WILLOUGHBY'S PATEZT, *GREAT IMPROFEMENT IN GRAIN DRILLS. G U M S P R I N U G R A I N D R I L L*. A great saving in Seed, as less is required with this Drill, than any other now in use. This Drill has been in use for three years. and wherever introduced, has won a reputation equaled by none. It has taken between Thirty and Forty First Class Premiuss in 1868, at the various State and County Fairs, where it was in competition with other Drills. Among which are Indiana, Ohio, Pennsyl-vania, New Jersey, Maryland, and Virginia. State Fairs; also the undrary farze (a Silver Medal,) at the United States P-ir, held at Richmond. Virginia, and many County Furst. The following are some of its advantages: First. The teeth are so constructed with Rubber Springs, in that when they come in contact with roots, rocks, stumps for any other obstructions, not over eighteen Inches high, they spring back, pass over, and immediately regin their former position, without stoppage or injury to the Drill. aviding the necessity of stopping to put in Wooden Fins, as is the case in other Drills. Newly cleared land can be needed with this Drill as well as an old field. So perfect is the spring, that the Drill as well as an old field. be set to drill the hardest kind of ground without yield-ing, but will suddenly yield where it meets - firm obstruc-tion. Swoud. The arrangement of distributing the seed is composed of two Vulcanized Rubber Rollers, revolving together, which discharge the seed not intermittingly or in hunches, but in a constant stream, without GROGENO on BREASENO the grain. No irregularity of ground or fast or slow motion of the team will vary the quantity sown to the acre. The quantity sown to the acre is regulated by a slide, to any desired amount in a moment's time, even while the Drill is in motion. It cannot be choked by straws, or white cape being in the Wheat, as the rollers will carry it through. Third. When the teeth are raised by the lever, the seed (and land measure) is instantly stopped, so that the Drill can be drawn from field to field without *lealing or worling the grain*. When the teeth a elet down the seed start immediately, if the drill is in motion. It sows Wheat, ity. Outs and Barley, with the same hopper and requires to change; also all kinds of Grass seeds.  </ Inster. and the second sec aug 11 PATENT AMBROTYPES.--The sub-scribers having purchased the exclusive right of Lan-caster city, are canabled to offer to the public a new style of Pictures, far esceeding, in beauty and durability, any ever before made. These pictures are not reversed, as daquereo-typesareand may be seen in anylight. They also possess the rare property of being IMERKISIABLE, being hermatically sealed between glass plates, which is secured by Latters Patont, in the United States, Great Britatin and France, and practised in Lancaster city by T. d W. CUMMINGS, only, over Sprecher & Bro.'s New Store, North Queen st. Lancaster. EXPLANATION. The term AMBROTYPE, by which these Pictures are designated : is derived from the Greek word Ambruds, sig-mfylog indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corres-ponding size is secured with an indestructible cement, by which the picture will retain its original brillancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone. 1 surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of plazs, with the black varnish in immediate contact with the Picture... Such are not pernament, as the varnish must crack and destroy the Picture. AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambro type Gallery of the undersigned, and examine spectmens before they procure Pictures elsewhere, as they are insured of polite attention. sep 25 tr3f. They will do better and cheaper sewing than a seamstress can, even if ahe works for one caric an horr, and are, unquestionably, the best Machines in the market for family sewing, on ac-count of their simplicity. durability, easo of management, and adaptation to all vari-tiesof family sewing—executing silther heavy or fine work with equal facility, and without special adjustment. scribers.
 From the Hon. Thoophilus Furrons, LL. D., Law Professor in Harvard Omicority.
 "Have you room for a word about Ripley and Dana's new Cyclopsedia". I have frequent occasion to use one; and I am so delighted with the two valunces we have that I must ask you to allow me the relief of asying very aim-ply, what I find them—that is, the very best Cyclopsedia for practical use ever published. I have some knowledge of all in our own language and a few of those of the conti-nent of Europe. The best and largest of these surpass this of Appleton's in the actient to which they carry out special dissertations. But this Cyclopsedia is full of the best mat-ter. By skillful selection and compression, and aschdons aroidance of mere show and verblage, nom is found for an immense amount of the latest information, put forth clear-ly, carrelally and accurately. The book embodies, and ade-quately represents, the ability and knowledge available at this day for a work of the kind.
 "fils merit and extreme cheapness must place it eventu-ally in cere Jubrary. And if a good word from one who has found out its excellence by making use of it, can has-ten or extend its diffusion, my purpose in writing this brief notice will be accomplished."
 "HE NEW AMERIOAN CYCLOPAEDIA
 Will be completed in 15 volumes of 760 pages each, (SOLD BY SUBSCENTPTION ONLY.) and audplaints of the work with equal facility, and without either heavy or fine work with equal facility, and without special adjustment. As evidence of the enquestioned superiority of their Ma-chines, the Grover & Baker Sewing Machine Company beg leave to respectfully refer to the following TESTIMOVIALS. "Having had one of Grover & Baker's Machines in my family for nearly a year and a half, I take pleasure in com-mending it as very way reliable for the purpose for which it is designed-Family Sewing."—*Hrs. Joshua Leavill, wife* of *Rev. Dr. Leavill, Editor of N. T. Independent*. "I am delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing. by simply changing the spools of thread."—*Mrs. Eliadeth Strickland,* wife of *Rev.
