## THE PLACE WHERE MEN SHOULD DIE.

- How little recks it where men die,
  When once the moment's past,
  In which the dim and glancing eyo
  Has looked on earth its last;
  Whether beneath its sculptured urn
  The coffined form shall rest, Or, in its nakedness return, Back to its mother's breast.
- Death is a common friend or foe, And at his summons each must go— The timid and the bold! But when the spirit free and warm
- Deserts it, as it must, What matter where the lifeless form Dissolves again to dust? The soldier falls, 'mid corses piled,
- The soldier tails, 'mid corses piled,
  Upon the battle plain,
  Where reinless war steed gallops wild,
  Among the mangled slain;
  But though his corse be grim to see,
  Hoof-trampled on the sod,
  What recks it when the spirit free
  Has soared aloft to God?
- The coward's dying eye may close Upon his downy bed, And softest hands his limbs compose And soltest and as his limbs compose Or garment o'er them spread; But ye, who shun the bloody fray, Where fell the mangled brave, Go—strip his coffin lid away, And see him in his grave.
- 'Twere sweet, indeed, to close our eyes With those we cherish near, And wafted upward, by our sighs, Soar to some calmer sphere; But whether on the scaffold high Or, in the battle's van, The fittest place where man can die
- Is where he dies for man LAYING DOWN THE KINGDOM.

## HON. W. H. WELSH, Made in the Senate on the 12th inst., on the resolutions relative to the organization of Congress.

An amendment was pending, offered by Mr. Schell, when Mr. Welsh moved the indefinite postponement of the amendment, together with the original resolutions.

The Speaker put the question to the Senate, when Mr. Welsh said: I have made this motion, not with a desire to embarrass in any manner this day's proceedings, but because I am anxious to speak, at this time, upon all the resolutions reported by the committee, and, in doing so, I wish to be strictly in order. I regret, sir, that I am not able, on account of the severity of a cold from which I am suffering, to speak as freely and as fully as I would like to do; yet, notwithstanding this difficulty, I cannot let this occasion pass without giving my views frankly and unreservedly upon the important questions now pending before steps strayed. I am willing to leave the the Senate. I do not entirely agree with my friend, the Senator from Chester, that resolutions of this character are altogether out of place in legislative bodies. I think, on the contrary, that there are times in the history of States and communities when it is eminently proper and necessary for the people, through their Representatives, to declare their attachment to some great principle, and express their adherence | ly advanced, to be the exclusive friend of | pestilential breath of treason and disunion ! to some chosen doctrine in government. There was a time in the history of this the country. From the inception of the South, who are sharers of our sacred country when resolutions adopted by State Legislatures, resolutions which did not partake in any degree of the nature of and real friend of the people. Sir, when the defining the rights of the several Statesand those resolutions, drawn by Jefferson and Madison, became in time the foundation of the Democratic party of this Union. Nay, more. They at this day form the charter of our common liberties, asserting as they do, in grand and comprehensive language, religious toleration, freedom of speech, and freedom of the press, and claiming for the foreigner, who seeks a shelter upon our shores, the protecting arm of that Government which was inaugu-

out the civilized globe. But the resolutions now before the Senate are widely different in their nature. They assert no principle now necessary to be placed upon our statute book. They propose no remedy for any existing evil. And, as I said yesterday, and I now repeat it with all respect to the majority of this body, they contain declarations and assertions which are not founded in fact, but which in my estimation are utterly fallacious. Believing this, raise my voice to-day against them. Hear me for my cause."

In discussing this question, I have no fault to find with the hasty manner in which these resolutions are proposed to be I occupy. Now, if we carefully examine the resolutions reported by the committee, we will find in them three leading declarations and assumptions. First, that the present corrupt; second, that the Republican party is the only one that protects the individual and industrial interests of the country; and third, the assumption, that while the disunionists, and are plotting the destruction of the Confederacy.

I design, Mr. Speaker, to examine these several points in their order, and I shall do so as briefly as the nature of the ques-

This cry of fuithlessness and corruption, uttered by the party out of power, and seeking for supremacy, is no new one to the ears of the people. It is part of the troyed, by the frequency with which it has by those who were struggling to dethrone a power and overwhelm a party.
