NEW IRON AND BRASS FOUNDRY,
NORTH WATER STREET, LANCASTER, PA.

The subscribers having leased the Foundry recently erected by Mr. William Dillers, adjoining his Machine Bhop, in North Water street, between Orangs and Chesnut streets; also having bought out the Strasburg Foundry and parts of the fixtures of other establishments of the same kind, and having the most complex collection of Patterns in the City, are prepared to furnish Iron and Brass CASTINGS OF EVERY DESCRIPTION, (either light, or as heavy as can be made elsewhere,) at the hortest notice, and warranted to be done in the most workmanlike manner.

Both being practical workmen—one a Moulder and the other: a Pattern Maker—they fiatter themselves that, by doing their own work, and having purchased their fixtures at very low prices, in consequence of which their expenses will be iess than any other establishment of the kind here, they can make Castings and finish them at more reasonable prices than has heretofore ruled in this City.

HOWARD ASSOCIATION,

A Benevolent Institution established by special Endowment, for the relief of the Sick and Distressed, afflicted with Virulent and Epidemic Discases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life caused by Sexual diseases, and the deceptions practiced upon the unfortunate victims of such diseases by Quarks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their names, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in case of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, express the highest satisfaction with the success which has attended the labors of their Surgeons in the cure of Spermaterrikea, Seminal Weakness, Gonorrheen, Gleet, Syphilis, the vice of Onnahus or Self Abuse, Diseases of the Kidneys and Bladder, &c. and order a continuance of the same plan for the cusuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of behaviour efforts have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with re-newes zeal, to this very important and much despised cause. An admirable Report on Spermatorrhoes, or Semina Weakness, the vice of Onaniam, Masturbation, or Self Abusa, and other diseases of the Sexual organs, by the Con-sulting Surgeon, will be sent by mail (in a scaled envelope FREE OF CHARGE, on receipt of TWO STAMPS for post are, Other Reports and Tracts on the nature and treat PREE OF CHARGE, on receipt of TWO STAMPS for postago. Other Reports and Tracts on the nature and treatment of Sexual discusses, dict. &c., are constantly being
published for gratuitous distribution, and will be sent to
the afflicted. Some of the new remedies and methods of
treatment discovered during the last year, are of great
value.

WILLOUGHBY'S PATENT,

GREAT IMPROVEMENT IN GRAIN DRILLS.

GUM SPRING GRAIN DRILL.

A great saving in Seed, as less is required with this

A great saving in Seed, as less is required with this Drill, than any other now in use. This Drill has been in use for three years, and wherever introduced, has won a reputation equaled by none. It has taken between Thirty and Frity First Class Premiums in 1858, at the various State and County Fairs, where it was in competition with other Drills. Among which are Indiana, Ohio, Pennsylvania, New Jersey. Maryland, and Virginia State Fairs; also the Hongars Pauze (a Silver Medal.) at the United States Fair, held at Richmond, Virginia, and many County Fairs. The following are some of its advantages:

First. The teeth are so constructed with Rubber Springs, that when they come in contact with roots, rocks, stumps or any other obstructions, not over eighteen inches high, they spring back, pass over, and immediately regain their former position, without stoppage or injury to the Drill, avoiding the necessity of stopping to put in Wooden Pins, as is the case in other Drills. Newly cleared land can be seeded with this Drill as well as an old field. So perfect is the spring, that the Drill can be drawn across a railroad track without damage to the Machine. The spring can be act to drill the hardest kind of ground without yielding, but will suddenly yield where it meets a firm obstruction.

Second. The arrangement of distributing the seed is composed of two Vulcanized Pubber Rollers, revolving together, which discharge the seed not intermittingly or in bunches, but in a constant stream, without Chocknow on Breaktso the grain. When the kare is regulated by a slide, to any desired amount in a moment's time, even while the Drill is in motion. It cannot be choked by straws or white caps being in the Wheat, as the rollers will carry it through.

Third. When the teeth are raised by the lever, the seed (and land measure) is instantly stopped, so that the Drill can be drawn from field to field without leading or voxiting the grain. When the testh are let down the seed start immediately, if the drill is in motion. It sows wheat, R

THE AMERICAN WATCH,
So justly celebrated for its accuracy as a time-keeper, and its adaptability to every kind of use, is offered for sale in variety, by

H. L. & E. J. ZAHM,
Corner of North Queen street and Centre Square.

There are three qualities of the American Watch, manufactured by the American Watch Co., at Waltham, Mass; the first quality is marked on the works 'Appledon, Tracy & Oo, Waltham, Mass;' and the third quality "Chas. T. Parker, Waltham, Mass;' and the third quality "Chas. T. Parker, Waltham, Mass;' and the third quality "D. S. Bartlett, Waltham, Mass;' and of these qualities are manufactured by one company, and are gnaranteed by them to be made of good materials, and to pussess every requsite for a good time-piece. The movement is quick train, which prevents it from being affected by railroad or other travel, and should any part be broken, it can be replaced with a part from the factory, equally as well finished as the original.

Appleton, Tracy & Co, the manufacturers of the American Watch, have no Special Agrats in any city of the Union, but sell to all dealers at precisely the same rates. We can furnish these watches in Silver or Gold cases, of any style required, at as low a rate as the genuine watch can be sold anywhere in the United States.

We have also on hand and for sale low, a large stock of English and Swiss Levers, from the most approved manufactories, among these the "Equilibrium Lever," an accurate and reliable watch.

ATIONAL POLICE GAZETTE...This
Great Journal of Crime and Criminals is in its Thirteenth year, and is widely circulated throughout the country. It is the first paper of the kind published in the United States, and is distinctive in its character. It has lately passed into the hands of Geo. W. Matsell & Co., by whom it will hereafter be conducted. Mr. Matsell was formerly Chief of Police of New York City, and he will no doubt render it one of the most interesting papers in the country. Its editorials srr forcibly written, and of a character that should command for the paper universal support.

JAMES E GIFFIN, A. M., Principal and Proprietor.

This Sominary is leasted in Coatesville, on the Central Railrand, about thirty-ownen miles from Philadelphia, and sixty-two from Hars shure. It is easy of access from any part of the Union, and is in the midst of a moral and refined population. There could not be a more healthy and ro-antic stuation. It possesses the advantages of having a daily mail, a telegraph office and an Adams' Express office. The next estatom will open the first day of November The School is sound and precious in every department. The course of study embraces everything that is creamized on the most approved pion of the best institutions in the New Encland States. Ladies and Gentlem on an entir-ly secrete, except in recitations; in truth, they have less intercourse than at home. The Teachers o cupy spartments in the buildines, and there is no association of the sexes but in the presence of their instructors. The happy influence, mutually exerted, in their slight; sacciation in the recitation from the testing the sacciation of the sexes but in the presence of their instructors. The happy influence, mutually exerted, in their slight; sacciation in the recitation from the cultivation of a cheerful and animated disposition, in the formation of good habits and manners, in stand devotion to study, and in the public exercises, is to be seen in the cultivation of a cheerful and animated disposition, in the formation of good habits and manners, in stand devotion to study, and in the satisfand existing the second of the sexes but in the constitution of society, on the basis of a well regulated christian family.

"Ladie, equally with the gentlemen, was benefited by this arrangement. The numerous and crowded schools of this kind spreading over the control, fully attact the correctness of this plan."

ORNAMENTAL BRANCUES: While it is we'l and proper that Young Ladies and Gontlemen should be taught Music, Drawing, Painting, &c., it is at the same time highly culpable, to neglect for these Branches, the practical and useful studies, which determine the intellectual status of an individual. Thousands of Young Ladies learn a little French, a little Music, &c., being ignorant of the plainest principles of Grammar and Mathematics. An Education is an injury rather than a beneft, if the mind be not trained in the right way. Acquire first, if possible, the solid Branches, and then the mind will be prepared for the Fine Arts.

TESTIMONIALS.

GOATESVILLE, July 29th, 1859.

Having been acquainted with James E. Giffin, Esq., since he has become proprietor of the Cateswille Seminary, I take pleasure in saying that I consider him very competent as a teacher, and very courteous as a gentleman, and most cheerfully recommend him, and the Institution over which he presides, as most benefiting to all persons having children for whom a thorough education is desired. My daughter is at present a student in the institution over which he presides, as most benefiting to all persons having children for whom a thorough education is desired. My daughter is at present a student in the institution.

Mr. GIFFIN—Dear Sir: It is now near the close of your recomd term of school in this place, and I feel very greatly gratified in seeing your prospects of making Coateswille gratified in seeing your prospects of making Coateswille gratified in seeing your prospects of making Coateswille gratified in seeing your prospects of making Coateswille, and close attention to your pupils: recitations, as manifested in the improvement of my son, I feel my-elf under obligations to recommend all my acquaintances and friends to send their sons and daughters to your school.

I cheerfully commend to the public, and especially to my friends, the Seminary of James E. Giffin, located at this place, as being especially worthy of patronage. My son having been a pupil for the last term of this Institution, 1 or an spoak with confidence of the fidelity of the Principal as a teacher—his suavity of manner, yet firmness as a governer, and his entire gentlemanly deportment in all his relations.

Mr. James Giffin—Sir. We most cordally recommend to public favor your most excellent School. One of the firm having had as on in your Institution, and the other assister-in-law, we can speak with confidence in regard to the merits, and thorough instruction given in Coateswille Seminary.

THE ALBANIAN SMOKE AND GAS BURNING STOVE, Pulneted by J. C. Henderson, Nowember 5, 1858—for heating Purlors, Halls, Offices, Churches, Seminaries, Each Rooms, de.

The chock Rooms, de.

The highest premiums have been awarded to this stove where it has been brought liot competition with other stoves, as decidelly the best heating stove which has ever been made, for burning either Bituminous or Anthracite Coal.

The cone, from its peculiar form, acts as a reflector, and intensifies the heat, by which all the smoke and gas are consumed.

It radiates more heat for every pound of coal used than a coal server and settled and the stove of the full-set confidence in their effects, and obstituting our remedies for the foregoing aliments we do so with the full-set confidence in their effects, and coult not their value with appreciated upon a trial of their value with any of the above complaints, and

The cons, from its peculiar form, acts as a renector, and intensifies the heat, by which all the smoke and gas are consumed.

It radiates more heat for every pound of coal used than any other stove ever made.

It is equally well adapted for burning hard or soft coal. It will burn the poorest kind of coal.

It does not clinker and become foul.

It radiates the heat from the lower part of the stove. It combines all the advantages ever introduced in a heating stove, and is in all respects a most perfect generator and radiator of heat and economizer of coal.

THE ALBANIAN is philosophical in principle, Elegant in design,

Ecomomical in cost,

Saving in fuel and wonderful in heating. In addition to this, no pains or expense have been spared to present to the public every kind of stove that is new or desirable for burning either wood or coal, adapted for cooking or heating purposes, and at prices which cannot fail to give satisfaction.

Reader, I pedified over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case,—So sure as water will extinguish fire, so sure will this cure humor. I never side a bottle of it, but that sold another; after a trice it aways speaks for itself. There are two things about this herb that uppear surprising; first, that if grows in our pastures, in some places quite plentiful, and yet its oath has never been far win until I discovered it in 1846 or our, that it should cure all ke its of humor.

In order to give some idea of the sudden see, and great popularity of the discovery. I will shate the in April, 1853, I ped likel it and sold about say hottles ped its or of it.
