ST. LOUIS CORRESPONDENCE. ter—Weather, &c.—Forgery on Government ons—Their Arrest—Gold from Pike's Lea Sr. Louis, Aug. 15, 1859

The weather has been quite warm during the past week, but several fine showers cooled the atmosphere. It has been most excelent for the growing corn, and accounts from all sections are of the most flattering character. The rivers are alowly receding, and owing to scarcity of freight many of the boats are laying up. Receipts of produce are small for the season of the year. There is no material alteration and has fallen from 10 to 15c. per bushel during the week. The steamer Kate Howard, with a valuable cargo, struck a snag in the Missouri river, and sunk. No lives were lost. She was valued at \$45,000 or \$50,000, and insured for about \$25,000. The boat and cargo are supposed to be a total loss.

Capt. John Pope, of the U.S. Topographical Engineers, arrived in this city on Sunday. He is the officer who was sent out by Government in charge of the Artesian Well Expedition, to the Llano Estacado and other waterless regions on the great plains lying west of us. It seems that the Capt. has made a successful trip—having obtained water after boring to the depth of 1400 feet-the water rising to within 15 feet of the surface.

Father Gleizal, a worthy clergyman, well known to our

Catholic fellow citizens, died in this city on the 6th inst. Ewing, as Supreme Judge, over his other competitors. It would seem that the Mormons are not content with their depredations upon emigrants and others travelling in and through the territory of Utah, but have been com mitting a forgery upon the U. S. Government. The last Utah mail gives us an account of an attempt to pass counterfeit warrants upon the U.S. Treasury, purporting to be signed by Maj. G. H. Crossman, U. S. Quarter Master's Department, at Camp Floyd. One of these counter felts has been received in this city, and it establishes one fact, at least, that there are pretty good engravers at Salt Lake City, and among the Mormons. When compared with reference to differences in particular parts of the counterfelt and the genuine warrants, it is not probable that any one would be taken in, but if put upon the

readily from hand to hand, so well are they done. It would seem that this is not the first attempt at counterfeiting drafts on the U.S. Government, for as long ago as last May, the Quarter-Master's Department was sdvised of what was going on-that a copper-plate had been engraved and some checks were printed, and finally that on the 8th July one check was filled up and offered for circulation for \$507-65. Trwas copied from an original drawn by Maj Cro-sman, in January last. The moment this counterfeit check was issued it was taken to Maj. C., Issuing it was immediately accosted, and, on searching his premises, the copper-plate, with several printed blank hecks, together with materials for counterfeiting, were found. These checks were on the Assistant Treasurer at the Treasurer at New York, but some difficulty arose in regard to the exact tint of the rod ink to be used, and none were issued on that officer. The engraver and accountilize in the frant has also been accested in Salf Lake City, and a barre quantity of tools and materials solved by the United States Months, including bank note paper, bank notes drates, Ac., found in his place of business, in

It is said that there are several of the leading Mormons than the shave level from arrested, and it is doubtful whether they will ever be brought to justice, as an jury can be bound in that territory who will sentence the the offenders. Both the prisoners are Mormons of high standing, and it is stored that all the proof was to impress the benefit of the Church.

season's operations. One of the party is bound east for The Kansas City Journal of Commerce vouches for the above statement. The St. Joseph Gerette has been shown a letter from the Gaegory diggings, in which the writer says that he and his party were making \$50 a day. Two gentlemen from this county, now at the liggings, sold their claims for \$1,500 each, and were coming home. It is stated on good authority that the Commissioner of

the General Land Office, at Washington, has transmitted Patent No. 4 for 205,660,85 acres of swamp and overflowed lands in the Batesville district of Arkansas, to the Governor of that State. These lands cours to Arkansas under the Act of September 28th, 1850.

The General Land Office has also prepared a notification that a large portion of the public lands in the State of Alabama, heretofore withdrawn for railroad purposes, are now made subject to entry. Here, then, is a fine chance for the landless. The people of Memphis, Tenn. are determined upon a

railroad connection with St. Louis and are carnestly agitating the subject, by a proposed continuance of the Iron Mountain Railroad thither. Several meetings have already been held, to take some decisive step in the matter purchase CHINA, GLASS, and COMMON WARES of -Sonator Jones, of Tennessee, was one of the speakers.

A road connecting Memphis and St. Louis, would be of incalculable benefit to our city; an immense southern trade would find a market here which now goes in some

None named her but to love her.

Some named her but to love her.

But it is not for ourselves to mourn, for there was a large domestic and social circle called to sympathize together.

Notwithstanding the voice of our citizens against the wholesale desecration of the Sabbath, the Gity Council has passed an ordinance to this effect—that all places or amusement and where intoxicating liquors are sold, shall be closed after 9 o'clock, A. M., and remain closed until 3, P. M., after which they can be kept open! The Mayor has not yet signed the bill, but there is not a doubt of him doing so. Are we not a disgraced city in every sense of the word? What will men not do to keep themselves in office? Every office-seeker must knuckle down to the German element—he must give them hear at the summons.

In concluding this sincere and heartfait telbute to the summons. him doing so. Are we not a disgraced city in every sense of the word? What will men not do to keep themselves in office? Every office-seeker must knuckle down to the derman element—he must give them beer and "Sacred Concerts" on Sunday, or they will keep him out of office We know men rearing a family of boys, who know that the custom is a bad and ruinous one, yet for the sake of the "Almighty Dollar"—wrong from the city Treasury—

they vote for and sustain the debauchery and descoration Sabbath. Even after the voice of the people is sard, politicians stifle and baffle it for the sake of ffice. Is it not humiliating to see a man stoop so los nd oppose that which he knows to be right-for office. This is Black Republicanism in St. Louis—it is to be hoped

that the same principles and motives do not govern them

other cities as they do here. The PROPLE will yet have that respect paid the Sabbath in St. Louis as is the case in other cities and towns—if politicians oppose it, the PEOPLE will take it into their own hands—mark what we Friday last was the day fixed for the execution of Stephen W. Houser, for the murder of William D. Farris' in Gasconade county, in this State, but Gov. Stawart ha-again interfered with justice, and commuted his punish, ment to imprisonment for life in the State Penitantiary.

The murder was committed in 1853, and notwithstanding a large reward was off-red for the murderer, he was not apprehended for two years, when he was captured in Kansas and taken back to Gasconade county, but the prisoner thinking he could not get justice there, took a change of venue to this county, and the result is as above

The reporters for the newspaper press have been greatly disappointed in this case: they were for mouths getting up a biography of the past life of Houser, his spiritual con dition, the motives which led him to the commission of the crime, &c., &c. And after all was written, and ready for the printer, the Governor spells a lengthy and interesting local item: OLD GUARD.

THE "WATER CURE." BY THE BARD OF TOWER HALL.

The sun was peeping from the East
Through Morning's curtains rory,
But we were sleeping in our nest—
A chamber nice and cosy.
We started up, for at our door
We heard a gentle rapping—
'Twas not a spirit from the spheres,
But Doctor Oppelt tapping.
'Come down'' said he—What for? we asked—
If you'ze a resson show it! If you've a reason show it!

I have," he answered, "I've a sheet
That's waiting for a poet."

It waits the Bard of Tower Hall, "It waits the Bard of Tower Hall,
And he should not be loathing
A sheet on which I'll make him right
For once, without the Chormino."
We went, and sald, but make us right
Upon the sheet you've mentioned.
And naked truths we will indite
Of one so well intentioned.
A linen sheet, in water soaked,
The doort had been wringing.
Which on the bed he spread, and said,
"Pragary vourself for partiacing!" Which on the bed he spread, and said,
"Prepare yourself for springing!"
We leaped at once upon the sheet,
The doctor then entrapped us
With quilts and blankets, half a score,
In which he snugly wrapped us.
"There, now," said he, "lie still and calm"—
This was his first prescription—
We did, of course, for we were like
A mummyfied Egyptian.
We felt at first a little fear,
With symtoms of a shiver—

With symytoms of a shiver—
We thought, perhaps the dampen'd sheet
Might chill the heart and liver.
But no, we felt a geniel warmth,
And, with an hour's probation,
Our foolish fears were drowned and lost
In floods of perspiration.
We breathed an air with baimy sweets
It gathered on the mountain.
And quaffed, in "pack," a goblet full
Of water from the fountain:
And then the clothes were taken off—
We waited not a minute;
A mammoth bathing tub was there
With cold spring water in it, We wascon the string tub was there With cold spring water in it, In which we plunged, and there we bathed—Our head and heels both under—You say, of course, we caught a cold, If not it is a wonder.

If not it is a wonder.

We did'nt though, but far from that, The water, health bestowing, Gave strength and action to the skin, And we were warmly glowing. We dressed, and sought the monntain top. The walk our heart delighting—The atomach in the pleasure shared With feelings appetiting.

At four o'clock we took the "douche," A stream of water falling Full twenty feet; a pleasant bath, Although in thought appalling. In thirty days eight pounds of fleeh, And strength in fair proportiou, We've gained, and now will water praise From dew drops to the ocean, Because the strength, by water given. Has made ubstrong for writing, While we are those in want of clothes. To Tower Hall inviting. While we are those in want of cloth To Tower HALL inviting, Where they on ev'ry dollar may In buying, save a quarter, And cheaply dress, the Bard to bless Made strong in truth by WATER.

Ayer's Sarsaparilla

A compound remedy, in which we have la-bored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases to afford an effective antidote for the diseases
Sarsaparilla is reputed to cure. It is believed
that such a remedy is wanted by those who
suffer from Strumous complaints, and that one
which will accomplish their cure must prove
of immense service to this large class of our
afflicted fellow-citizens. How completely this
compound will do it has been proven by experiment on many of the worst cases to be found
of the following complaints:

of the following complaints:—
Schopula and Schofulous Complaints,
Eruptions and Eruptive Diseases, Ulcers,
Pimples, Blotches, Tumors, Salt Rheum, SCALD HEAD, SYPHILIS AND SYPHILITIO AP-FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOURRUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR St. Anthony's Fire, and indeed the whole class of complaints arising from Inpurity or The Blood.

This compound will be found a great pro-

moter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder you when. Even where no particular disorders is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the direction of the rests. by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on PREPARED BY
