THE GREATEST MEDICAL DISCOV-ENT OF THE AGE.-Dr. KINNED, of Rorbury, has discovered, in one of our common pasture weeds, a remedy that curve

discovered, in one of our common pastnew weeds, a remedy that curves BVERY KIND OF HUMOR, from the worst Scrödius down to a common pimple. He has tried it in orer 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possesion over two hundred certificates of its virtue, all within twenty miles of Boston. A bonefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken. Reader, I peddled over a thousand bottles of this in the richity of Botton. I know the effect of it inevery case. So are as water will extinguish fire, so are will this oure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has userer been known until I discovered it in 1846-zeroud, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and creat popularity of the discovery, I will state that in April, 1853, I peddied it and sold about six bottles per day -in April. Some of the wholesail Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was aver like it. There is a universal praise of it from all quarters. In my one practice I always kept it strictly for humors-but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected. Struct access of poll-pric fits--a discuss which was structure-o, what a mery if I prove effectual in all crease of thit awin malady--thor- are but few who have seen more of it than thave.  From the Hon. Theophilus Turisons, LL. D., Law Professor in Hurvard University.
 "Have you room for a word about Ripley and Dana's new Cyclogedia? I have frequent occasion to use one; and I am so delighted with the two volumes we have that I must ask you to allow me the relief of asyling very simply, what I find them—that is, the very best Cyclogedia is or practical use ever published. I have some knowledge of all in our own language and a few of those of the continent of the professor in the extent to which they carry out special dissortations. But this Cyclogedia is full of the best malarges, room is found for an immense amount of the latest information, put forth clearly, carefully and accurately. The book embodies, and adequately represents, the ability and throwledge available at this day for a work of the kind.
 "Its merit and extreme cheapness must place it eventually in every Library. And if a good word from one who has found out its excellence by making use of it, can hasten or extend its diffusion, my purpose in writing this brief notice will be accomplished."
