THE NEW AMERICAN CYCLOPEDIA.

In response to the numerous calls for the IVth Volume of the NEW AMERICAN CYCLOPÆDIA, we beg to state that it has been delayed by an accidental loss of an important manuscript in the mails, which had to be replaced. It is now PRINTED, and will be issued as soon as the edition of 10,000 copies required by the present subscription can be bound in the various styles required by the subscribers.

From the Hon. Theophilus Pursons, LL. D., Law Professor in Hurvard University.

"Have you room for a word about Ripley and Dana's new Cyclopsedia! I have request occasion to use one; and I am so delighted with the two volumes we have that I must ask you to allow me the relief of saying very simply, what I find them—that is, the very best Cyclopsedia for practical use ever published. I have some knowledge of all in our own language and a few of those of the continent of Europe. The best end largest of these surpass this of Appleton's in the extent to which they carry out special dissertations. But this Cyclopsedia is full of the best matter. By skillful selection and compression, and sedulons avoidance of mere show and verblage, room is found for an immense amount of the latest information, put forth clearly, carefully and accurately. The book embodies, and adequately represents, the ability and knowledge available at this day for a work of the kind.

"Its merit and extreme cheapness must place it eventually in every Library. And if a good word from one who has found out its excellence by making use of it, can hasten or extend its diffusion, my purpose in writing this brief notice will be accomplished."

THE NEW AMERICAN CYCLOP EDIA

Will be completed in 15 volumes of 750 pages each, (SOLD BY SUBSCRIPTION ONLY.)

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in overy case,—So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846-second, that it should cure all kinds of humor. In order to zive some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1853, I peddled it and sold about six bottles per day—in April, 1853, I peddled it and sold about six bottles per day—in April, 1853, I peddled it and sold about six bottles per day—in April, 1853, I peddled it and sold about six bottles per day—in April, 1853, I peddled it and sold about six bottles per day—in April, 1853, I peddled it and sold about six bottles per day of it.

Some of the wholessie Drugsits who have been in the business twonty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quartors.

In my own practice I always kept it strictly for humors—but since its introduction as a general fa nily medicine, great and wonderful virtues have been curred by a few bottles,—O, what a mercy if it prove effectual in all reases of that awful malady—there are but few who have—en more of it that? The heat of the achieve of the set of the se

guished London aurists, with the most wanderful success; indeed, it is the only methol that has been universally successful.

The best proof of the cff-acy of this treatment will be a reference to nearly nine hundred names, residents of the United States. Canada. New Brunswick and Nova Scotia, who have been restored to acute bearing, and not a singly solitary case, to our knowledge, did we id it be field either a partial or total restoration of the hearing, when our advice and instructions were faithfully and punctually adhered to. Many who could not hear the report of a pistol at arm's length, can now hear a watch beat at the distance of four feet. In cases of mucus accumulation in the Eustachian Tobe and Tympanum, inflammation of the mucus membrane, nervous affections, diseases of the membrane tympani, called the "Drum," or when the disease can be traced to the effects of fovers, or colds, the use of guining or mecurial medicines, gatherings in the ears in chidhood, &c, this treatment stands pre eminent. When the auditory canal is dry and scaly, with little or no secretion, when the deafness is accomprosed when the hearing is less acute in dull, cloudy weather, or when a cold has been taken, this method of treating the less acute in dull, cloudy weather, or when a cold has been taken, this method of treating the less acute in dull, cloudy weather, or when a cold has been taken, this method of treating the disease is infallible. In deaf and dumb cases, my experience warrants me in saying that if the hearing was good at any time, much can be accomplished. In the deaf and dumb schools at Lepsic, out of a class of fourteen, I succeeded in restoring four to acute hearlug.

Dr. E. bege explicitly to state that in those cases he unout of a class of fourteen, I succeeded in restoring four to acute hearing.

Dr. E. begs explicitly to state that in those cases he untakes, he guarantees a successful result—complete restoration of the sense, or such a marked improvement as will be perfectly satisfactory, if his remedies are faithfully applied and directions adhered to; applicants will please state their ago, duration of the disease, if matter issues from the external passages, if there are noises in the ears, state of general health, and what they suppose to have been the cause of the desfness. When the hearing is restored, it is avented that those in east circumstances will

been the cause of the deafness. When the hearing is restored, it is expected that those in easy circumstances will contribute liberally.

ALL DISKASES OF THE EYE successfully treated by the application of Medicard Vapors, &c.; an iofalible and painless treatment for diseases of the Erg, acute or chronio—Cataract, Specks, Inflammation, Film and Weakness of Vision, Granulation of the Lide, Ulceration of the Lachrymal Glands, &c. To the astorishing and gratifying effects of this treatment, the child, the youth, those of mature age, as well as those far advanced in life, all bear testimony to the wonderfully renovating, healing and soothing effects.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows LOSS OF POWER, FATUITY, AND EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful disease—INSAN—ITY AND CONSUMPTION? The records of the INSANE ASYLUMS, and the melancholy deaths by CONSUMPTION, bear ample witness to the truth of these essertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it. Should a sound of the voice occur it is rarely articulate.
