NEW IRON AND BRASS FOUNDRY.

The subscribers having lessed the Foundry recently eracted by Mr. William Dillers, adjoining his Machine Shop, in North Water street, between Orange and Chesnut streets; also having bought out the Straeburg Foundry, and parts of the fixtures of other establishments of the same kind, and having the most complete collection of Patterus in the City, are prepared to furnish Iron and Brass (either light, or as heavy as can be made elsewhere,) at the shortest notice, and warranted to be done in the most workmanlike manner.

Both being practical workmen—one a Moulder and the other a Pattern Maker—they flatter themselves that, by doing their own work, and baving purchased their fixtures at very low prices, in consequence of which their expenses will be less than any other establishment of the kind here, they can make Castings and finish them at more reasonable prices than has heretofore raied in this City.

PATENT AMBROTYPES.--The sub-scribers having purchased the exclusive right of Lan-caster city, are enabled to offer to the public a new style of Pictures, far exceeding, in beauty and durability, any ever Produces, far exceeding, in beauty and durability, any ever before made. These pictures are not reversed, as dazuerreotypes areand may be seen in anylight. They also possess the rare property of being imperimental, being hermetically sealed between glass plates, which is secured by Letters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINOS, only, over Sprecher & Bro.'s New Store, North Queen st. Lancaster.

EXPLANATION.

(The term AMBROTYPE by which these Pictures are designated; is derived from the Greek word Ambrolos, signifying indestructibility, permanency. &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by which the picture will retain its original brillancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the black varnish in immediate contact with the Picture.—Such are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as lite. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewbere, as they are insured of polite attention.

chassel. The practical results attending the use of this Guano have been most remarkable, and from its permanent action on the soil, it takes precedence over all others. Farmers using it can depend upon full and regular supplies; it is unlike some other Guanos which the consumer has just begun to appreciate, when he is, informed that the "deposit" is exhausted, or the price raised above his ability or inclination to purchase. Upon this he may fully rely, as to the fullness of the supply. The quantity on "Jarvis Island," alone, is believed to be over Three Millions of Toms.

can be bound in the various styles required by the subscribers.

From the Hon. Theophilus Furzons, L.L. D., Law Professor in Harpard University.

"Have you room for a word about Ripley and Dana's new Cyclopsedia? I have frequent occasion to use one; and I am so delighted with the two volumes we have that I must ask you to allow me the relief of saying very simply, what I find them—that is, the very best Cyclopsedia for practical use ever published. I have some knowledge of all in our own language and a few of those of the continent of Rurope. The best and largest of these surpass this of Appleton's in the extent to which they carry out special dissertations. But this Cyclopsedia is full of the best matter. By skillful selection and compression, and sedulous avoidance of mere show and werblage, room is found for an immense amount of the latest information, put forth clearly, carrfully and accurately. The book embodies, and adequately represents, the ability and knowledge available at this day for a work of the kind.

"Its merit and extreme cheapness must place it eventually in every Library. And if a good word from one who has found out its excellence by making use of it, can hasten or extend its diffusion, my purpose in writing this brief notice will be accomplished."

Two to three bottles are warranted of curs the most desperate case of rheumatism.

Three to four bottles are warranted to cure the sait rheum.

Five to eight bottles will cure the worst case of scrofula. A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken. A boneht is always experienced from the first bottle, and a perfect cure is warranted when the above quantity itaken.

Reader, I peddied over a thousand bottles of this in the vicinity of Boston. I know the effect of it in overy case.—
So sure as water will extinguish fire, as sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this horb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I peddied it and sold about six bottles per day—in April, 1864, I sold over one thousand bottles per day—in April, 1864, I sold over one thousand bottles per day of it.

Some of this wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was over like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that inever suspected.

Several cases of oplieptic fits—a disease which was always

awith unitaly—tiers are of bropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Agne, pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet/ever necessary—eat the best you get and a nough of it.
DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years dessert spoonful. Children from five to eight years tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day. Manufactured by

FRERREE ERRESHY FOR DOMESTIC USE.

Freely day's observation proves incontestibly the rapid growth of Homcopathy in public favor. The blessings that have flown from the brilliant discoveries of Halmemann, are now confined to no geographical limits, for within the boundaries of all civilized nations we find multitudes of votaries to the Homcopathic faith. How could it be otherwise? The record of her splendid achievements in every known form of disease, stands without a parallel in any other system of medicine over devised. That the advantages of this plan of treatment may become still more popularized, we have prepared a Catalogue of Homcor ore popularized, we have prepared a Catalogue of Homoco-thlic remedies, ombracing thirty distinct softs, adapted to to following named complaints, viz: Dyapepsia.
