Sr. Louis, Aug. 8, 1859. Col. Samuel C. Stambaugh, the U. S. Surveyor General for Utah Territory, arrived in our city on Friday morning last, en route for Great Salt Lake City. He was accompa-nied by Mesers. Chas. E. Wentz, of Lancaster, John A. Miller of Lampeter, and David Jones, of Philadelphia. The Colonel is looking very well, and his appointment to that impor-tant post by the President, is not only well merited, bu the right man has been selected for the right place. They left for Fort Leavenworth on Saturday morning, when they are to meet a Government escort. May they have

good fall trade is expected, and preparations are being

nade for the receipts of immense quantities of grain.

On Monday last our county election came off. It was for two members of the Legislature, County Commissioners Auditor, Clerks of the various Courts, Surveyor, Supreme and Circuit Judges. There were in the field a Democratic ticket, a Black Republican ticket, a Know Nothing or American ticket, an Independent ticket, a Workingmen's ticket and innumerable other tickets. Last April, Mr. Filley, Black Republican, carried the city by nearly three thousand majority-by a union with the Know Nothings. On Monday last the gallant Democracy went into the fight for victory-the part - has become strong and is daily increasing in strength—the defection of Benton and Anti-Bentonism is fast healing up, and the National Democratic party will soon take hold of the city and county of St. ouls, as it has that of the State. The Black Republicans knowing their weakness, again united with the renegade Know Nothings and put five or six of them on the ticket for the purpose of securing that vote. They nominated Mitchell, editor of the Evening News, (a rank Know Nothing paper.) for the Legislature-this was done to secure to state that Mr. Drake, the Democratic nominee beat him cighteen hundred votes!! Dr. Barrett, our other nominee, was beaten by Mr. Moore, who was on the "Black Republian," "Workingmen's," "Independent" and "Know he bests Mr. Witchell, Frank Blair's nominee, cight hundred! We also elect the Clerk of the Criminal Court and the County Surveyer-making in all five on the ticket, and would have ele ted the entire ticket had they not ambined against us. The Black Republicans were beaten at their own game-whilst every member, except Mitchell, themselves with glory. There was no opposition to the bemocratic candidates for Judge of the Supreme Court nay regarded as it is by all, a grand Black Republican and the Democracy, the latter would have elected, the ensticket. A WHITE WOMAN RUNS OFF WITH A NEGRO. -A case of mysterious disappearance occur-red at Chatham, C. W., about two weeks since creating considerable commotion in the neighborhood on account of the social position of the parties concerned, and no little surmise in regard to the whereabouts of the missing a calamity upon the body politic. person. This was the wife of Mr. Arthur Andrews, a wealthy farmer, living four miles her good character and amiable disposition, and the last one that was suspected of any improper conduct. Her disappearance was accordingly the more strange, and no effort was spared to discover her retreat, it being generally supposed that she had gone away and secreted herself in a fit of insanity. vesterday learned from Officer Goodyear, of Chatham, that the woman was found by him in a negro house of prostitution in Chatham. n place she had a day or two previously been delivered of a mulatto child. Being taken into custody, she confessed the truth without reserve, stating that the cause of her flight was a fear of detection in an intimacy which had for a long time existed between herself and a negro man named Jones, employed on her husband's farm. This ived on the farm for nearly two years, and extent. The result of this was in accordance with the natural, or rather unnatural course of events, and the woman was obliged to leave home to conceal her disgrace. The negro took her to the house where she was found, which contained five or six negro women of the lowest character. A WILD WOMAN. - A correspondent of the Kingston (Canada) News, under date of July 15th, says:

There was a woman seen near Bishop's mill who appears to be perfectly wild. She was first seen on the 13th inst., by two gentlemen who had been hunting, standing near the stream that falls from the race, gazing at the Orangemen who were at that time passing sight. The men, thinking that she come to bathe, as she was perfectly naked, did not discover themselves to her for some

They affirm that she is almost as dark as a negro, but having the features of a white; she is of medium height, appeared to be between 40 and 50 years of age, and was very lean, with small face and sunken eyes. When they approached near enough to be seen, she started up like a deer, immediately taking to the woods, leaping sometimes from 10 to feet. The men gave chase, but kept in sight but a few minutes. After wandering about for some time trying to get sight of her, but in vain, they returned and told their seemingly

THE SLAVE TRADE.—A writer in the

In conclusion, allow me to assure the day morning last contained a very interesting account of friends of law and humanity throughout the country, that a countless majority of the people of Georgia are opposed to all attempts at re-opening the African slave trade.

The history of the late Wanderer case fully proves the truth of this assertion. Under the ban of public opinion, the proper fugitives, in small parties, have been spirited about in secret from place to place without finding purchasers, until by the last reports, almost all had been carried beyond the confines of our State. No one knows who their owners are, neither do they dare to expose them for sale openly. A few such speculations would doubtless serve as effectually as anything else to give a quietus to the whole movement. In short, as long as those who respect and are willing to uphold the laws are true to themselves, we need not fear the infliction of such

August 8th, suddenly, in Penn twp., James Howard Hull, aged 9 years, 5 months and 29 days.

The deceased was the playful and intelligent son of Mr. Himan R. Hull, of Penn township, this county. On Monday morning last, as usual he was the delight of the family circle, the favorite of all who knew him, and as he went forth with exulting spilits to meet the lights of the day, and enjoy his innocent pastimes, little did his fend parents think, that ere the sun would set, they would be called upon to weep over his mangled remains, and mourn the decree of Providence which deprived them of their soul's idol. But slast: for the uncertainty of human life and human hope. The destroyer Death spares neither the aged nor the young. Youth, manhood and old age slike must fall before his unerring blows. Disease, sometimes slow and lingering, feeds upon the life, until exhausted nature yields to its inroads. But such was not the fate of little Howard. His was a speedy and most unexpected exit. A horse, upon which he was riding, ran away, threw him to the ground, injuring him so soriously that in fifteen minutes afterwards he was a corpse.

It is impossible for us to understand the mysterious and inscrutable ways of Divine Providence. We can only stand and look on in silent wonder, knowing that it is so, without being able to assign a plausible reason for it.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The concludes the interval of the concluder that the conclusion th not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the continuous description of the continuous description. stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not serofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination : destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it.

To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is con-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPETSIA, DEBILITY, and, indeed, all Complaints arising from Vitta-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in ontaminated constitutions.

Aver's Cathartic Pills. FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons pub-licly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distlessing and dangerous affections of the pulmonary organs that are incident to our climate. pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
