MERICAN GUANOFROM

Me respectfully ambounce to farmers and dealers in fertilizers, that we are now prepared to supply all orders for the above valuable and LASTING GUANO, PRICE \$40 PER TON Liberal discounts allowed according to the quantity purchased.

Liberal automust automa according to the quantity purchased.

The practical results attending the use of this Guano have been most remarkable, and from its permanent action on the soil, it takes precedence over all others. Farmers using it can depend upon full and regular supplies; it is unlike some other Guanos which the consumer has just begun to appreciate, when he is informed that the "depense" is exhausted, or the price raised above his ability or inclination to purchase. Upon this he may fully rely, as to the fullness of the supply. The quantity on "Jarvis Island," alone, is believed to be over Three Millions of Tons.

We have just discharged a large cargo in fine condition, and shall be in constant receipt of others imported direct from the Islands to this City.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrodox, stainlifying indestructibility, permanency, xc. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not corrode by arids, nor be injured by water or climate. It is bold in its effect, beautiful in tone surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of joins, with the black varuish in immediate contact with the Ficture—Such are not permanent, as the varnish must crack, and destroy the Picture. edition.

Mr. John B. Erre—Dear Nir: March 29th, 1858. 
After having used the McDormick Reaper and Mower for a season, we most unbesitatingly say that it is a very good Mower, and as a Reaper, it is not equalled by any other Reaper that has come under our observation. Its construction is simple, and it is easily kept in repair; we, therefore, take pleasure in strongly recommending it to the farmers of our county who desire a Mower and Reaper combined in one Machine, as the very best that can be obtained. Reader, I peddied over a thousand bottles of this in the vicinity of lieston. I know the effect of it in every case.—So mire as water will extinguish fire, so sure will this cure humer. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day of it.
