the spending of thirty-millions, to lay the foundation in acqui-ring Cubs; we are also opposed to "filbustering" it into the Union, but we are honest in our proposition for a fair trade. As this is the age of trading, we propose to exchange Massachusetts, Vermont, Connecticut, Rhode Island, Maine and New Hampshire for the Island of Cuba, and if they are not satisfied with that, we would have no hesitancy in In throwing in Wisconsin or Ohio! Will not some of our aspiring Senators offer such an amendment to the question. The Black Republicans of those States say the South is of no benefit to them-that it is a curse upon the Repub-lic, etc., therefore they could have no objections of embracing the opportunity here presented, to rid themselves of a "Pro-Slavery curse." The South are a trading people --- they will trade a horse for a negro or a negro for a horse -they will trade a gun for a rifle or a rifle for a dog, and if the dog proves recreant to his master-he will shoot him They will trade again for a fine of a long, and if the dog proves recreating to it in soit a long, and They will trade for anything and serrything—except for an abolitionist—that they will not tolerate on their soil. A man found guilty of such a crime would be transported to Massachusetts on the Underground Railroad in a little less than no time. We are in for a trade; bring along your oropositions.

propositions. The friends of the Hon. James Guthrie are strongly urg

ing his claims, in Kentucky, for the next Presidency. Mr . G. is not only highly esteemed in Kentucky, but is regard. ed throughout the Union as one of our ablest and safest Statesmen, and his nomination would be responded to by

the Democracy of the country. J. O. Hartman. a compositor in the Louisville Courier office, set up last week 90,100 oms, for which he received, according to the scale of prices, \$30,03. This is a big week's work, and proves Mr. H. to be one of the fast compositors. Yours, OLD GUARD. Yours,

I was an observer of its effects in a friend of mine, who suffered almost everything from a neuralgic affection which resisted the best medical tratment in Centre county.
