MANUFACTORIES IN THE SOUTH .- The New Orleans Picayune refers cheerfully to the establishment of a steamer line between that city and Boston, and after showing its many advantages, regards the only drawback to an increased and most profitable commerce between the two cities, to consist in the encouragement, by the people of New England, of the war against the domestic institutions of the South. To remind these parties of some of the consequences of this persistent hostility. the Picayune has the following observations:

"It may not be known by theone idea men of Massachusetts, who sneer broadly at the cotton-growing States, and find, as they sup pose, abundant proof that the institution of slavery cripples their progress and is against their development, that they now fall but little behind vaunting New England itself in the productiveness of their manufactures. In 1858, the States of Virginia, Missouri, Mary Kentucky and Tennessee, produced \$117,954,737 worth of manufactures; while Connecticut, Maine, New Hampshire, Island and Vermont produced only \$123,599. 840. Yet manufacturing industry in these Southern States is of late introduction. Empire State, Georgia, probably goes beyond any other commonwealth at the South n the extent of her manufactures, while even n Louisiana and Mississippi enterprises of thi character are rapidly increasing.

TORNADO IN ILLINOIS-SIXTEEN PERSONS KILLED .- The Jacksonville correspondent of the Springfield Register says, that a most terrific tornado occurred twelve miles south of that city on Friday week. The violence of the whirlwind is described as exceeding anything of the kind ever witnessed in this country, and could only be compared to a West India hurricane. Sixteen persons are reported to have been killed and many others seriously injured. Houses and barns were demolished and blown to atoms. The names of the killed have not been ascertained. This, it will be observed, occurred on the same day that the hail storm visited our section of

VIOLENT HAIL STORM .- On Monday afterwere visited by one of the heaviest hailstorms that has occurred for many years in that neighborhood. The storm lasted for nearly half an hour, and in some places the hail entirely covered the ground. The stones were very large, and it was feared that much least 25 per cent.
damage had been done to the crops and fruit.

A SUPERIOR PEN.—We have received from Angle & Co., 102 Canal street, New York, one of their superior make of Gold Pens.—Having tried the same, and found it everything it was guaranteel to be, we can cheer fully recommend this pen to all persons who have much writing to do. All in want of a very superior article in the pen line cannot do better than by sending on their orders to the above firm.

Sufferers from Scrofula and Scrofulous affections, clean up! Why wear your Pimples, Blotches, Ulcers, Sores? Why have the life twisted out of you by Dyspepsia, Rheumatism and Gout? Why suffer Syphilitic and Mercurial diseases to rot the bones in your body, or the flesh off your bones? why let your sluggish blood drag, and scatter its distempers through your veins? Ayer's Compound Ex't of Sarsaparilla cures these complaints, and cleanses them out of the system. Use it faithfully and you bring to society a healthier, cleanlier, and far more acceptable member.— Democrat, Baltimore, Md.

LOCUSTS BY THE MILLION. -- Under this heading the Lexington (Miss.) Advertiser, says in parts of the country that locusts in any number have made their appearance within the last few days. They emerge from the earth, leaving the ground in the neighborhood of trees thoroughly perforated with holes about the circumference of a five cent piece. We understand that it is exactly an interval of thirteen years since they last made their appearance here in any number-first in 1833 then in 1846. In the latter period during the Mexican war, a great deal of superstition was attached to the appearance of locusts.

SHOCKING CUSTOM. - A recent communication to the Indian Office, from the Superintendent of Indian Affairs at San Francisco. reports a strange but shocking custom that prevails among almost all the Indians of evails among almost all the Indians lifornia. This is that of burying alive. California. When a widow dies and leaves young children. the tribe to which she belonged will bury the orphans alive. The Superintendent states that he will use all his efforts to put an end to this cruel practice, but it had been impos sible to prevent it entirely as yet, even on the Government reservations.

GREAT CALF .-- Mr. Bennett Webb, of Pocopson township, Chester county, has a calf one week old, which weighed within twentyfour, hours of its birth, the enormous weight of 123 pounds. We announced a year ago that Mr. Dickey, of Oxford, had a calf weigh ing 115 pounds at birth; but that was subsequently beaten. This calf of Mr. Webb, however, beats the calf that beat Mr. Dickey's.

Successful Farming.—It is stated by the New York Times, that Prof. Mapes now farms one hundred and twenty acres of land near that city, and that his total receipts for produce raised on his farm from April 1st, 1858, to April 1st, 1859, were \$11,627 88.—

His total expenses were \$3,152 28, leaving him the handsome net profit of \$8,475 60.

POLITICS IN KANSAS.—Horace Greeley and Frank P. Blair are both lions in Kansas now.

There is much political excitement in the Territory, because of the new preparations for a State government, and the organization of political parties, in correspondence with those political parties, in correspondence with those aged 33 years of the country, for the elections under it .--Heretofore, parties have been Free State and Slave State; now they are dividing into Republicans and Democrats.

LARGE CATFISH .- A catfish was caught in the river Schuylkill, near Frick's Locks, Ches ter county, on Saturday last, which measured 19 inches in length, 41 inches between the eyes, and weighed 34 pounds.

A HEAVY VERDICT .- At St Louis, on Thursday, a Miss Effic Carstang, a young lady of twenty-five, obtained a verdict of one New York, June 4.—Flour has declined 5@10c. with Henry Shaw, for a breach of promise! Henry the young ladies hereafter, as it turns out the young ladies herea

members. There are 140 Presbyteries entitled to send delegates to the General Assembly.

A BISHOP ELECTED .- At the New Jersey Protestant Episcopal Convention, week before last, Rev. Dr Odenheimer, of Philadelphia, was elected Bishop of the Diocese.

SPECIAL NOTICES.

So A Misrepresentation Corrected.—Some ten days since an article appeared in different newspapers which was evidently intended to injure me, for its injurious effects are unlimited and incalculable; I never represented myself as the identical Dr Lorentis, but merely agent, (several years ago) for some of his medicine by the persuasion of numerous persons who desired to procure it; and by them the suggestion made to advertise the medicine, which was done in its original form, and the alteration or interlining (agent) was omitted by the printers.

Great Rheumatic and Neuralgiac Romedy.

SUFFERING BUMANITY READ THIS:
The undersigned takes this method of informing the public generally that there is no medicine now offered to the public that is equal to DUVALU'S GALVANIC OIL in relieving suffering humanity.

I was an observer of its effacts in a friend of mina, who suffered almost everything from a neuralgic affection which resisted the best medical treatment in Centre county. We applied freely the Galvanic Oil to the painful part, and once some inwardly, and in 20 minutes the patient was es- Prof. Duvall's Galvanic Oil .-- Th appined freely the Garvanie of the basiner party agave some inwardly, and in 20 minutes the patient was leep, and when awakened was free from pain, and co tinued so. This is a positive fact which I am willing make good at any time. A case of Felon was cured the country of time.

J. H. HANN, Centre Hill, Centre county, Pa.

Hear what Mrs. Vaughn of Duncansville says:

Hear what Mrs. Naughn of Duncansule says. I have used the Galvanic Oil prepared by J. D. Stoneroad, of Lewistown, Pa., for a very painful disease myself and recommend it to others, and in every case found it to be one of the very best medicines for sore and painful diseases. Relieves all pain in a few minutes. Every family should have it in the house.

ALTOONA, Blair county, July 3, 1858.

J. D. STONEROAD, Lewistown, Pa.

Dear Sir—Mr. Wm. Turnbungh has been sniffering several years from rheumatism, got so ill that his friends and relatives were summoned to witness his death. I induced his friends to try the virtue of your preparation—they did so, as the jast resort; and, to their astonishment seal or he hearn to improve got hatter and hetter, and they did so, as the last resort; and, to their astonishment and joy, he began to improve, got better and better, and now, so far as I know, he is a hale and stout man. This is not the only case where the Galvanic Oil has surpassed human expectations. In every case where I have recommended the Uil, it has done what it promises to do. Send us another \$20's worth. us another \$20's worth.
Yours truly, H. LEHER.

From Humbug-land there came a Count, Whose name was Windy-Bubble; He was a man, of no account, Except for making trouble. CHORUS-" Yankee Doodle is the tune, Yankee Doodle Dandy."— Wait not, giris, for foreign Counta, When Freedom's sons are handy.

The Count we could not countenance,
As he for spirits thirsted,
And going often on a "bust,"
The Bubble often bursted. He said that he, in Humbug-land, To wealth and fame had risen— In courtly phrase he talked of courts, But never mentioned prison;

But never mentioned prion;
Although, within the granite walls
Where stubborn guards are meunted.
The Windy-Bubble—then no Count—
For years the hours had counted.
A Bubble, to the pipe he clung;
In meerschaums much delighting—'
A mere sham he, as will be seen
In facts we are inditing. His whiskers, hair and eyes were brown. His wicked heart was black, oh!

Both sense and reason he, alas Eschewed, and chewed tobac He smoked and chewed, aye, worst of all, Took snuff like any Beadle; And, thus addicted to the weed, He could most slyly w(h)ecdle. A maid, with scores of worthy beaux, Spurned all of them as stubble, And, with the hope to win a Count, Encountered Windy-Bubble.

He talked of love, of wealth and rank, And clouded all her senses— When he, in fact knew naught of rank, Except his rank offences. One day, when seated by her side, With vows he did entreat her, And, while he did his vows repeat, He stole her gold repeater.

He pawned the watch, and sent his dear The ticket—base deceiver! The girl was cured—the Count was caught, And, though he said he right meant, Was guilty found upon a count Set forth in an indictment. Indictment!—Readers will you mark
That Bennett I have slighted,
And never once said Tower Hall
In all I have indited?

Because friend Bennett gives, for cash, In clothes a value double, Of Tower Hall. I "blow" not, when I blow a "Windy-Bubble." BENNETT & CO.'S TOWER HALL CLOTHING BA-ZAAR, 518 MARKET St., between Fifth and Sixth streets

REAPING MACHINES.

WEST KING STREET, LANCASTER.

As the season is approaching for the use of Rearing Machines the undersigned inform their friends and the community generally, that they have spared no pains in procuring the best and most reliable COMBINED GRASS and GRAIN REAPERS that are to be found.

We have them with or without Rakes or Reels, all of which are warranted to give antire satisfaction for cutting crass or grain. Certificates of the strongest character can be presented, but we prefer not tiring the patience of the reader by inserting them in this a twettisement; but content ourselves by courting competition, and would say to any good person in want of a Machine we are willing they reader by inserting them in this a twertleament; but content ourselves by courting competition, and would say to any good person in want of a Machine we are withing they should take one of ours and any other Machine from a different place, and after they have used all, when harvest is over to keep the Machine they like best.

We have the sale of three of the most approved Respects in the market, and guarantee any of them to give entire satisfaction.

Farmers in want of a Machine will find it to their interest to examine our stock before purchasing.

OEO. M. STEINMAN & CO.

NOTICE TO FARMERS.

A nowing match will take place on WEDNESDAY.
JUNE 18th in the field of Jacob Shirk, at the north end of
Duke st., on the east side on the Litiz pike.

SMALLEY'S NEW JERSEY IMPROVED MACHINE,
patented, April 12th, 1859, will be on the ground at 9
o'clock, A. M., and all manufacturers or agents are inviteto bring their machines, and test them in grass to enable
farmers to select the machine that proves to do its work
best and the easiest draft, and the most simple in construction and less liable to get out of order. Farmers will find
it to their advantage to be present and see Smalley's New
Jersey Improved Machine in operation. This machine
will cut any kind of grass or grain, wet or dry; in fact, it
it is impossible to clog or choke this machine in the heaviset grass that can be found in the county of Lancaster.—
The subscriber has made arrangements with the manufacturer, and has now on hand a number of machines unde
of the best material and made in the most workmanlike
manner, and are warranted to run with less side draft than
any other. Two small mules can draw this machine in
any kind of grass; in fact, it runs nearly one horse lighter
than any machins in use. The manufacturer has spared
no pains, but has made an entire new set of patterns, and
the seats are placed on eliptic springs which takes the Jar
and jamming of the machine; the box's of the master
wheel are not to be altered from mowing to reaping as it
was on the Jersey machine of last year; ther 4re only two and jamming of the machine; the boxes of the masterwheel are not to be altered from mowing to reaping as it
was on the Jersey machine of last year; there are only two
bolts to be loosened on a slide rack and the cutter bar can
be raised or lowered in an instant, and changed from a
mower to reaper, it is very easy and quickly done; in fact,
it is unnecessary to say anything in praise of this machine.
All I ask is Farmers to call and examine the machine before purchasing elsewhere, and they will be convinced at
once that this is the machine that will suit them the best.
The machines are for sale at the Machine Shop of A. F.
Bair, in East King st., in the rear of Dr. G. B. Markley,
Lancaster City, a few doors east of Sprecher's and Lechler's
taverus.

BURIAU OF CONSTRUCTION, EQUIUMENT, &c.,
May 19, 1859.

SEALED PROPOSALS to furnish materials for the navy for the fiscal year ending 30th June, 1860, will be received at this bureau until 3 o'clock, p. m., of the 20th June ent. These proposals must be endorsed "Proposals for Materials for the Navy, Bureau of Construction, de.," that they may be distinguished from other business letters.

The materials and articles embraced in the classes named are particularly described in printed schedules, any of which will be furnished to such as desire to offer, on application to the commandants of the respective yards, ESTATE OF JOSEPH PINKERTON,

or to the navy-agent nearest users on an account and the parada upon application to this bureau. This division into classes being for the convenience of dealers in each such portions will be furnished as are actually required for bids. The commandant and navy-agent of each station will have a copy of the schedules of the other yards, for examination only, from which it may be judged whether it will desirable to make application for them.

Offers must be made for the whole of the class at any yard upon one of the printed schedules, or in strict conformity therewith, or they will not be considered.

The contract will be awarded to the lowest bona fide bidder who gives prober security for its fulliment. The A SIGNEES IN OTHER AND A SIGNEES AND A SIGNEES AND A SIGNEES AND A SIGNEES AND A SIGNE AND der who gives proper security for its fulfilment. The United States reserves the right to reject all the bids for any class, if deemed exambitant. All articles must be of the very best quality, to be delivered in good order, and in suitable versels and packages, as the case may be, at the expense and risk of the contractor, and in all respects subject to the inspection, measurement, count, weight, &c., of the yard where received, and to the entire satisfaction of the commandant thereof. ISTATE OF HENRY MILLER, LATE OF HENRY MILLER, LATE OF HENRY MILLER, LATE OF STATE OF HENRY MILLER, LATE OF STATE OF THE COURT OF THE CO

thereof.

Bidders are referred to the commandants of the respective yards for samples, instructions, or particular description of the articles; and, all other things being equal, precence will be given to articles of American manufacture. Every offer, as required by the law of 10th August, 1846, must be accompanied by a written guarantes, the form of must be accompanied by a written guarantee, the form of which is herewith given. These only whose "fibrs may be accepted will be notified, and the contract will be forwarded as soon thereafter as practicable, which they will be required to execute within ten days after its receipt at the post office or navy agency parced by them.

and the contract with they will be required to execute within ten days after its receipt at the post office or navy agency named by them.

Sureties in the full amount will be required to sign the contract, and their responsibility certified to by a United States district judge, United States district attorney, collector, or navy-agent. As additional security, twenty per centum will be withheld from the amount of the bills until the contract shall have been completed; and eighty per centum of each bill, approved in triplicate by the commandants of the respective yards, will be paid by the navy-agent at the points of delivery within thirty days after its presentation to him.

It is stipulated in the contract that, if default be made by the parties of the first part in delivering all or any of the articles mentioned in any class bid for in the contract, of the quality and at the time and places above provided, then, and in that case, the contractor and his sureties will forfeit and pay to the United States a sum of money not exceeding twice the amount of such class, which may be recovered from time to time, according to the act of Congress in that case provided, approved March 3, 1843.

Class No. 6 to be delivered one-fourth part on or before the 15th May, one-fourth part on or before the 1st September, and the remainder by the 1st December, 1860. The remaining classes to be delivered one-fourth part on or before the last April, and the remainder nor before the 30th June, 1860, unless to the delivered one-fourth part on or before the last April, and the remainder on or before the 30th June, 1860, unless to the delivered one-fourth part on the fore its lesses to be delivered one-fourth part on or before the last April, and the remainder on or before the 30th June, 1860, unless a 10th and 18 to 18 Lieures of Administration on the estate of John McPherson, late of Salisbury township, dec'd, having been granted to the subscriber residing in said township: All persons indebted to said estate are requested to make immediate payment, and those having claims will present them, without delay, properly authenticated for settlement, may 10 6t* 17]

Form of Quarantee.

The undersigned, ______, of _____, of _____, in the State of ______, and _____, of _____, of _____, of _____, in the State of ______, hereby guaranty that in case the foregoing bid of ______, hereby guaranty that in case therein named be accepted, he or they will, within ten days after the receipt of the contract at the post office named, or navy-agent designated, execute the contract for the same, with good and sufficient sureties; and in case said ______ shall fail to enter into contract as aforesaid, we guaranty to make go d the difference between the offer of the said ______ and that which may be accepted. "Signatures of two guarantors. C.D.

PATENTED BY HANDALL PRATT

This Rake has taken the First Premium at Nine different
Exhibitions.

After toiling and experimenting for many years, we have
sinally succeeded in getting up a RAKE that is perfectly
adapted to rake both Grain and Grass, each tooth being
fastened on a ferrel so as to admit of its raising and lowering to suit uneven surfaces with an independent cleaner.

The public are already aware that this RAKE is unrivalled in any market, and is admitted by every person that
has seen it work (and who have seen other different machines work) to be the very best Rake now in use.

The large number sold by us last year, and the efforts of
different parties to claim the right to sell, is of itself a most
convincing proof of its superiority.

We guarantee to every purchaser our indisputable right
to sell the said Rake.

Agencies in all principal Cities and Towns in the U. S.

These Machines sew from two spools, as purchased from the store, requiring no re-winding of thread; they Hem, Fell, Gather and Stite in a superior style, finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. They will do better and cheaper sewing than a seamstress can, even if she works for me cent an hour, and are, unquestionably, the best Machines in the market for family sewing, on account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing—executing either heavy or fine work with equal facility, and without special adjustment.

As evidence of the unquestioned superiority of their Machines, the Grover & Baker Sewing Machine Company beg leave to respectfully refer to the following

"Having had one of Grover & Baker's Machines in my family for nearly a year and a half, I take pleasure in commending it as every way reliable for the purpose for which it is designed—Family Sewing."—Mrs. Joina Leavid, wife of Rev. Dr. Leavid, Editor of N. Y. Independent.
"I am delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."—Mrs. Elicabh. Srickland, wife of Rev. Dr. Strickland, Editor New York Christian Advocate.

"After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease Statement of the Company's Business for the year ending October 31st, 1858.

changing the spools of thread."—Mrs. Elizabeth Strictland, wife of Rev. Dr. Strickland, Editor New York Christian Advocate.

"After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing, "Mrs. E. B. Spooner, wife of the Editor of Brooklyn Star.
"I have used a Grover & Baker Sewing Machine for two years, and have found it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch. The Machine is easily kept in order, and easily used."—Mrs. A. B. Whipple. wife of Rev. Geo. Whipple, New York.
"Your Sewing Machine has been in use in my family the past two years, and the ladies request me to give you their testimonials to its perfect adaptedness, as well as laborasing qualities in the performance of family and household sewing."—Robert Boorman, New York.
"For several months we have used Grover & Baker's Sewing Machine, and have core to the conclusion that every lady who desires her sewing beautifully and quickly done, would be most fortunate in possessing one of these reliable and indefatigable fron needle women, whose combined qualities of beauty, strength, and simplicity, are invaluable."—J. W. Morris, daughter of Gen. Geo. P. Morris, Editor of the Home Journal.

Extract of a letter from Thos. R. Leavitt, Esq., an American gratheman, now resident in New South Wales, dated January 12, 1858:

"I had a tent made in Melbourne, in 1853, in which there were over three thousand yards of sewing done with one of Grover & Baker's Machines, and a single seam of that has outstood all the double seams sewed by sailors with a needle and wine."

"If Homer could be called up from his murry hades, he would sing the advanted flowers.

has outstood all the double scams sawed by sailors with a needle and twine."

"If Homer could be called up from his murky hades, he would sing the advent of Grover & Baker as a more benignant miracle of art than was ever Vulcan's smithy. He would denounce midnight shirt-making as the direful spring of wose unnumbered."—Pref. North.

"I take pleasure in saying that the Grover & Baker Sewing Machines have more than sustained my expectation.—After trying and returning others, I have three of them in operation in my different places, and, after four years trial, have no fault to find."—J. H. Hammond, Schador of South Carolina.

have no fault to find."—J. H. Hammond, Senator of South Circlina.

"My wife has had one of Grover & Baker's Family Sowing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take much pleasure in recommending it to the public."—I. G. Harris, Generior of Tennettes.

"It is a beautiful thing, and puts everybody into an excitement of good humor. Were I a Catholle, I should insist upon Saints Grover and Baker having an eternal holday in commemoration of their good deeds for humanity."—Gussus M. Clay.

"I think it by far the best patent in use. This Machine can be adapted from the finest cambric to the heaviest castimers. It sews stronger, faster, and more beautifully than one can imagine. If mine could not be replaced, money could not by its"—Mr. J. G. Brown, Nashville, Tenn. Bend for a Circular.

There cost," that they may be distinguished that they business letters.

The offer must be for the delivery of 15,000 tons, of 2,240 ibs, of the best Blackheath or Buck Mountain coal, designating the kind, steamer size, clean, unmired, selected so as to be free from impurities, and subject to such importion as to quantity and quality as the Navy Department may direct. inspection as to quantity and quanty as more inspection as to quantity and quanty as ment may direct.

The price stated must be for the coal delivered on board vessels in the port of Philadelphia, at the contractor's risk and expense, and without extra charge of any kind.

If an additional quantity, not exceeding 15,000 tons, is demanded, it is to be furnished on like terms and con-

demanded, it is to be furnished on like terms and cou-ditions.

The coal is to be delivered on board vessels in the port of Philadelphia, in such quantities and at such times as, in the opinion of the department, the exigencies of the ser-vice may require, commencing within two days from this time the vessel is reported ready to receive cargo when the quantity is less than 600 tons, and within four days when the quantity exceeds 600 tons; furnishing at the rate of not less than 120 tons pay day until the leading is com-nieted. pleted.

In the case of failure to deliver the coal of the proper quality at the proper time, the department will reserve in the contract the right to purchase or authorize to be puchased forthwith, at the contractor's risk and expense, that which may be necessary to supply the deficiency.

livery of the coal by the contractors, will be deducted from their bills.

The offer, as required by law, must be accompanied by a written guarantee, signed by one or more responsible persons, to the effect that he or they undertake that the bidder or bidders will, if his or their bid be accepted, enter into obligation in such time as may be prescribed by the Secretary of the Navy, with good and sufficient sureties, to furnish the supplies proposed. No proposition will be considered unless accompanied by such guarantee, the form of which is herewith given.

Bidders whose proposale shall be accepted, and none other, will be motified, and as early as practicable a contract will be transmitted to them, which they will be required to execute within ten days after its receipt at the post office or navy agency named by them.

Two or more sureties, in a sum equal to the amount specified to be paid, will be required to sign the contract, and their responsibility will be certified by a United States district judge, United States district autorney, collector, or navy agent.

As additional and collateral security, twenty per cent.

district judge, United States district attorney, collector, or navy agent.

As additional and collateral security, twenty per cent. Will be withheld from the amount of all payments, not to be paid except by the authority of the Secretary of the Navy, until the contract shall have been in all respects complied with; and the remaining eighty per cent. of each bill, when certified by the inspector and approved by the Navy Department, will be paid by such navy agent as the contractor may name within thirty days after its presentation to him.

It will be stipulated in the contract that if default be made in delivering the coal, of the quality, and at the place and time directed by the department, then, and in that case, the contractor and his sureties will forfeit and pay to the United States, as liquidated damages, a sum of money not exceeding twice the contract price, which may be recovered from time to time, according to the act or acts of Congress in that case provided.

Form of Offer.

We, the undersigned, residents of ______, in the State of ______, and _____ in the State of ______, hereby jointly and severally covenant with the United States and guaranty that in case covenant with the United States and guaranty that in case the foregoing bid of — the be accepted, will within ten days after the receipt of the contract at — execute the same with good and sufficient sureties for the delivery of the anthracite coal proposed in compliance with the terms of the advertisement of the 25th May, 1859, hereto appended and under which it was made; and in case the said — shall fail to enter into the contract aforesaid, we guaranty to make good the difference between the offer of the said — and that which may be accented.

ference between the offer of the said and that which may be accepted.

Witness: (Signatures.) C. D. (Place.) (Date.)
I hereby certify that to the best of my knowledge and belief the above-named gnarantors and considered and sufficient.

(Signature.)
To be rigned by the United States district judge, United States district attorney, collector, or navy agent.

If G H T N I N G H O D S

To all who intend protecting their property from LIGHTNING, a few facts may not be unwelcome.

THE ELECTRO MAGNET LIGHTNING ROD has been before the public for twenty years; has been the means of saving a vast deal of property and many lives, and has never in a single instance failed to meet the highest expectations of its value. Hundreds of our own citizans can testify from their own knowledge of its ability to protect property in safety; who have been save witnesses where buildings public and private, churches and school houses, have been saved from destruction—the rod receiving and carrying harmless to the ground, strokes which but for them would have caused the total ruin of the building and all within it.

The superiority of those rods over any others in use, has been testified to by men who have no superiors in general science or in this department. Recommendations to the number of six thousand can be seen at the factory.

The United State Futent Office is protected by my Rods, having been selected from all others in use as the best and having been selected from all others in use as the best and The United States Putent Office is protected by my Rods, having been selected from all others in use as the best and most reliable. Considering the character and position of the men who have charge of that institution, no higher testimony could be desired. Persons residing at a distance should be on their guard against a class of swindlers who by false representations of every description, seek to mislead the purchaser. Where my agents are not personally known as such, the only safe plan is to apply, by letter or otherwise, at the Factory.

DETECTING SPURIOUS BANK NOTES.

From the frequent impositions, upon the unwary and upon those who have to trust the honesty of others, by the passing of counterfeit and altered bank notes, it is only necessary to say that this subject not only forms an important part of our Students' instruction, but often proves to them of more value itself alone than the entire cost of the whole course.
