EXECUTIVE CHAMBER

HARRISBURG, March 22, 1860. To the Senate and House of Representatives of the Commonwealth of Pennsylvania. GENTLEMEN :- A bill has been presented for

my approval, entitled "Au act to incorporate the Mifflin County Bank." The bill proposes the incorporation of a bank, to be located in the borough of Lewistown in the county of Mifflin, with a capital of one hundred thousand dollars, with nower in the commissioners to increase it to two hun dred thousand dollars, and with the further power in the President and Directors, to ncrease it to five hundred thousand dollars. The shares are each to be one thousand lollars, and no one can subscribe for less than five shares. The number of stockholders can not be less than three, nor more than thirty and each stockholder shall be a director

When one hundred shares of stock have been subscribed, and ten dollars paid on each share to the commissioners, and more gages given by the stockholders on unincum bered real estate, within this commonwealth, appraised at a sum equal to the par value of e stock, letters patent are to be issued by the Governor to the corporators: and when the mortgages provided for, shall have been deposited with the Auditor General, and the Cashier shall certify under oath, that twenty five per centum of the capital stock subscribed has been paid in, the Auditor General is required to deliver to the bank, notes properly prepared in bank, to the amount of the stock, which notes, after being signed by the proper officers, may be issued by the bank, and circulated as money, according to the ordinary course of banking.

I have, heretofore, stated among the principal objections to the existing banking system this Commonwealth, 1st, That a special act of the General Assembly was an indispensable prerequisite to the incorporation and estab-lishment of a bank—thus conferring, by special legislation, upon a favored few, por and privileges which were denied to others, equally responsible and deserving. And, 2d, That no adequate and reliable security is provided for the prompt redemption, beyond all contingencies, of the promissory notes, as money. These objections have prompted me to make known to the legislature and the people, that I could not approve of any additional special charters for banks of issue under the laws now in force in this State. Nor have they, in my opinion, been removed. or obviated by the bill under consideration, It is a special charter, and the security it proposes for the redemption of the circulating notes of the bank proposed to be created, am satisfied, would prove utterly delusive and insufficient. Mortgages on real estate, as its full value, situated in any part of the Commonwealth, improved or unimproved, to be taken at an appraisement, would, beyond all controversy, be found but a very inadequate insuring prompt payment to the holders of the notes of a bank which had stopped payment at its counter. So far, as I have been able to learn, the plan of banking on real estate security, althou often attempted, has uniformly proved an absolute failure, even when confined to im proved land, and it will hardly be pretended that the system will be made better by extending it to all manner of real estate, whether improved or otherwise, as this bill proposes. Of late years, it has been either wholly, or in part, abandoned. One great reason, is, its inconvertibility, even when appraised at its real value. The payment of mortgages can only be enforced, after courts of justice, and, generally, at a ruinous bly true; that, in a vast majority of cases, the amount raised, after payment of expenses property; and, in the end, the securities ould thus be absorbed, and the outstanding issue, in a great measure, still left unre-

The twenty five per centum on the amount of the capital stock, required to be paid by the shareholders, together with their personal liability, would, of course, afford some addi security; but the history of the past shows conclusively, that such security is string measurement from control to control I ask that my entirely worthless in the case of a broken opponent shall give me five hit cents out of thirty shots bank. On the other hand, experience has shown with equal clearness, that the only his thirty. I shall require him to shoot his shots by daymode yet adopted by which the circulation of light; I will shoot my shots any dark night he may select a bank can be made perfectly safe, at all times, and under all circumstances, is by the Orleans or Nashville in thirty days after made." deposit of securities which can be converted into money without the danger of depreciation or the necessity of delay. So far as it very little of moment will take place until the result of may depend upon my action, I am determined that the laws of the State shall not sanction the further issue of paper money as a circu lating medium, without placing its prompt redemption beyond a peradventure. And, as the bill under consideration does not, in my opinion, fulfil that requirement, I am con strained to return it without the Executive sanction, to the House of Representatives. where it originated, for reconsideration. Everybody has heard of the Mississippi river—the "Father of Waters"—but there are many who do not know its extent and vastness; it extends 3,100 miles from the frozen regions of the North to the sunny South, and with the Missouri river is 4,500 miles in length. It is thought here that the final bal pretty generally conceded by the opposition that Seward and Trumbuli will be the opposing Black Republican can didates for President and Vice President. We hear noth ing more of Mr. Bates' chances for a nomination-many of head, have hauled it down since the action of the Black Republican Convention in this city. No Convention ever so completely crushed a man, as the one held in this city on the 10th inst. Why even the Missouri Democrat, Mr Bates' home organ, has scarcely mentioned his name since that event, and will not say a another word favorable to him, until he proclaims his platform or consents to strad dle the one pinned together by Gratz Brown's convention If Mr. Bates does not respond, his name will be entirely dropped, and if he does, his well known views-expresse The steamer Canada, from Liverpool, with in everything he has heretofore said and done—his opin ions fifty years ago-will damn him so thoroughly, that he will not get a dozen votes in a straight out Black Republi can convention. In either event, Mr. Bates is politically ruined. He did not know how to carry water on both shoulders—he never made an "irrepressible conflict" speech, and said the States would some day be either al slave or all free States. The Northern Abolitionists have beat him almost out of his boots, while his professe friends here have been continually stabbing him in the dark. He is the worst scared individual that has ever aspired to the first office of the country. He has had a continua fire in the front, as well as in the rear, and those of the said of Frank Blair—he is a used up man. His friends here despair of getting him the nomination for Vice President dent, and tremble for him when they think of running him for Congress. He is the weakest man of their party in the State. Bates and Blair—two men who have always

rejected the programme for Italy, the French | held different political opinions—neither of them ever voted the same political mud, and both will sink so low that their names will never be heard of after the campaign of 1860. We hope they will not nominate Blair for Vice President, for we want to beat him in August for Congress.

The Indiana Atlas, Mr. Defrees' (the defeated Black Republican candidate for House Printer) paper, published at

Mr. Defrees calculated on Congressional favors to keep his paper alive, and it, like the Washington City Republic and the National Era, died out for the want of that kind of nourishment.

Good Godl do I desire to stir up civil war in Kentucky, where the ashes of all my blood relations lie? No, sir! we have no right to interfere with Kentucky, and I have no such desire. So much for the Helper book.

And yet Cassius M. Clay, a Kentuckian, subscribed for Mr. Byng moved an address to the Crown, approving the new commercial treaty with France, and pledging Parliament to take necessary measures for carrying it into effect. The address was agreed to without a division. In reply to a question, Lord Russell said that Austria and Russia had intimated their concurrence in the views of England touching the annexation of Savoy to France, but Russia had not replied yet.

THE HOMESTEAD BILL. The most important, measure before Congrees is the Homestead project. There are wo bills under consideration-one in the

The House bill, under the special charge of the Black Republicans, opens the public domain equally to tizens and aliens; pass it, and any foreigner, or association of foreigners, may come over d squat upon a claim without even declaring an intention to become citizens. The Senate bill requires the squatter to be either a native or adonted citizen. The probability is, that the difference between the two Houses will revent the passage of either bill.

SHOCKING AFFAIR IN CLARION COUNTY, PA. On Tuesday morning last, says the Clarion (Pa.) Banner, of the 16th inst., our community was shocked by the intelligence that the dwelling house of Mr. William Rhodes, on the Lucinea Furnace road, and near the farm of Joseph Snyder, Esq., had been, burned during Monday night, and four of his boys, one aged about twenty years, burned to deat Mr. Rhodes was not at home, but Mrs. R. soon awakened. She ran to the kitchen and discovered that the stairs were burned away. and, as a matter of course, all chance escape for her children in the loft was cut off. She got out four of those below, and then tried to get into the loft from the outside, but failed, the flames being too strong, and no doubt the children were dead. At this fearful moment, she remembered that her youngest child was still in bed, and with a mother love, and regardless of the danger, she rushed n amid the flames and smoke, and snatching the babe from its bed, escaped safely beyond the reach of the burning building. It was a errible moment for that poor mother. She had barely escaped with one little one, while four others were burning within the house .-No one was near to aid her in this moment of agony, and she could only look upon the destruction of her home and weep bitterly for those loved ones whom death had so suc denly taken from her. The bones of the children were carefully gathered and deposited in the Clarion graveyard on Wednesday last.

OURT PROCLAMATION.---Whereas, 

AGER VS. TOBACCO. BY THE BARD OF BUMMER'S HALL.

The snow was falling "thick and fast,"
As up North Queen two Bummers passed
Said one, I have a quarter here—
Shall we go get some Lager Beer. No, no, said Bummer Runt the small,
I'll not agree to that, at all;
Instead of going on a spree,
Let's go and puff a principe
At Sheuk's. At Cains'.

Alaric, King of Bummer's all,
Then spoke these words to Runt the small—
Runty, thy advice is good indeed,
And we will go and "puff a weed"
At Shenk's.

So off they went, and on the road, Met an old Bummer with a load; Said Runty—See what Lagerites are, He'd better have smoked a good segar At Shenk's. To Shenk's they went—each got a weed Of Real Old Havana seed; Then home they went with minds content,

Now Bummers, when you get a fip, Don't run and spend it for a "nip;" But learn to smoke, and then you'll bless And patronise A. Wonderful S. At Shank's Where all the best brands of segars and tobacco can be and at cheaper rates than at any other similar establish ment in the city.

[mar 27 1y 11] 'MY KINGDOM FOR A HORSE."

A HUSBAND'S SOLILOQUY.

BY THE BARD OF TOWER HALL.

Not long ago I loved a maid Who lived some miles away,
And twice a week I rode to her
On father's dapple grey;
But father sold the faithful beast, And bitter was my loss; I sighed to see my love, and cried,

My kingdom for a horse!"

She wrote a note—" My Charley dear,
What keeps thee, love, away;
I've watched and watched to see thee come Upon thy dapple grey.

I fear thy love is not as gold,
But only worthless dross—' Oh! crue! words! I wiluly ...
"My kingdom for a horse!

"any singdom for a norse."

I went on foot to seek her hand,
And her to church I led;
Three months have past, and I have now.
A broken heart and head.
My wife's a Tartar! I have wounds
Which will my words endorse;
I would that leagues between us lay—
"My kingdom for a horse!" . NOTE.

The man thus grieved would never buy
His clothes at Tower Hall;
His lack of taste provoked his wife,
Whose wrath on him did fall.
She used the broom upon his head,
And, filled with keen remorse,
Like vanquished Richard, he exclaimed:
"My kingdom for a horse!"

PARMERS' SPECIAL ATTENTION !!! This is to certify that I made a fair trial of the sample of Super Phosphate of Lime, presented to me by George A. Leinau. I used it in the cultivation of various kinds of Garden Crops and always with the very best results—Its effects upon Cabbage, Beets and Potatoes is particularly striking—by the rich dark green of their tops, as well as the size to which they grow. It is also an excellent top dressing for grass—and I am satisfied when it comes to be well known it will be regarded with great favor as a Fertilizer, and will work its way into general use.

Gardener to the President of the United States.

Gardener to the President of the United States.

Farmers read on: Hear what Ex-Governor Snyder's son, of Selio's Grove, Union county, Pennsylvania, says of Leinau's Fertilizer upon his grass lauds—the swath was so heavy as to make it a heavy job to mow it, and upon my wheat, top dressed it surpassed any thing used in our county. I have used it for years and recommend it to farmers generally. Hear what Isaac Reeves, says: I have used Lelnau's Pertilizer for years in succession on my 2 farms below Red Bank, New Jersey, and have found ite effects superior on all my crops, to any thing I ever used. My ground has become very rich by its use and I recommend it to Farmers and Truckers.

ULCRES PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILES AND SYPHILITIC AF-FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-BALGIA OR TIC DOULOUREUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPPLAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from Lapurety of THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities: bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the di alone has not all the virtue that is claim for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of. Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are invasible. elieving it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
