On Friday night last some individuals obtained a suit of black cloths, stuffed them, sewed them together and labeled the whole "Old John Brown," which they hung up in front of the Court House. The effigy had the Missouri Democrat sticking out of the pockets and one number clothed in mourning. The same individuals, no doubt, went to the Democrat office and draped the door in mourning. The figure hung until about 9 o'clock Saturday morning, when it was cut down and borne out of sight, This may have been considered a capital joke to those who got it up, but we condemn it as an act unworthy of the approval of a sensible community. THE YANKEE IN THE PAS-SENGER CAR.

A dashing female, gaily dressed, Came in with haughty head: On monstrous hoops, no one could beat, Her satin skirts were spread. The Yankee man was on the point, of right to his feet—
The female turned and gruffly said, "I'd like to have that seat!" "No doubt of it!" the Yaukee said; I'd like to have it, too; But I was just about to rise And give it up to you,

Now, madam, that won't do for me, For if my seat you choose. In asking for it. you, at least, Civility should use!"

The Yankae said, "Your dignity
You've placed beneath your feet;
So stand upon your dignity,
And I will keep my seat!"
We know not what she stood upon;
But this we saw and know—
She, who would ride o'er others rights,
Was forced on foot to go;

In all the rides and walks of life, We should to one and all Politeness use, as salesmen do At Bennett's Tower Hall;

for the entertainment of our readers.

In order to increase the already large circulation of the Kniczenscenzers, we publish this month a splendid line engraving of Frith's picture of 'Merry-Making in the Olden Time,' which we shall present exclusively to the \$3 subscribers to the Magazine for 1860, whother old or new The subject represents the pastimes of our ancestors, and is eminently of a genital, domestic character. The plate, engraved in England at an expense of 2000 dollars, is entirely new, measures twenty-five by nineteen and a half inches in rize, contains thirty-nine figures, and is beyond comparison the finest work of the kind ever offered as a premium in this country.

'The engraving of Frith's picture of Merry-Making in the Olden Time, represents the humors of an English holiday in the county in those good old times when the men wore cocked-hats and knee-breeches, and the women stays and hoops—a costume not essentially differing from the centre of the picture and a little to the background is a country dance on the green, with a bard-featured fiddler perched on a high seat, and another musician in a tis-wig standing by him, playing with all their might. On the right two bouncing girls are gaily pulling toward the dance a gray-haired man, who seems vaioly to remonstrate that his 'dancing days are over,' while a waggish little child pushes him forward from behind, greatly to the amusement of his spouse, who is still sitting at the tea-table, from which has been dragged. On the left, under a magolification of the great of the 'squire is a young couple on the grass, to whom a gipsy with an infant on her shoulder is talling their fortune. Over the shoulders of this couple, is seen a group engaged in quoit playing, and spouse, who is the indian the dance. To the left of the 'squire is a young couple on the grass, to whom a gipsy with an infant on her shoulder is talling their fortune. Over the shoulders of the whole is a landscape of gentle slopes and popses: The picture has the expression of gayest thr baker, Administrator.

THE ALBANIAN SMOKE AND GAS BURNING STOVE.

Pletated by J. C. Henderson, November 6, 1858—for heating Furfors, Hulls, Offices. Churches, Seminarries, School Reoms, de.

The highest premiums have been awarded to this stove where it has been brought into competition with other stoves, as decidedly the best heating stove which has ever been made, for burning either Bituminous or Anthractic Coal.

The cone, from its peculiar form, acts as a reflector, and intensifies the heat, by which all the smoke and gas are consumed.

It radiates more heat for every pound of coal used; than any other stove ever made.

It is equally well adapted for burning hard or soft coal.

It does not clinker and become foul.

It can be advantages ever introduced in a heating stove, and is in all respects a most perfect generator and radiator of heat and economizer of coal.

THE ALBANIAN is philosophical in principle, Elogant in design,

Economical in cost,
Saving in fuel and wonderful in heating. In addition to the public every kind of stove that is new or desirable for burning either wood or coal, adapted for cooking or heating purposes, and at prices which cannot fall to give satisfaction.

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPPIUS AND ERUPPIUS DISRASSS. ULCRES.

SCROPULA AND SCROPULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCEES, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-BALGIA OR TIC DOULOUREUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR St. Anthony's Fire, and indeed the whole class of complaints arising from IMPURITY OF

THE BLOOD. THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the This compound will be found a great pro-

Sarsaparilla has, and deserves much, the Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla, which flood the market, until the has followed the use of the various Extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for
