Sr. Louis, March 12, 1860. It has been cool, windy and dry since the date of our last. The rivers are now all in fine navigable condition, and receipts of produce have greatly increased. Trade ned its busy hum, and our merchants and dealers have their hands full. The spring business promises to be exceedingly large. Sales on 'Change are heavy. A Jury has been secured. It embraces many men who don't read newspapers, don't take any, never heard of Henry Shaw, never heard of Miss Carztang. It is at the costs of this suit have already run up to The slave, Lewis, who recently murdered Dr. Keitt, of Florida, has been tried, found guilty and immediately

Thus, it leaks out, that from a philanthropist and an emancipationist be becomes a "slave catcher" and a "kidnapper." He is the man that our Black Republicans want to make

the Chicago nominee. Is he not a pretty standard bearer for the Abolition party. No consistent Black Republican can vote for him in Convention or out of it. Last Saturday was laid out as a great day for St. Louis.

Business men and retail dealers had their stores re-painted and their shelves re-arranged, for the occasion, thinking that 40,000,000 people would be in our city to participate and that their sales would far exceed their stocks-some of them had their money drawers, enlarged, and a police burlesque thought it best to postpone the calling of the Convention until 2 o'clock, which was done. Two o'clock came, and not fifty persons made their appearance. They Daufuskie Island. So great, however, was them, determined to make a start, if it proved to be the last act of their political lives. A dozen more of our citizens entered, and B. Gratz Brown was chosen chairman, with the usual number of Vice Presidents and Secretaries. Mr. merously attended than this State Convention. He eulogized the Abolition cause and wished it God speed, if they could not carry their point in Missouri, they could do so in patriotic Massachusetts, where dwells the immortal Banks! After organization, a committee was appointed to draft a platform for the Republican party of the nation. They retired to an ante-room for that purpose. At this stage of the proceedings there were not over one hundred persons present—including National Democrats—who were more numerous than the opposition—Know Nothings, shouting for Bates-Old Line Whigs, disgusted at the use of the name of Edward Bates-Union men, laughing in their sleeves at the burlesque going on-nondescript first in favor of, and then opposed to everything that was

We will here state, for the information of the Black Resingle delegate elected from any county in the State, to it Our city always contains from 1000 to 3000 strangers, and of course, from different parts of the State, and nowithstanding this fact, there were not a dozen, outside of our citizens participated with the hundred men composing the Convention, and this dozen who did participate, sympathizers with Mr. Bates—they would vote for him but for no one else nominated at Chicago. Even St Louis elected no delegates to this State Convention, nor did a single county in the State! It was composed of a heterogeneous mass of office-seeking politicians. Every body wed to participate, and we believe all in the convention had something to say. During the absence of the Committee—which was two long hours—patching up a platform for the Rapublicans of the nation to stand upon —the empty benches were addressed by a few young men -none of them having ever cast more than one vote, and all of them after an office in the event of Edward Bates being elected President! Men from Illinois and other States participated, and helped to make up the crowd. ngers were time and again sent after the committee, but without effect. Time rolled on, the empty benches became dusty, and the few who lingered to hear the resolutions became very uneasy-fearing a collision had occurred—that the committee were in trouble, as to whether ould best meet the approbation of the Convention to send delegates to Chicago or to Baltimore—some contended and one to the latter-so anxious are they for Bates, nomination-(that is the true friends of Bates)-that they may get the offices after his election. But the anti-Bates men thought the best way to kill him off, would be to send them to Chicago-knowing that he stands no earthly chance there, and at the same time, if his name is presented at Chicago, Bates' friends will have to vote for the

The resolution endorsing Bates was of sight. objected to by Mr. Pinner, editor of a German newspaper in Kansas city. Mr. Daenzer, editor of the St. Louis Post, another German paper took the same ground. Great confusion ensued. Mr. Pinner then offered the following amendment, and supported it in a lengthy and able speech: He said it was nonsense for the Republicans to think that Edward Bates or any other Black Republican could carry Missouri. He ridiculed the idea, and was dictate to the Chicago Convention-that such dictation came from a bad quarter-Missouri had no claims upon the Chicago Convention. He was opposed to any man that did not support Fremont in 1856—he wanted an out and out Black or no one. He nor his German friends could not go for Bates, and he deprecated the reading of a resolution ndorsing Bates as the first choice of Missouri, when St. Louis is the only county where Black Republicanies exists, and even here the party is composed of Germansit would not do to drive the Germans from the ticket by nominating Edward Bates, a man who has never cast Republican vote. He wanted a man who stood right on the goose in 1856! The following is the substitute for the

Resolved, That the delogates of the Republican party of Missouri have no preferred candidate for Prasident of the United States, and that our delegates to Chicago shall not cast their votes for any candidate who does not stand fairly and square upon the Philadelphia platform of 1856. The substitute, by a close vote-(after the friends of Bates had gone out in the streets and called in a dozen men)-was voted down, and the original Bates resolution was then adopted, amid cheers and hisses. The committee resolutions overlooked Mr. Frank Blair, but some gen. tleman in the Convention, offered a resolution compliment ary to the distinguished Black Republican. The question then arose as to an electoral ticket-one gentleman wanted such a ticket whether Mr. Bates was nominated or not. The editor of the German Post of this city, was also in favor of it. He referred to the "opposition" convention last week at Jefferson City, and said they selected delegates to the Baltimore Union Convention, and more than likely Mr. Bates would be "their first choice." Another gentleman thought it best not to select electors until after the Union Convention at Baltimore. The editor of the Post hoped the Republican party could do without this opposition

party-(we think, in a horn)-he hoped the Chicago Com-

certainly do, and that man will be William. H. Seward. The editor of the Missouri Democrat jumped to his feet:

and asked the centleman if he would vote for Mr. Bates if

on would nominate a candidate, that will not suit the Old Line Whigs and Know Nothings. (That they will most

nominated at Chicago, the reply was that he would neithe vole for, or his paper support Mr. Bates, if nominated, and no consideration would induce him to do so.

The names of the committee to select delegates to the Chicago Convention was then announced, and Mr. Pinner again took the floor and denounced the Chair for not putting a German on it. He did not know what to think of this studied exclusion of his countrymen, who, it was well known, form the bulk of the Republican party. Great confusion again prevailed. One of the gentlemen offered to resign his place to Mr. Pinner, and several said it was accidental, but Mr. P. said the same kind of an accident had happened five times during the sitting of the Conver tion. That was a fact well substantiated, and no one de the assertion. A resolution to add two Germans to the committee, was adopted, and Mr. Pinner and Dr. Bernays of the Anzeiger were the lucky individuals; a motion was then made to add three Irishmen, but the idea was ridiculed. After retiring for an hour, the committee reported the names of the delegates. A Central Committee Timothy seed \$2.50; Clover seed \$4.75; Hungarian 70c., was next elected. A gentleman, insisted that the mem sh.; Hay 90 to 95c.; Dried Apples \$1.55 and Peaches bers of the Central Committee in the city should consist of Germans. A resolution was then offered, instructing the delegates to Chicago to vote, as a unit. Mr. Pinne again objected. If he went he was going to Chicago un' fettered, and could not vote for Mr. Bates. The resolution of our last. A German, named Henry Meyers, a carpenter floally passed, and whereupon Mr. Pinner withdrew his by trade, was shot and killed by a band of burglars. The withdrew, amidst the greatest confusion. Before their places were filled the Convention adjourned sine die. The . The murderer's name is Henry Dugan. Five of the delegates probably stand 12 Pro Bates and 6 Re-pro-Bates.

Here, then, at the very door of Edward Bates, he has almost been swallowed up-annihilated, where there ought Smidt was found dead in his room, having his throat cut from ear to ear. His room-mate, a German, name unknown, fering him on the first choice of the Blacks, came within two or three votes of being defeated. This was certainly the grandest fizzle we have ever seen, and the men who participated are ashamed of it, and say they have mistake the strength of Mr. Bates, and all seem satisfied now, that it is supposed that the hand of the assassin has done the Bates would be the weakest man the party could possibly work. But our laws are so loose that ninety-nine out of a nominate. This Convention has politically killed Mr. bundred never get their deserts.

" OLD GUARD. BALLOON ASCENSION AT SAVANNAH, GA.--PERILOUS SITUATION OF THE ÆRONAUTS.

The eronaut Cevor, with a companion named Dalton, made a balloon ascension at Savannah, Ga., on Friday week. The following The friends of Judge Bates have given publicity to the Republican of Monday, showing that although account of their adventures we find in the from this being the case, it is undeniable that they ran their aerial trip was short yet the end ap-

After leaving the city a few miles behind them, the balloon entered a current which bore it to the eastward, and hence directly out to sea. The greatest altitude attained was between $2\frac{1}{2}$ and $2\frac{3}{4}$ miles at which point the view of both earth and water was entirely shut out. Seeing nothing and borne along on the rapid current of air, all was perfect still, and the æronauts unconscious of motion though going at the rate of over three miles in the grand "State" Convention of the Abolitionists, to the minute. The roar of the ocean, though, was distinctly heard from beneath, and just then they entered another current that have force engaged to prevent any over-crowding or undue disturbance whilst making their purchases. Mr. Dalton became entangled in the cords which became twisted around him, and had to take out his pocket knife and cut his way out in order to extricate himself .-The balloon then commenced to ascend rapidly, Mr. Cevor in the car, and he only saved himnominee. The furniture of this room has been a bed, a table and one chair, and these of the cheanest and commonest kind. The stove had been so long neglected that it was as rusty as an anchor and everything was of the meanest possible description. Some six weeks ago, Mrs. Graves was so reduced as to be confined to her bed, and there she was suffered to lie, day after day, with no one to sit with her, no to cheer her, no one to care for her.

She had lain on this bed, too weak to move or help herself, day and night, totally neglected except once a day, at noon, when she was tended for a few minutes by two German women and a bit of dry toast given her to eat, and with this bit of toast as her only meal in twenty four hours she has wasted away until she is now a bare skeleton.

It will seem incredible that a son and

daughter could so forget all the principles of love, affection or common humanity as to thus systematically drag an aged parent down to the grave, and were not the evidence too strong to be disputed, no one could credit the story. The evidences of the cruelty were all around her, for on her miserable bed was no sign of a sheet, but she lay on the bare straw ped until festering sores covered her back and limbs, and she was totally neglected in her bed, when too weak to move, for three days. When her son was remonstrated with for his unnatural conduct, he sneeringly asked, "What is the use of taking bread from the living and giving it to one three quarters dead?" THE EXECUTION AT CHARLESTOWN. CHARLESTOWN, Va., March 16.—The town was througed with visitors to-day anxious to witness the execution of Stevens and Hazlett. The sentence of the law was put into effect

Both the condemned appeared resigned to their fate, and exhibited great firmness and resignation.

Stevens died very hard, but Hazlett expired without a struggle.

The condemed declined all the proffered attentions from the ministry, and there were no religious ceremonies on the gallows or during their confinement. They were both Spiritualists and had a peculiar religion of their own, which enabled them to meet their fate with cheerfulness and resignation.

Their bodies have been forwarded to the care of Marcus Spring, South Amboy, N. J., and will reach Baltimore in the early morning train.

Dr. I. I. Hayes, Surgeon of the Kane Artic Expedition, hopes to be ready for a start in the month of May next for another voyage to the North Pole. Dr. Hayes has already raised the \$10,000, one half of the necessary sum from the generous contributions of his personal friends, and hopes to secure the rest from the liberal public at large.
To assist him in his endeavor, the Geographi cal and Statistical Society have appointed a Committee of leading merchants and other well known citizens (among them Henry Grinnell,) and there is reason to hope that the appeal will not be in vain. The special object of Dr. Hayes' proposed expedition is to determine at once and forever the question of an open Polar sea, which Lieut, Morton saw dealers imagined themselves rich. BLACE REPUBLICAN OPPOSITION TO PROTEC TION .- The New York Evening Post, edited by Bryant, is the leading Black Republican organ of New York. That paper takes strong and determined free trade ground. The Post will not permit protection to be one of the Republican planks. It declares that Abolitionism is the only plank. We quote the following sentiment:

"The question of slavery is altogether too great and momentous to be thus prostituted to the selfish schemes of speculating capital bigots. If those who now manage the affairs of the Republican party contemplate any such mandeuvre, we warn them in time that they had better let it alone. examined a chemically prepared glue specially designed for repairing furniture, picture frames, shell work, etc., without the trouble of calling in the cabinet-maker or pro-fessed repairer. A reliable article of this kind has long been an unsupplied want of the household, and if Mr. been an unsupplied want of the household, and if Mr. Spalding has succeeded in discovering the way to make a reliable prepared glue that will remain soluble, and uninjured by time and temperature, and that will supply a cheap, ever-ready, and sufficient means for repairing household wares, as he seems to have done, he is a lucky man, and will be sure of the hearty gratitude of all good housekeepers. Millions of dollars will be saved in the preservation and expense of repairing furniture alone every year by the general introduction of such an article.—From Life Riustrated, New York, July 16 1859.

mar 13 wonderful effects and consequent popularity—perhaps no article in the history of the Materia Medica, ever acquired the same patronage, was subjected to the same number of severe and different tests, and met with so few failures as the Mustang Liniment. It has justly been styled a Pana cea for all external Wounds, Cuts, Swellings, Sprains Bruises, or Eruptions on Man or Beast. It i dicine of surprising virtue, that Physicians are compelled to prescribe it, and from some remarkable cures of Chronic and Distorted Rheumatic cases it has naturally attracted much attention from the first scientific minds of the age. No family can afford to be without a bottle of the Mustang Liniment in the house. Beware of imitations. ONG SKIRTS. BY THE BARD OF TOWER HALL. We love the women very much,
And could not live without them,
But do not like the skirts they spread

A batred of their crinoline, Within our bosom rankles, Because we're fond of pretty feet, Attached to pretty ankles; And, as the women have such feet, With which kind Heaven supplied them; We cannot see a reason why, With sweeping skirts, they hide them.

A woman, all the virtues taught, May think that she possesses; Yet naught she knows of cleanling While she, with costly dresses,

Are soiled with mud, and stained with juice From loafers' vile tobacco! As "brevity's the soul of wit,"
The fact our mind impresses,
That soulless is the wit displayed On lengthy skirts, we do not wish
With women fair to wrangle,
But, as such things will filthy grow,
When in the mud they dangle,

We call on ladies for a change,
And hope that some "Good Friday"
Will usher in a style of dress,
Which, tasty, will be tidy. As men can all, at Tower Hall, Dress neatly, 'tis a pity That women's skirts are Fashion's brooms, With which they sweep the City.

NOTE .- A complete and well assorted stock of Spring and Summer Clothing now on hand, unsurpassed in style and workmanship, to which the attention of wholesale and retail buyers is invited at TOWER HALL, 518 MARKET Street, Philadelphia.

FARMERS' SPECIAL ATTENTION:::

Washington City, D. C.,
March 2nd, 1860.

This is to certify that I made a fair trial of the sample of Super Phosphate of Lime, presented to me by George A. Leinau. I used it in the cultivation of various kinds of Garden Crops, and always with the very best resulta—Its effects upon Cabbage, Beets and Potatoes is particularly striking—by the rich dark green of their tops, as well as the size to which they grow. It is also an excellent top dressing for grass—and I am satisfied when it comes to be well known it will be regarded with great favor as a Fertilizer, and will work its way into general use.

Scrofula, or King's Evil is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, blood, by which this number occurs vinagen, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is varie not desiroy. The scrottlous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fitth and filthy habits, the depressing vices, and, above all, by the veneral infection. What-

ever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; consestand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this every skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Enurry and Sky Dissess Sr. Augusty's Frag. and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISeases, Dropsy, Dyspersia, Debility, and, indeed, all Complaints arising from Vitia-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in

pain or physical debility is astonished to find his health or energy restored by a remiedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indiaestion, Pain in and Morbid Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appe-tite, Jaundice, and other kindred complaints, arising from a low state of the body or obstructio of its functions.

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so nu So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
