ITN AMERICAN CYCLOP EDIA.

ITN AMERICAN CHAPACTER.

Tha New Cyclopedia surpasses all others in the spac given to our own country—its natural features and resources—and to American History and Biography.—Pronthe New York Enoughlist.

ITS IMPARTIALITY.
Pledgod to abstain from dectrinal, sectarian, or sectional discussions, it presents, so far as we have examined its articles, both sides of controverted topics with reasonable fulness and strict fairness.—From The National Era. THE NUMBER AND ABILITY OF ITS CONTRIBUTORS. Several eminent medical and legal authorities, both in New York and Boston, furnish contributions in their respective departments: and from a large catalogue of waters, which we have been permitted to inspect, we are confidently of opinion that such an array of talent and intelligence has never before been combined in a single pathication of the American Press.—From The Lancaster Examinary.

ITS FRESHYESS.

Its freshness and general thoroughness give it a decided advantage over any cyclopadia of its class, hitherto issued on either side of the Atlantic.—From The New York Times.

ITS CHEAPNESS.

It will be within the reach of all. Apprentices and merchants' clerk can procure the work as well as anybody, and with less cost to them (if they take it in numbers) then many of them expend nightly for cigars and less.—

COATESPILLE, CHESTER COUNTY, PA

JAMES E GIFFIN, A. M., Irincipal and Proprietor.

This Saminary is located in Coatesville, on the Central Ratiroad, about their-ye-seven miles from Philadelphia, and sixty-two from Harrisburg. It is easy of access from any part of the Union, and is in the midst of a moral and refined population. There could not be a more healthy and romanite situation. It possesses the advantages of having a daily mall, a telegraph office and an Adams' Express office. The next sexion will open the first day of November. The School is sound and practical in overy depart ment. The course of study embraces everything that is taught in the best Colleges of our country. The School is our; anized on the most approved plan of the best institutions in the New England States. Ladies and dentlemen are entirely separate, except in recitations; in truth, they have less intercourse than at home. The Teachers occupy apartments in the buildings, and there is no association of the sexes but in the presence of their instructors. The happy influence, mutually exerted, in their slight association in the, recitation room, at the table and in the public exercises, is to be saen in the cultivation of a cheerful and animated disposition, in the formation of good habits and manners, in ardent devotion to study, and in the attainment of high moral charactor. Thesa, with many other valuable r-sults, have established the fact, that the best plan-for a school is, according to the fortident design of Providence in the constitution of society, on the basis of a well regulated christian family.

"Ladic, equally with the gentlemen, are benefited by this arrangement. The numerous and crowded schools of this kind spreading over the country, fully attest the correctness of this plan."

ORNAMENTAL BRANCHES: While it is we'l and proper that Young Ladies and Gentlemen should be taught Music. Drawing, Painting, &c., it is at the same time highly culpable, to neglect for these Branches, the practical and useful studies, which detormine the intellectual status of an individual. Thousands of Young Ladies learn a little French, a little Music, &c., being incorant of the plainest principles of Grammar and Mathematics. An Education is an injury rather than a benefit, if the mind be not trained in the right way. Acquire first, if possible, the solid Branches, and then the mind will be prepared for the Fine Arts.

Music—Vocal and Instrumental—Piano, Violin, &c.
In the department of Lunguages, the classes are practised in oral and written exercises; and particular attention is given to the pronunciation of the Lunguage the student may be acquiring.

Ladies can substitute Music for some other branches, if they desire it.
The classes in Mensuration, Surveying, and Leveljur,

they desire it.

The classes in Mensuration, Surveying, and Leveliur, are practised in the use of the Quadrant, in Plotting, and in other instruments.

Particular attention will be given to the analyzing of Milton's Paradise Lost, which is used as a Book of Paradise Lost, which is used as a Book of Paradise Lost, which is used as a Book of Paradise Lost, which is used as a Book of Paradise Lost, which is used as a Book of Paradise Lost, which is used as a Book of Paradise Lost, which is used as a Book of Paradise Lost, which is used as a Book of Paradise Lost, which is used as a Book of Paradise Lost, which is used as a Book of Paradise Lost, which is used as a Book of Paradise Lost. Coatestille. July 20th, 1859.

It gives me pleasure to add my testimony to the fact that we have in our midst a well-conducted and thorough Institution, under the control and supervision of James E. Oiffin, Principal. Having had a son under his care for nearly two sessions, I can speak advisedly; and would recommend this flourishing Seminary to the consideration and inquiry of parents and guardians.

I recommend James E. Giffin as in svery way competent to discharge the duties of a laithful teacher, and know that the Institution is in a flourishing coudition. No parent can send his son or daughter to a better Institution.

JOK OUT I GOOD NEWS FOR ALL I

J. The never-failing Mex. VANHORN is the best; she succeeds when all others have failed. All who are in trouble—all who have been unfortunate, all whose fond hopes have been disppointed, crushed and blasted by faise promises and deceit,—all who have been deceived and trilled with,—all fly to her for advice and satisfaction,—all who are in doubts of the affections of those they love, consult her to relieve and satisfy their minds. In love affairs the near fails. She has the s-cret of wioning the affections of the opposite sex. It is this fact with induces illiterate pretenders to try to indute her. She shows you the likeness of your future wife, husband, or absent friend; she warrants and guarantees the sinch a happy marriage, and makes the married happy. Her nid and advice has been solited in innumerable instances, and the result has always been the means of securing a speedy and happy marriage; she is therefore a sure dependence. She has been the incase of bringing many hundred hearts and hands together. Thousands of broken hearts have been healed and made happy by her.

It is well known to the public at large that she was the first, and she is the only person who can show the likeness in reality, and who can give entire satisfaction on all the concerns of life, which can be tested and proved by thousands, both marriad and single, who daily and eagerly wither at
