can be bound in the various styles required by the sub-scribers. From the Hon. Theophilus Furions, LL D., Law Professor in Hirrard University. "Have you room for a word about Ripley and Dana's new Gyclopedia! I have frequent occasion to use one; and I am so delighted with the two volumes we have that I must ask you to allow me the relief of asying very sim-ply, what I find thom--that is, the very beest Cyclopedia for practical use ever published. I have some knowledge of all in our own language and a few of those of the conti-nent of Europe. The best and largest of these surpass this of Appleton's in the extent to which they carry out special dissertations. But this Cyclopedia is full of the best mat-ter. By skillful selection and compression, and exdinous avoidance of mere show and verbiage, room is found for an immense amount of the latest information, put forth clear-ly, carefully and accurately. The book embodies, and ade-quately represents, the ability and knowledge available at this day for a work of the kind. "Its merit and extreme cheapness must place it scentu-ally in every Library.
