"The engraving of Frith's picture of Merry-Making in the Olden Time, represents the humors of an English holiday in the county in those good old times when the men wore cocked hats and knee-breeches, and the women stays and hoops—a costume not essentially differing from the corset and crinoline of the present day. Almost in the centre of the picture and a little to the back-ground is a country dance on the green, with a hard-featured fiddler perched on a high seat, and another musician in a tie-wig standing by him, playing with all their might. On the right two houncing girls are gaily pulling toward the dance a gray-haired man, who seems vainly to remonstrate that his dancing days are over, while a waggish little child pushes him forward from behind, greatly to the amusement of his spouse, who is still sitting at the tea-table, from which he has been drayged. On the left; under a magnificant spreading oak, sit the 'squire and his wife, whom a countryman with his bat off is respectfully inviting to take part in the dance. To the left of the 'squire is a young coule on the grass, to whom a gipsy with an infant on her shoulder is telling their fortune. Over the shoulders of this couple is seen a group engaged in quolt-playing, and back of the whole is a landscape of gentle slopes and copes. The picture has the expression of gayety throughout and the engraving is splendfully executed. It is fresh from the burin of Holl, not having yet been published in England."

CONTENTILE, July 29th, 1959.

MB. GIFFIN—Dear Sir.: It is now near the close of your second term of school in this place, and I feel very greatly gratified in seeing your prospects of making Costesville Seminary second to none in the country. After becoming fully acquainted with your mild, but firm discipline, and close attention to your pupils recitations, as manifested in the improvement of my son, I feel myself under obligations to recommend all my acquaintances and friends to send their sons and daughters to your school.

WM. H. THOMPSON.

COATESVILE, July 29th, 1859.

I cheerfully commend to the public, and especially to my friends, the Seminary of James E. Giffin, located at this place, as being especially worthy of patronage. My son having been a pupil for the last term of this Institution, I can speak with confidence of the fidelity of the Principal as a teacher—his suavity of manner, yet firmness as a governer, and his entire gentlemanly deportment in all his relations.

COATESVILE, July 29th, 1859.

MB. JAMES GIFFIN—Sir. We most cordially recommend to public favor your most excellent School. One of the firm having had a son in your Institution, and the other a sister-in-law, we can speak with confidence in regard to the merits, and thorough instruction gives in Coatesville Seminary.

COATESVILLE, July 29th, 1859.

From my personal knowledge of Mr. Giffin, Principal of Coltesville Seminary, and his method of instruction, it gives me pleasure to be able to recommend to parents and auardians this institution as a place where their sons and daughters or wards will receive every attention which their coa fort and therough education may require.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fith and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofplous com plaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and in vigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is con-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fire, Rose, or Enysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and SALT RHEUM, SCALD HEAD, RINGWORM, and SALT KHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEPILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

kakon.

Reader, I peddied over a thousand bottles of this in the vicinity of Boston. I know the effect of it in avery case.—So sure as water will extinguish fire, so sure will this cure humor. I never soid a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this here that appear surprising; first, that it grows in our pastures, in some piaces quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the suddon rise, and great popularity of the discovery, I will state that in April, 1853, I peddied it and sold about six bottles per day—in April, 1884, I sold over one thousand bottles per day—in April, 1884, I sold over one thousand bottles per day—in April, 1884, I sold over one thousand bottles per day—in April, 1885, I sold over one thousand bottles per day—in April, 1864, I sold over one thousand bottles per day—in April, 1865, I may be a subject of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kopt it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always—considered incurable, have been cured by a few bottles.—O, what a mercy if it prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged poople, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, pain in the side, Diseases of the Spline, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.
