"Have you room for a word about Ripley and Dana's new Cyclopedia! I have requent occasion to use one; and I am so delighted with the two volumes we have that I must ask you to allow me the relief of saying vary sim ply, what I find them—that is, the very best Cyclopedia for practical use ever published. I have smee knowledge of all in our own language and a few of those of the coult neut of Europa. The best and largest of these surpars this of Appleton's in the extent to which they carry out special dissertations. But this Cyclopedia is full of the best mat ter. By skillful selection and compression, and sedulous avoidance of mere show and verblage, room is found for an immense amount of the latest information, put forth clear 1y, carefully and accurately. The book embodies, and adou quately represents, the ability and knowledge available at this day for a work of the kind. "Its merit and exceedingeness must place it eventu-sity in every Library. And if a good word from one who has found out its excellence by making use of it, can has-ten or extend its diffusion, my purpose in writing this brief notice will be accomplished." DENTIFY THE STRRY. The undersigned having again resumed the practice of Denlistry, at his old stand, north east corner of North Queen and Orange streets, (Kramph's Buildings), would respectfully say to his former patrons and friends, and to the public generally, that he embraced the opportunity, while in Baltimore, of attending a full course of lectures in, and receiving a diploma from, the Baltimore College of Dental Surgery. Having gradmated at a period in the history of the pro-fession when all its most approved principles could be thoroughly discussed and fully compared and studied, I feel better qualified than ever before to treat all cases of dental or surgical discases, strictly upon scientific princi-ple. As a metriculent of the University of Maryland, I received the benefit of the Surgical lectures of Prof. N. R. Smith, as well as those of Prof. T. E. Bond, of the Dental College, and having for years adopted Surgery as a favorite study, I de-sign taking its general principles into my practice, and will treat all the surgical diseases, of the mouth and face successfully by that eminent and scientific surgeon. Cleft palates, hare lips, prefermatural and morbid growths in the mouth and about the face will receive especial and careful attention.
