We have very little to report of a local character Four steamboats have been sunk on the western rivers

since the date of our last. The Aunt Letty bound for Keokuk had a hole knocked in her hull by the heavy ice—she was run on a bar and sunk in three feet water. She was valued at \$10,000 and

owned in this city. The steamer Baltimore, sunk at the month of the Missouri river. She was heavily ladened with merchandise and about 1400 head of hegs. The Ballimore was in the

St. Louis and Alton passenger trade. The Daniel Boon was snagged and sunk in the lower Mississippi. She had little freight on board.

The steamer Canada is also reported sunk.

Of the above accidents we have not heard of a life being

lost, and all, perhaps, of the boats can be raised again. A railroad accident occurred on the Illinois Central road, about five miles above Jones bord, on Thursday morning last. The train ran off the track, and a car load of twenty

mules terribly smashed up, killing every one of the animals. A man named John Kigmey while in the woods in Casey county, Ky, was crushed to the ground by a fall of a tree, and while thus confined was attacked by hogs, and litererally torn in pieces. He leaves a wife and seven chil-

He is a physician by profession. In his pharmaccepia is a lot of modical herbs, the secret of whose curative powers he derived from his grandmother, who State. in the late disturbance of our peace,

was a great " medicine " woman. In the interior and western parts of lowa, the rivers and creeks are said to be perfectly thronged with beavers and minks to say nothing of myriads of other animals whose hides are sought by the trappers. Beaver Creek is said to be dammed at very frequent intervals by the industrient and enterprising residents from which it takes its name. They have not been as numerous for many years. The trappers are busy at work, and a rich harvest lies before them, and prices are likely to be remunerative. season of navigation just closed was 808, being 260 less than hast year. This year navigation closed 12 days later than last year.

The Chinese sugar cane is being cultivated to consideraobligations of the Constitution." ble extent in many parts of the West. The yield this year in Pike county, Illinois, has been very large-nearly every termer has raised a small quantity, and some have had many acres covered with the tall, juicy cane. One man in that county has two or three mills in operation, and the amount of the molasses made from the cane will be nearly sufficient to supply helf the inhabitants. In Grigg-ville, in the same State, there are several mills which turn out daily from eight to ten barrels. In Pike county, Missouri, the cans is also being extensively cultivated, and yields equally as well as in Illinois, and the same may be said of J wa and Minnesota. In Pike county, Mo, it is military preparation, in any emergency, the estimated that the yield for the season will amount to sum of \$100,000 be appropriated for military 31,500 gillons of Chinese s gar cane molasses. Where is our old friend, Mr. Jacon GARBER, who we know to be an enterprising as well as a highly educated gentleman? We address these remarks more particularly to him-(if he is

still in the land of the livin.(.) and hope that he will give the Chinese sugar cane a fair trial on Lancaster county soil. Will by do b? East, whilst here, we have had, here stelghing and bitter cold weather, and it has been still more severe farther West and North of us. In Keokuk, last week, the mercury was only tro degrees above zero, the river frozen over, and liquids generally in a state of frigidity, if we may and impuse generation in a state of Figure 1, it we may credit the local papers. At Waverly, $M_{\odot,0}$ on the 6th, it foll twelve degrees below zero, and remained nearly as low till the end of the week. At Council Buffs, however, it is reported that the thermometer was sizedce below zero on the morning of the 7th. This beats the Eastern cold weather out of sight thus far, and gives the North-West another triumch in zeros (2000 New Theorem). North-West another triumph to crow over-though of

North-West another triumph to error over-mough of dubious quality. The ice cuttors are already in the field cutting ice for summer. By the death of the Receiver of Public Lands at Fort Riley, a vacancy occurs in that office, and we know of no man more competent to fill it, than Mr. GEO. A CRAWFORD formerly of Lock Haven, Pa, but for a number of years a citizen of Ft. Scott, Kansus. Mr. Crawford is a man well and favorably known throughout the entire Taerritory, and his appointment, by the President, would give general satisfaction. Mr. C. is a thorough National Democrat. The public of the Northern States has been for the past four or five years turned into a political machine, and the ministers of the gaspel (?) have turned "stump speakers," and embrace every occasion to deliver Abolition-Black-Re-publican haragines to their different concreasions. The and on the cost of the state in the intervent of the state of the stat solected and pay to touch their children, as well as them selves, to hate and denounce the people of the South, b.cause they choose to live in a section of country where slavery is tolerated. They set a bad example to the rising: generation and in after years they will have no one to blame but themselves, if their children should follow u and carry out the preachings and dictations of the Aboli-tionists who have now full control of many of the Northern Churches. But why should we alone denounce the North for tolerating such incendiary teachings in the pulpit, when we, here in St. Louis, are cuised with just such Abolition sermons. Some of our citizeus were Irealed on "Thankagiving Day," we believe for the first time, with an Abelilion Sermon. The Kev. Dr. Nelson, who we believe halls from some Abelition spot in the State of New York, and who has been here for a year or two vontured on the abave day to insugurate the Northern sydem of "preaching" in this city. He did not preach in his own church, but voluntered to do so in another, and we must say if ever an Abolition sermon was preached. br. Nelson delivered it on "Thanksgiving Day." It was to strongly tinctured with Black Republicanism, that the *Missouri Democrat* published it, not only one insertion, but two, with the remark that "Dr. Nelson's sermon has oxcited unusual remark, and we republish it in to day's means."

We have heard that Dr. Nelson will be read a lecture by some of his church. There is a great commotion among the members of his church, and we should not be sur-prised if the congregation disbanded. When he first came to this city the *Hzrald* proclamed him an Abolitionist in its columns, and the same gentleman who denounced him bitterly the other day, was one among others who at that time called upon the editor of the Herald and assured him that such was not the case, and asked for a retraction. Political ministers of the gospel are not needed here, and from what we learn, the like will not soon occur again. A rumor has been currently circulated here, that Post Master $Hcg_{\Lambda\Lambda}$, of this city, is to be removed, to give place to a recently returned Foreign Minister. It is alleged that Mr. Hogan has been negligend and inattentive to the duties of the office, but we think a carofal investigation will prove otherwise. We never had a more popular and efficient Post Master, and no one here could be made efficient Post Master, and no one here could be made believe that he was removed, (if such should be the case) for institution or neglect of the office. We are surprised to find men of some distinction all the while picking fault at our Foderal officers, and all the while seeking the places for the mselves. Mr. Hogan has given general satisfaction, and his removal would create no little excitement in the ranks of the Democratic party of this city and State. The President and Post Master General should leave well someth alone. We home it will amount to nothing more enough alone. We hope it will amount to nothing more

Ayer's Sarsaparilla

A compound remedy, in which we have la

bored to produce the most effectual alterative

that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other

of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by, those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of imvenessmine to this large clarge of our

of immense service to this large class of our

afflicted fellow-citizens. How completely this compound will do it has been proven by exper-

PEPSIA AND INDIGESTION, EBYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole

class of complaints arising from IMPURITY OF THE BLOOD. This compound will be found a great pro-

moter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time-

ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by

the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to

rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the

vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is ob-

or sores; cleanse it when you ind it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong and the great mechange

must go wrong, and the great machinery o life is disordered or overthrown.

Sarsaparilla has, and deserves much, the

reputation, of accomplishing these ends. But the world has been egregiously deceived by

preparations of it, partly because the drug alone has not all the virtue that is claimed

for it, but more because many preparations,

pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick for they not only contain little, if any, Sarsaja-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market. until the

name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests

upon it. And we think we have ground for

believing it has virtues which are irresistible

by the ordinary run of the discases it is intend-ed to cure. In order to secure their complete eradication from the system, the remedy should

Aver's Cherry Pectoral,

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been en-ployed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
