WILLOUGHBY'S PATENT,

GREAT IMPROVEMENT IN GRAIN DRILLS.

GUM SPRING GRAIN DRILL.

A great saving in Seed. as loss is required with this

Drill, than any other now in use. This Drill has been in A great saving in Sect. as less is required with the Drill, than any other now in use. This Drill has been in use for three years, and wherever introduced, has won a reputation equaled by none. It has taken between Thirty and Forty First Class Premiums in 1858, at the various State and County Fairs, where it was in competition with other Drills. Among which are Indians, Ohio. Pennsylvania, New Jersey, Maryland, and Virginia State Fairs; also the HIGHEST FRIZE (a Silver Medal.) at the United States Fair, held at Richmond, Virginia, and many County Fairs. The following are some of its advantages:
First. The feeth are so constructed with Rubber Springs, that when they come in contact with roots, rocks, stunps or any other obstructions, not over eighteen inches high, they spring back, pass over, and immediately regain their former position, without stoppage or injury to the Drill, avoiding the necessity of stopping to put in Hooden Pins, as is the case in other Drills. Newly cleared land can be seeded with this Drill as well as an old field. So perfect is the spring, that the Drill can be drawn across railroad track without damage to the Machine. The spring can be set to drill the hardest kind of ground without yielding, but will suddenly yield where it meets a firm obstruction. The arrangement of distributing the seed is severed of two Vigenizad.

be set to drill the hardest kind of ground without yielding, but will suddenly yield where it meets a firm obstruction.

Second. The arrangement of distributing the seed is composed of two Vulcanized "ubber Rollers, revolving together, which discharge the seed not intermittingly or in bunches, but in a constant stream, without Chockino on Breaking the grain. No irregularity of ground or fast or slow motion of the team will vary the quantity sown to the acre. The quantity sown to the acre is regulated by a slide, to any desired amount in a moment's time, even while the Drill is in motion. It cannot be choked by straws, or white caps being in the Wheat, as the rollers will carry it through.

Third. When the teeth are raised by the lever, the seed (and land measure) is instantly stopped, so that the Drill can be drawn from field to field without leaking or wasting the grain. When the teeth are let down the seed start immediately, if the drill is in motion. It sows Wheat, Rye, Oats and Barley, with the same hopper and requires no change; also all kinds of Grass seeds.

\*\*For This Machine is manufactured in a superior and workmanike manner, as nothing but the VERY BEST MATERIAL is used in their construction, and all Machines are warranted to work well, and durable with proper care.

The undersigned have exclusive right of inanufacturing and selling the above Machine in the following Territory: Lancaster. Chester, Delaware, Philadelphia, Bucks, Montgomery, Berks, Lehigb and Northampton counties, in Pennsylvania, and all of the State of New Jersey.

A So justly celebrated for its accuracy as a time-keeper, and its adaptability to every kind of use, is offered for sale in variety, by

H. L. & E. J. ZAHM,

Corner of North Queen street and Centre Square.

There are three qualities of the American Watch, manufactured by the American Watch Co., at Waltham, Mass; the first quality is marked on the works "Appleton, Tracy & Co., Waltham, Mass;" and the third quality "P. S. Bartlett, Waltham, Mass;" and the third quality "P. S. Bartlett, Waltham, Mass." All of these qualities are manufactured by one company, and are guaranteed by them to be made of good materials, and to possess every requisite for a good time-plece. The movement is quick train, which prevents it from being affected by railroad or other travel, and should any part be broken, it can be replaced with a part from the factory, equally as well finished as the original.

Appleton, Tracy & Co., the manufacturers of the American Watch, have no Special Agents in any city of the Union, but sell to all dealers at precisely the same rates. We can furnish these watches in Silver or Gold cases, of any style required, at as Low a rate as the genuire watch can be sold anywhere in the United States.

We have also on hand and for sale low, a large stock of English and Swiss Levers, from the most approved manufactories, among these the "Equilibrium Lever," an accurate and reliable watch.

The undersigned having again resumed the practice of Dentistry, at his old stand, north east corner of North Queen and Orange streets, (Kramph's Buildings,) would respectfully say to his former patrons and friends, and to the public generally, that he embraced the opportunity, while in Baltimore, of attending a full course of lectures in, and receiving a diploma from, the Baltimore College of Dental Surgery.

Having gradnated at a period in the history of the profession when all its most approved principles could be thoroughly discussed and fully compared and studied, I feel better qualified than ever before to treat all cases of dental or surgical diseases, strictly upon scientific principles.

dental or surgical diseases, strictly upon scientific principles.

As a metriculent of the University of Maryland, I received the benefit of the Surgical lectures of Prof. N. R. Smith, as well as those of Prof. T. E. Bond, of the Dental College, and having for years adopted Surgery as a favorite study, I design taking its general principles into my practice, and will treat all the surgical diseases, of the mouth and face especially, upon the principles laid down and practised so successfully by that eminent and scientific surgeon.

Cleft palates, hare lips, preternatural and morbid growths in the mouth and about the face will receive especial and careful attention.

Artificial Teeth mounted upon four different and spcareful attention.

Artificial Teeth mounted upon four different and approved principles, viz: Gold plate, silver plate, hard rubber process, and the much talked of Cheoplastic process improved. Operations upon the natural teeth will be performed with a view to their preservation and beauty, and according to the highest principles of hygiene and artistic skill.

TESTIMONIALS. TESTIMONIALS.

Contestill, July 29,h, 1859.

Having been acquainted with James E. Giffle, Esq., since he has become proprietor of the Coatesville Seminary, I take pleasure in saying that I consider him very competent as a teacher, and very courteous as a gentleman, and most cheerfully recommend him, and the Institution over which he presides, as most benefiting to all persons having children for whom a thorough education is desired. My daughter is at present a student in the institution.

MR. GIFFIN—Dear Sr: It is now near the close of your second term of school in this place, and I feel very greatly gratified in seeing your prospects of making Coatesville Seminary second to none in the country. After becoming fully acquainted with your mild, but firm discipline, and close attention to your pupils recitatione, as manifested in the improvement of my son, I feel myself under obligations to recommend all my acquaintances and friends to send their sons and daughters to your school.

WM. H. TIOMPSON.

I cheerfully commend to the public, and especially to my friends, the Seminary of James E. Giffin, located at this place, as being especially worthy of patronage. My son having been a pupil for the last term of the Institution, I can speak with confidence of the fidelity of the Principal as a teacher—his suarity of manner, yet frumes as a governer, and his entire gentlemanly deportment in all his relations.

Coatesville, July 20th, 1859.

Mr. James Giffin—Sir. We most cordially recommend to public favor your most excellent School. One of the firm having had a son in your Institution, and the other a sister-in-law, we can speak with confidence in regard to the merits, and thorough instruction given in Coatesville Seminary.

THOMAS S. YOUNG & CO.

From my personal knowledge of Mr. Giffin, Principal of Coatesville Seminary, and his method of instruction, it gives me pleasure to be able to recommend to parents and guardians this institution as a place where their sons and daughters or wards will receive every attention which their comfort and through education may require.

A. G. MORKISON.

It gives me pleasure to add my testimony to the fact that we have in our midst a well-conducted and thorough Institution, under the control and supervision of James E. Giffin, Principal. Having had a son under his care for nearly two sessions, I can speak advisedly; and would recommend this flourishing Seminary to the consideration and inquiry of parents and guardians.

Putented by J. C. Henderson, November 5, 1838-for heating Purlore, Halls, Giffices, Churches, Seminaries, School Rooms. de.

The highest premiums have been awarded to this stove where it has been brought into competition with other stowes, as decidedly the best heating store which has ever been made, for burning either Bituminous or Anthracite Coal.

The cone, from its peculiar form, acts as a reflector, and intensifies the heat, by which all the smoke and gas are consumed.

It radiates more heat for every pound of coal used than any other stove ever made.

It is equally well adapted for burning hard or soft coal. It will burn the poorest kind of coal. It will burn the poorest kind of coal. It combines all the advantages ever introduced in a heating stove, and is in all respects a most perfect generator and radiator of heat and economizer of coal. THE ALBANIAN is philesophical in principle, Elegant in design.

THE GREATEST OF THE AGE

THE GREATEST MEDICAL DISCOV-ERY OF THE ACK.—Dr. KENNED, of Roxbury, has discovered, in one of our common pasture weeds, a remedy discovered, in one of our common pasture weeds, a remedy that cures

EVERY KIND OF HUMOR,

from the worst Scrofula down to a common pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Five to eight flottles will cure the worst case of acrofula' A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddied over a thousand bottles of this in the visition of Boston. I know the effect of it in every case.—
So sure as water will extinguish fire, so sure will this ouro humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for lesslit There are two things about this herb that appear surprising; first, that it grows it our pactures, in some places quite plentiful, and yet its volunt, never bean known until I discovered it in 1846 second, that it should cure all knows of humor. It order to give some idua of the suddenties, and great popularity of the discovery, I will state the in April, 1853, I ped flot it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in the humors twenty and thirty years, say that a thing in the humors twenty and thirty years, say that a thing in the anniversal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general facility in elicine, real and wondering virtues have been just our that I mever one.

These symptoms, if allowed to go on—which this medi-inc invariably removes—soon follows LOSS OF POWER, Ingos symptomic circle invariably removes—soon follows LOSS OF POWER, FATUITY, AND EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful discases—INSAN patient may expire. Who can say that these excesses are not frequently followed by those direful discosses—INSAN-ITY AND CONSUMPTION? The records of the INSANE ASYLUMS, and the melancholy deaths by CONSUMPTION, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief over visits it. Should a sound of the voice occur it is rarely articulate.

EVERY day's observation proves incontentibly the rapid growth of Homeopathy in public favor. The blessings that have flown from the brilliant disroveries of Halmenann, are now confined to no geographical limits, forwithin the boundaries of all civilized nations we find militudes of votaries to the Homeopathic faith. How could it be otherwise? The record of her splendid achiev-ments in very known form of disease, stands without a parallel in any other system of medicine ever devised.
