PATENT AMBROTYPES.—The subagribers having purchased the exclusive right of Laucaster City, are enabled to offer to the public a new style of
Pictures, far exceeding, in beauty and durability, any ever
before made. These pictures are not reversed, as dazuerrectypes areand may be seen in anylight. They also possess the
rare property of being IMPERISHABLE; being hermetically
sealed between glass plates, which is secured by Letters
Patent, in the United States, Great Britain and France,
and practised in Laucaster city by T. & W. CUMMINGS
only, over Sprecher & Bro.'s New Store, North Queen st.,
Laucaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages, it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the black varnish in immediate contact with the Picture—Such are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as lift. Citizons and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are insured of polite attention.

The undersigned having again resumed the practice of Dentistry, at his old stand, north east corner of North Queen and Orange streets, (Kramph's Buildings) would respectfully say to his former patrons and friends, and to the public generally, that he emb-aced the opportunity, while in Baltimore, of attending a full course of lectures in, and receiving a diploma from, the Baltimore College of Dental Burgery.

Having graduated at a period in the history of the profession when all its most approved principles could be thoroughly discussed and fully compared and studied, I feel better qualified than ever before to treat all cases of dental or surgical discases, strictly upon scientific principles.

As a metriculent of the University of Maryland, I received the benefit of the Surgical lectures of Prof. N. R. Smith, as well as those of Prof. T. E. Bond, of the Dental College, and having for years adopted Surgery as a favorite study, I design taking its general principles into my practice, and will treat all the surgical diseases, of the mouth and face especially, upon the principles laid down and practised so successfully by that eminent and scientific surgeon.

Cleft palates, have lips, preternatural and morbid growths in the mouth and about the face will receive especial and careful attention.

Artificial Teeth mounted upon four different and approved principles, viz: Gold plate, silver plate, hard rubber process, and the much talked of Cheoplastic process improved. Operations upon the natural teeth will be performed with a view to their preservation and beauty, and according to the highest principles of hygiene and artistic skill.

Specimens of plate work and pfugging will be shown to according to the inguest phase position.

Specimens of plate work and plugging will be shown to all who call.

Dental and surgical advice will be freely given to individuals or families, who may place themselves under my treatment.

SALE AT THE CHEAP BOOK STORE.

A RARE OPPORTUNITY FOR THOSE IN WANT OF GOOD BOOKS AT A SMALL COST.

Never have Books sold cleaper than at the recent Philadelphia Spring Sale.

The proprietor of the Cheap Book Store has availed him self of the opportunity to purchase a large stock of the most varied assortment of valuable books of every class and description. He now offers to the public the same, at proportionably and unusually low rates.

Those in want of valuable standard works, for the improving of a well selected library, will find it to their great advantage to call and examine the extensive stock on hand. My object and wish is, as it always was to supply the wants of the community with anything in my lina, on the most reasonable terms possible. This we find the better and most advantageous course for all parties.—The Political Econamist folls us "the cheaper an article is, the more universally it can and will be used." Then the conclusion is, that when we buy cheap, we must sell cheap, simply allowing ourselves a reasonable profit.

Mr. John B. Erb—Dear Sir:
After having used the McCormick Reaper and Mower for a season, we most unhesitatingly say that it is a very good Mower, and as a Reaper, it is not equalled by any other Reaper that has come under our observation. Its construction is simple, and it is easily kept in repair; we, therefore, take pleasure in strongly recommending it to the farmers of our county who desire a Mower and Reaper combined in one Machine, as the very best that can be obtained. Respectfully Yours,

THE NEW AMERICAN CYCLOPEDIA.

NOTICE TO THE PUBLIC.

In response to the numerous calls for the IVth Volume of the NEW AMERICAN CYCLOPEDIA, we beg to state that it has been delayed by an accidental loss of an important manuscript in the mails, which had to be replaced.—It is now PRINTED, and will be issued as soon as the edition of 10,000 copies required by the present subscription can be bound in the various styles required by the subscribers.

From the Hon. Theophilus Parions, LL. D., Law Professor in Harvard University.

"Have you room for a word about Ripley and Dana's new Cyclopædia? I have irequent occasion to use one; and I am so delighted with the two volumes we have that I must ask you to allow me the relief of saying very simply, what I find them—that is, the very best Cyclopædia for practical use ever published. I have some knowledge of all in our own language and a tew of those of the continent of Europe. The best and largest of these surpass this of Appleton's in the extent to which they carry out special dissertations. But this Cyclopædia is full of the best matter. By skillful selection and compression, and sedulous avoidance of mere show and verblage, room is found for an immense amount of the latest information, put forth clearly, carefully and accurately. The book embodies, and adequately represents, the ability and knowledge available at this day for a work of the kind.

"Its merit and extreme cheapness must place it eventually in every library. And if a good word from one who has found out its excellence by making use of it, can hasten or extend its diffusion, my purpose in writing this brief notice will be accomplished."

THE NEW AMERICAN CYCLOPÆDIA

FARMERS, LOOK to your INTEREST. HELMBOLD'S GENUINE PREPARA-

Transition from one question to another.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows LOSS OF POWER, FATUITY, AND EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—HNSAN-ITY AND CONSUMPTION? The records of the INSANE ASYLUMS, and the melancholy deaths by CONSUMPTION, bear sample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it. Should a sound of the voice occur it is rarely articulate.

With woful measures wan despair. Low sullen sounds his grief bequiled."

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddied over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never soid a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I peddied it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in It that I nover suspected.

Several cases of epileptic fits—a discusse which was always considered incurable, have been cured by a few bottles—O, what a morey if it prove effectual in all cases of that awiil malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various discusses of the Liver, Sick Headache, Dyspepsia, Asthma, Rover and Ague, pain in the side, Discases of the Spine, and particularly in discases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you get and a nough of it.
