This Sammary is located in Coatesville, on the Central
Railroad, about thirty-seven miles from Philadelphia, and
sixty-two from Harrisburg. It is easy of access from any
part of tile Union, and is in the midst of a moral and refined sopplishes. There could not be a more healthy and
romanne stuation: It presents the advantages of having
a daily mail, a telegraph office and an Adams' Express
office. This tell segator will open the first day of November. The School' is sound and practical in every department. This course of study, subrease swaything that is
taught in the best Colleges of our country. The School is
organized on hie most approved plan of the best institutions in the Yew Sugland States. Ladies and Gentlemen
are entirely segarate etters in rectistions; in brad, they
have tag subcourse them get home. The Teachers occupy
partments in the buildings; and there is no association of
the social but in the presence of their instruction. The
happy influsion middully exerted, in their slight association in the recipitation room, at the table and in the public
arecties, is to be seen in the cultivation of a cheerful
and animated disposition, in the formation of good habits
and misitely its arident devotion to study, and in the attainment of high moral character. There, with many
other valuable results, have established the fact, that the
best plan for a school is, according to the svident design
of Providence in the constitution of society, on the basis
of a well regulated etheristian family. in for a school is, according to the wident design idence in the constitution of society, on the basis il regulated christian family.

TESTIMONIALS

COATESTILE, July 29th, 1859.

Having been acquainted with James E. Giffin, Esq., since he has become proprietor of the Coatesville Seminary, I take: pleasure in asying that I consider him very competent as a teacher, and very courteous as a gentleman, and most cheerfully recommend him, and the Institution over which he presides, as most benefting to all persons having children for whom a thorough education is desired. My daughter is at present a student in the institution.

Magner is at present a student in the institution.

GOATESVILLE, July 29th, 1859.

MB. GIFFIN—Dear Sir: It is now near the close of your second term of school in this place, and I feel very greatify gratified in seeling your prospects of making Coatesville Seminary second to none in the country. After becoming fully acquainted with your mild, but firm discipline, and close attention to your pupils recitations, as manifested in the improvement of my son, I feel myself under obligations to recommend all my acquaintances and friends to send their sons and daughters to your school.

WM. H. THOMPSON.

I cheerfully commend to the public, and especially to my friends, the Seminary of James E. Giffin, located at this place, as being especially worthy of patronage. My son having been a pupil for the last term of this Institution, it can speak with confidence of the fidelity of the Principal as a teacher—his suavity of manner, yet firmness as a governer, and his entire gentlemanly deportment in all his relations.

Coatesville, July 29th, 1859.

ME. JAMES GIFFIN—SIR: We most cordisily recommend to public favor your most excellent School. One of the firm having had a son in your Institution, and the other a sister-in-law, we can speak with confidence in regard to the meitik, and thorough instruction given in Coatesville. Seminary.

Coarssylle, July 29th, 1859.

It gives me pleasure to add my testimony to the fast
that we have in our midst a well-conducted and thorough
Institution, under the control and supervision of James
E. Giffin, Principal. Having had a son under his care for
nearly two sessions, I can speak advisedity; and would
recommend this flourishing Seminary to the consideration
and inquiry of parents and guardians.

and inquiry of parents and guarantees.

Coatesville, August 13, 1859.

I recommend James E Giffin as in every way competent to discharge the duties of a faithful teacher, and know that the Institution is in a four-ishing condition. No parent can send his son or daughter to a better Institution.

THE NEW AMERICAN OYCLOP EDIA,

ITS AMERICAN CHARACTER.

The New Cyclopadia surpasses all others in the spagiven to our own country—its natural features and sources—and to American History and Biography.—From the New York Evangelist.

ITS PRACTICAL UTILITY.

It is a perfect treasury of knowledge, in all branches of the arts and sciences, in literature, history, biography and geography.—From The Boston Pilot.

ITS IMPARTIALITY.
Pledged to abstain from doctrinal, sectarian, or sectional discussions, it presents, so far as we have examined its articles, both sides of controverted topics with reasonable fulness and strict fairness.—From The National Era. THE NUMBER AND ABILITY OF TTS CONTRIBUTORS.
Several eminent medical and legal authorities, both in New York and Boston, furnish contributions in their respective departments; and from a large catalogue of writers, which we have been permitted to inspect, we are confidently of opinion that such an array of talent and intelligence has never before been combined in a single publication of the American Press.—From The Lancaster Examina.

ITS FRESHNESS.
Its freshness and general thoroughness give it a decided dvantage over any cyclopædia of its class, hitherto issue n either side of the Atlantic.—From The New York Tymes

ITS CHEAPNESS. ITS CHEAPNESS.

It will be within the reach of all. Apprentices and merchants' clerks can procure the work as well as anybody, and with less cost to them (if they take it in numbers) than many of them expend nightly for clears and beer—From The Jamestown Journal.

The undersigned having again resumed the practice of Dentistry, at his old stand, north east corner of North Queen and Orange streets, (Kramph's Buildings.) would respectfully say to his former patrons and friends, and to the public generally, that he embraced the opportunity, while in Baltimore, of attending a full course of lectures in, and receiving a diploma from, the Baltimore College of Dental Burgery.

Having graduated at a period in the history of the profession when all its most approved principles could be thoroughly discussed and fully compared and studied, I feel better qualified than ever before to treat all cases of dental or surgical diseases, strictly upon scientific principles.

dental or surgical diseases, strictly upon scientific principles.

As a metriculent of the University of Maryland, I received the benefit of the Surgical lectures of Prof. N. R. Smith, as well as those of Prof. T. E. Bond, of the Dental College, and having for years adopted Surgery as a favorite study, I design taking its general principles into my practice, and will treat all the surgical diseases, of the mouth and face especially, upon the principles laid down and practised so successfully by that eminent and scientific surgeon.

Cleft palates, have lips, preternatural and morbid growths in the mouth and about the face will receive especial and careful attention.

Artificial Teeth mounted upon four different and approved principles, viz.: Gold plate, silver plate, hard rubber process, and the much talked of Cheoplastic process improved. Operations upon the natural teeth will be performed with a view to their preservation and beauty, and according to the highest principles of hygiene and artistic skill. till. Specimens of plate work and plugging will be shown to indi-iduals or families, who may place themselves to indiilies, who may place themselves under my S. WELCHENS, D. D. S. tf 8

NICKERBOCKER MAGAZINE.

FIFTY-FIFTH YOLUME.

LOUIS GAYLORD CLARK, DR. JAMES O. NOYES,
EDITORS.

The present number closes the fity-fourth volume of the KNICKERBOCKER, and while we thank our patrons for their past favors, we shall strive to increase their number by redoubled care and effort in every department of the Magazine. We expect in our next number to be able to announce a series of articles on Popular Astronomy, by the most distinguished writer upon that science in the land. 'Stories and Pictures' of the Hudson will be completed during the year, and the two volumes will contain the best sketches, tales, poems, etc., that can be procured for the entertainment of our readers.

In order to increase the already large circulation of the Knickersocker, we publish this month a splendid line engraving of Frith's picture of 'Merry-Making in the Olden Time,' which we shall present exclusively to the \$3 subscribers to the Magazine for 1860, whether old or new. The subject represents the pastimes of our ancestors, and is eminently of a geoial, domestic character. The plate, engraved in England at ;an expense of 2000 dollars, is entirely new, measurest twenty-five by nineteen and a half inches in size, contains thirty-nine figures, and is beyond comparison the finest work of the kind ever offered as a premium in this country.

entirely new, measures twenty-five by nineteen and a nait inches in ize. contains thirty-nine figures, and is beyond comparison the finest work of the kind ever offered as a premium in this country.

'The engraving of Frith's picture of Merry-Making in the Olden Time, represents the humors of an English holiday in the county in those good old times when the men wore cocked hats and knee-breeches, and the women stays and hoops—a costume not essentially differing from the correct and crinoline of the present day. Almost in the centre of the picture and a little to the back-ground is a country dance on the green, with a hard-featured fiddler perched on a high seat, and another musician in a tle-wig standing by him, playing with all their might. On the right two bouncing girls are gaily pulling toward the dance a gray-haired man, who seems vainly to remonstrate that his 'dancing days are over,' while a waggish little child pushes him forward from behind, greatly to the amusement of his spouse, who is still sitting at the tea-table, from which he has been dragged. On the left, under a magoificent spreading oak, sit the 'squire and his wife, whom a countryman with his hat off is respectfully inviting to take part in the dance. To the left of the 'squire is a young couple on the grass, to whom a gipsy with an infant on her shoulder is telling their fortune. Over the shoulders of the scouple; is seen a group engaged in quoit-playing, and back of the whole is a landscape of gentle slopes and copses. The picture has the expression of gayety throughout and the engraving is splendidly executed. It is fresh from the burin of Holl, not having yet been published in England.

So sure as water will extinguish five, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kieds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery! I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I slways kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incursible, have been cured by a few bottles.—O, what a mercy if it prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known. of the Kidneys, &c., the discovery has done more good than any medicine ever known.

The IRON being absorbed by the blood, and thus circulating through the whole system, no part of the body can escape their truly wooderful influence. ful influence...

The experience of thousands daily proves that no preparation of Iron can for a moment be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in al-

sickly complexions indicate its necessity in almost every conceivable case. In all cases of female debility (floor albus, chlorosis, etc.), its effects are delightfully renovating. No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use. As a grand stomachic and general restorative it has no superior and no substitute.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; six hoxes, \$3 50; one dozen boxes, \$4 00. For sale by Druggists generally. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to
