THREE PER CENT A MONTH OR THE PERILS OF FAST LIVING:

A WARNING TO FOUNG MEN.

Author of "Second Marriage," Elli of Family," Marion Desmond," "Never too Late," stc. etc., One volume, 12mo., cloth Price \$1.00.

(From the Gazette)

(From the Gazette)

(From the Gazette)

This book deserves to be singled out and noted as above the many novels which are published. Both in structure and style it is entitled to the name of art. It is a Tale of Domestic Life, rehearing the intervoven histories of a round of every day characters, and its aim is to show the follies of the too many, so called, passions and pleasures of fashionable life, touching in no part upon ground that properly belongs to the vast domain of romance.

The Bachelor Millionaire Uncle George, is a character reminding us of the Strothers Cheeryble, and although he teaches the "sweet uses of Adverdiy" with severe discipline, it brings out the true beauty of character, and shows how few there are who can go through the trials of everyday life, and in the end prove their constancy.

Opins of either of the above books with a handsome diff worth from 50 central vision, will be sent to any person in the United States upon receipt of \$1.00, and 21 cents to pay postage, by addressing the Publisher.

A new and Classified Catalogue of Books in every department of Literature, to gether with a list of Gifts, and every information relative to the establishment of agencies in the Gift Book business will be mailed free to any one by Publisher, and Originator of the Gift Book Business. No. 439 Chestnut Street, Philadeliphia.

The enterprising publisher GEORGEG, EVANS, Nova 489 Chestnut st., Philadelphia, has just added to his extensive list, the following new Books:

THE LIFE OF COL. DAVID CROCKETT.

WRITTEN BY HIMSELF.

Comprising his early life, Honting Adventures, Daring Deeds in Border and Indian Warefare, Services under tieneral Jackson in the Creek war. Electionering Speeches, Career in Congress Triumphal Tour in the North-rus States, and Struggles in the Texan War of Independence, together with an Account of his Giorions Death at the Alamo.

In one 12mo, volume. Handsomely bound. Price \$1.00. We copy the following from the Philadelphia North American:

We copy the following from the Piniadelpini North American:
Colonel Crockett was a character. His nutobiography has been long out of print; his reputation for ecceutricity has been presumed upon in the publication of all sorts of outrageous and obscene nonsense, in course almanacs, and other vehicles for low humor. This volume is a republication of the genuine work, with necessary additions, and will be new to the present generation of readers. It is as marked and character sitic as the subject was; his portrait faithfully drawn, and none the less so that it is without effort, and perfectly native and sincere. We well remember the amiable original in his northern torr, and recall many of the incidents to which his look alludes. We never have looked upon his like wince; and rejoice in this republication as an act of justice, to retrieve an honest man from vulgar misrepresentation. republication as an act of justice, to retrieve an nonest man from vulgar misrepresentation.

A copy of the Book, and a handsome present will be sent by mail, post-paid, upon receipt of \$1,00 for the book, and 21 cents for postage.

A new Classified Ostalogue of Books and Gifts, with inducements to Agents, will be sent free, on application.

BY THE BARD OF TOWER HALL

There's a rock up in the "Keystone," One to which we have been led— Called the Hexenkorf in German. And in English, Witches' Head— Which my re-ders may have heard of, But of which they never read.

Tis a rock upon a mountain, Rough and ragged to the eye, And it points its stony fingers
To the vaulted, azure sky,
As if asking, "Are there any
Who the power of God deny?"

Standing on its cuzzed summit.
E'en an infide! must own.
If he let the spark immortal
Give his mind the proper tone.
That the boundless, fair Creation
Is the work of God alone. as the work of thou alone.
One the tops of distant incontains
Hunz the clouds, I ke firev snow
The wing shadows on the forest,
While the valles far below
Secton I like gardens, such as Eden
Ere it felt the blight of wos.

We could see the flowing Lehigh, And the levely Delaware and the lovely Delaware—
Pleasant homesteads on their borders,
With their 5-1ds so green and fair.
And the orchards, no doubt laden
With the luscious fruits they bear.

Also water gaps and wind gaps
We could see on mounts afar,
Looming up to bloss the vision
Like the Tower tiall Bazzar,
Which, in all our trips and journeys,
Is our bright and guiding star. Is our bright and guiding seal.

You may ask why we, the writer.

Who will sing of costs and breeches

Made at Tower Hall, and ever

Strong in fabric and in stitches.

Should the heads of readers trouble

With the views from heads of witches

We will tell you why we do it—
If to know you're really itching—
'Tis because we know that Bennett
Has his workmen ever stitching A full and elegant assortment of Fall and Winter Clothinz, suited to every market, now on hand, to which the attention of Wholesale buyers is invited. We would particularly call attention to the style and make of our garments—at Tweer Hall Clothing Bazaar, No. 518 Market street Dhil delphia.

COATE-VILLE, CHENTER COUNTY PA

JAMES E GIFFLIS, AN Tructure and Progration.

This Sominary is located in Coatestics, on the Postra

Railroad, about thirty-seven miles from Philadelphia, and
sixty-two from Harrisburg. It is easy of access from any
part of the Union, and is in the midst of a moral and refined population. There could not be a more healthy and
romantle situation. It possesses the advantages of having
a daily mil, a telegraph office and an Adam's Express

office The next servin will open the first day of Novem
ber The School is sound and practical in every department. The course of study embraces everything that is
taught in the best Colleges of our country. The School is
organized on the most approved plan of the best institutions in the New England States. Ladles and Gentlemen
are entirely separate, except in recitations: in truth, they
have less intercourse than at home. The Teachers or cupy
apartments in the buildings, and there is no association of
the sexes but in the presence of their instructors. The
happy influence, mutually exerted, in their slight association in the recitation room, at the table and in the public
exercises, is to be seen in the cultivation of a cheerful
and animated disposition, in the formation of good habits
and manners, in relat devotion to study, and in the attimment of hich moral character The-e with many
other valuable results, have established the fact, that the
best plan for a school is, according to the evident design
of Providence in the constitution of society, on the basis of
a well regulated christian family.

"Ladics, equally with the gentlemen, are benefited by
this arrangement. The numerous and crowded schools of
this kind spreading over the country, fully attest the correctness of this plan."

Denamental Branches: While it is well and proper that Young Ladies and Geotlemen should be taught Musir, Drawing, Painting, &c., it is at the same time highly culpable, to neglect for these Branches, the practical and useful studies, which determine the intellectual status of an individual. Thousands of Young Ladies learn a little French, a little Music, &c., being ignorant of the plainest principles of Grammar and Mathematics. An Education is an injury rather than a benefit, if the mind be not trained in the right way. Acquire first, if possible, the solid Branches, and then the mind will be prepared for the Fine Arts.

Music—Vocal and Instrumental—Piano, Violio, &c.

In the department of Languages, the classes are practised in oral and written serciese; and particular attention is given to the pronunciation of the Language the student may be acquiring.

Ladies can substitute Music for some other branches, if they desire it.

The classes in Mensuration, Surveying, and Leveling, are practised in the use of the Quadrant, in Plotting, and in other instruments.

Particular attention will be given to the analyzing of Milton's Paradise Lost, which is used as a Book of Parsing exercises.

COATESVILE, July 29th, 1859.

Ma. GIPFIN—Dear Sir: It is now near the close of your second term of school in this place, and I feel very greatly gratified in seeing your prospects of making Coatesville Seminary second to none in the country. After becoming fully acquainted with your mild, but firm discipline, and close attention to your pupils relations, as manifested in the improvement of my son, I feel myreif under obligations to recommend all my acquaintances and friends to send their sons and daughters to your school.

WM. H. THOMPSON.

I cheerfully commend to the public, and especially to my friends, the Seminary of James E. Giffin, lorated at this place, as being especially worthy of patronace. Scrofula, or King's Evil. is a constitutional disease, a corruption of the is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children. stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many lestructive diseases of the liver, kidneys, brain and, indeed, of all the organs, arise from or

are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. I'o cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is con-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erystpelas, Pimples, Pustules, BLOTCHES, BLAINS and Bonls, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Dis-RHEUMATISM, SYPHILITIC and MERCURIAL DIS-LASES, DROFSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood." is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions. contaminated constitutions.

Ayer's Cathartic Pills. FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Hearthurn, Headache arising from disordered Stomach, Vansea, Indigestion, Pain in and Morbid Inaction of the Borrels, Fiatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. So wide is the field of its usefulness and so nu-So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
