The subscribers having leased the Foundry recently
erected by Mr. WILLIAM DILLER, adjoining his Machine
Shop, in North Water street, between Orange and Chesnut
streets; also having bought out the Strasburg Youndry
and parts of the fixtures of other establishments of the
same kind, and having the most complete collection of
Patterns in the City, are prepared to furnish Iron and Brass
CASTINGS OF EVERY DESCRIPTION,
(either light, or as heavy as can be made elsewhere,) at the
shortest notice, and warranted to be done in the most
workmanilie manner. DUILDING SLATE.—The subscriber bas instreadyed a large but of the subscriber DUIL DING SLATE.—The subscriber

has just received a large lot of PEACH BOTTOM and
YORK COULTY BUILDING SLATE, which he will put
on by the square or sell by the ton, on the most reasonable
terms. He has also containtly on hand an extra light
Peach Bottom Building Slate, intended for slating on top
of shingles. Please call and examine my PEACH BOTTOM

and Birty First Class Premiums in 1888, at the various State and County Fairs, where it was in competition with other Drills. Among which are Indiana, Ohio, Pennsylvania, New Jersey, Maryland, and Virginia State Fair; also the montest pairs (a Silver Medal,) at the United States Fair, held at Richmond, Virginia, and many County Fairs. The following are some of its advantages:

First. The teeth are so constructed with Rubber Springs, that when they come in contact with roots, rocks, stumps or any other obstructions, not over eighteen inches high, they spring back, pass over, and immediately regain their former position, without stoppage or injury to the Drill, avoiding the necessity of stopping to put in Wooden Pins, as is the case in other Drills. Newly cleared land can be seeded with this Drill as well as an old field. So perfect is the spring, that the Drill can be drawn across a railroad track without damage to the Machine. The spring can be set to drill the hardest kind of ground without yielding, but will suddenly yield where it meets a firm obstruction.

Second. The arrangement of distributing the seed is HO HAS NOT SEEN THE NEW

Second. The arrangement of distributing the seed is composed of two Vulcanized Fubber Rollers, revolving together, which discharge the seed not intermittingly or in bunches, but in a constant stream, without Grocking on Breaking the grain. No irregularity of ground or fast or slow motion of the team will vary the quantity sown to the acre. The quantity sown to the acre is regulated by a slide, to any desired amount in a moment's time, even while the Drill is in motion. It cannot be choked by straws, or white caps being in the Wheat, as the rollers will carry it through.

Third. When the teeth are raised by the lever, the seed (and land measure) is instantly stopped, so that the Drill can be drawn from field to field without leaking or vosating the grain. When the teeth are let down the seed start immediately, if the drill is in motion. It sows Wheat, Rye, Oats and Barley, with the same hopper and requires no change; also all kinds of Grass seeds.

ber The School is assumd and precteal in every depart

ment. The course of study embraces everything that is

taught in the best Colleges of our country. The School is

commized on the most approved plan of the hest institu
tions in the New England tates. Lathes and then there

are entirely separate, except in recitations; in truth they

have less intercourse than at home. The Teachers occupy

spartments in the buildings, and there is no a sociation of

the seves but in the presence of their instructors. The

happy influence, multually exerted, in their slight associa
tion in the recitation room, at the table and in the public

sercises, is to be seen in the cultivation of a cheerful

and animated disposition, in the formation of good habits

and manners, in ardent devotion to study, and in the at

trimment of high moral character. These, with many

other valuable results, have established the fact, that the

best plan for a school is, according to the evident design

of a well regulated christian family.

TESTIMONIALS.

TESTIMONIALS.

Having been acquainted with James E. Giffin, Eaq., since he has become proprietor of the Coatesville Seminary, I take pleasure in saying that I consider him very competents at teacher, and very courteous as a gentleman, and most cheerfully recommend him, and the Institution over which he presides, as most benefiting to all persons having children for whom a thorough education is desired. My daughter is at present a student in the institution.

II. G. THOMAS.

MR. GIPFIN—Dear Str.: It is now mear the close of your second term of school in this place, and I feel very greatly gratified in seeing your prospects of making Coatesville Seminary second to none in the country. After becoming fully acquainted with your mild, but firm discipline, and close attention to your pupils recitations, as manifested in the improvement of my son. I feel my-elf under obligations to recommend all my acquaintances and friends to send their sons and daughters to your school.

COATESVILLE, July 29th, 1859.

I chcerfully commend to the public, and especially to my friends, the Seminary of James E. Giffin, located at this place, as being aspecially worthy of patronage. My son having been a pupil for the last term of this Institution, I can speak with confidence of the fidelity of the Principal as a teacher—his suavity of manner, yet firmness as a governer, and his entire gentlemanly deportment in all his relations.

COATESVILLE, July 29th, 1859.

MR. JAMES GIFFIN—SIR: We most cordially recommend to public favor your most excellent School. One of the firm having had a son in your Institution, and the other a sister-in-law, we can speak with confidence in regard to the merits, and thorough instruction given to Coatesville Seminary.

COATESVILLE, July 29th, 1859.

From my personal knowledge of Mr. Giffin, Principal of Coatesville Seminary, and his method of instruction, it gives me pleasure to be able to recommend to parents and guardians this institution as a place where their sons and daughters

FATUITY, AND EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—INSAN-ITY AND CONSUMPTION? The records of the INSANE ASTLUMS, and the melancholy deaths by CONSUMPTION, bear ample witness to the truth of those assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief over visits it. Should a sound of the voice occur it is rarely articulate.

"With would measures wan despair Low sullen sounds his grief beguiled."

Debility is most terrible and has brought thousands upon thousands to untimely graves, thus blasting the ambition of many noble youths. It can be cured by the use of this INFALLIBLE REMEDY.

If you are suffering with any of the above distressing ailments, the FLUID ENTRACT BUCHU will cure you—Try it and be convinced of its efficacy.

HOMEOPATHIC REMEDIES

FRETARED EXPRESSLY FOR DOMESTIC USE.

Every day's observation proves incontestibly the rapid growth of Homocopathy in public favor. The blessings that have flown from the brilliant discoveries of Hahnemann, are now confined to no geographical limits, for within the boundaries of all civilized nations we find mnlitudes of votaries to the Homocopathic faith. How could it be otherwise? The record of her splendid achievements in every known form of disease, stands without a parallel in any other system of medicine ever devised. That the advantages of this plan of treatment may become still more popularized, we have prepared a Catalogue of Homeopathic remedies, embracing thirty distinct setts, adapted to the following named complaints, viz:
