The attempt has not known as Holme Lee, and as the author of Kathie Brand with contempt. A special dispetch to the New York Herald and the Cincinnati Gazette stated that Blair had succeeded in proving to the Committee on Elections that near a thousand fraudulent votes were polled at the election for Congressman. It turns out that the statement was false, and was furnished to the correspondents of those of the New York Times says, that the Committee on Elec. tions had Messrs. Barrett and Blair before them this morn ing, when the former read a dispatch in the Herald, and asked if either member of the Committee had authorized to Mr. Blair, who admitted that he had furnished it him self. Mr. Barrett pronounced its conclusions untrue and false. Thus has Mr. Blair transcended to forestall the action of the Convention, which is looked upon here, and no doubt will be so regarded by the committee, as an attempt to secure his seat by dishonorable and fraudulent means. If he would be guilty of thus faisely putting himself in the newspapers, what would be not be guilty of? It would not be safe to have him on any com if he would deal unfairly for himself he would do so for others. We do think that he is fit for nothing but wire pulling, intrigue, stratagem and spoils.

The Black Republican Committee, appointed to inform Judge Bates of his endorsement by the Abolition Conven tion held in this city on the 10th inst.-and such an endorsement—25 against 27 votes—have discharged their duty, and Edward Bates replies to the questions put to him. He agrees with them in everything—a lways has been a Black Republican in disguise, and will accept the Chicago nomination, or any other if tendered him-he is after the style of Joe. Barker, of Pittsburgh notoriety! Mr. Bates was one of the most popular men we had in Missouri-because he was not a politician and is not on record—but since his manifesto, declaring himself an Abolitionist or its equivalent, hundreds and thousands of men who would have voted for Mr. Bates, have dropped him, and he now lies as flat as a pan-cake. We claim to have some knowledge of the people of this city and State, and can assure you that ninety-nine out of every hundred of the so-called "Americans," who would have supported Mr. Bates for any office, will now oppose him to the bitter end. He was regarded as conservative, and not Abolition, but his recent manifesto has not only lost him many personal and political friends. but it will lose him all political honors in the future.

The Black Republicans of this city have accomplished ust what they set out to do six months ago, and that was the killing of Edward Bates. Mr. Bates seemed to be tower of strength in this State, and in fact in a few of the southern States and whilst they had no idea of nomina ting him at Chicago, yet there was a probability of him getting the nomination at Baltimore of the "Union Concention," and in that event his strength would defeat the Abolitionists as Fillmore did in 1856. He was to be got out of the way—he was to be made a regular Republican so that the Baltimore Convention would not touch him and they would soon fix his case at Chicago. They have succeeded. Judge Bates has foolishly written a letter declaring himself a Republican, and thus completely wine out his chances before the Baltimore Convention, which would have, beyond a doubt, made him its candidate, whilst he stands no more chance of the nomination at Chicago than "Old Guard." That matter has all been fixed. The difficulty was to get Bates out of the way—not of the Chicago Convention, but of the Union Convention part of her counsel to secure for her a new at Baltimore. It took time to do it, and whilst it was slow work it was nevertheless sure. We can now state positively that Edward Bates will not be a candidate on any ticket in then made a last desperate effort to induce the the approaching campaign! The Louisville Journal, and all the "opposition" press of the West and South, that were advocating Judge Bates for the Presidency on what tion passed to that effect. This was quashed they supposed conservative grounds, and he a conservative by the veto of the Governor.

There can be no doubt, after a perusal of yes, every one, we do not know an exception, denounced the testimony on her trial, that she was guilty the course Judge Bates has seen fit to peusue, and none of of the horrid deed of which she was convicted the course studge batter has seen in the passace, that has the her motive being to get her husband out of

It seems that John C. Breckinridge is to be the man to carry the Democratic flag through the campa gn. He is picking up strength all over the country. We saw an loward delegate—first for Judge Bouglas, and second for Breckinridge: and he says lowa, Minnesota, Michigan. Wisconsin, and Illimois will all vote for Breckinridge when it is ascertained Judge Douglas cannot be nominated. He also says the North-west is uniting upon their men, and they will all vote together—a unit, and that they have already settled upon Breckluridge as their second choice. Let the Pennsylvania delegation stand by the young Kentuckian.—Missouri, Kentucky and the entire South will vote for Breckinridge on the third or fourth ballot—filter they have paid a complimentary vote to distinguished men of their own States, and Mr. Breckinridge first receiving an endorsement in some of the Northern States. The South is not desirous of pressing one of her own men, as much as she is entitled to the man. Then let Pennsylvania precent his name, and the whole South and North-west will rally to her aid. We look upon Breckinridge's chances far ahead of all others named.

Thirty five of them, comprising the once favorite Chesnut Street Line, with about one hundred horses, were sold at auction yesterday to go into different country towns. American scientific researches, and recent books on the ubjects comprised under the same head, have lately awakened an unusual degree of attention in Europe. We Professor Rogers' magnificent work on the Geology of Pennsylvania inserted in one of the foreign quarterlies. and we now have to direct the reader's attention to an anally appreciative review of Professor Hitchcock's Ich plogy of New England, which may be found in the last February number of the North British Review, as republished in New York, by Messrs. Leonard Scott & Co. I would appear that British prejudice against American lit. erature and American scholarship has entirely melted away. Certainly in the four great Quarterly Reviews we find nothing of that miserable spirit which once stirred Carlyle and Sydney Smith, and every article is as readable and appreciative to the American reader as to him who arns over the pages under the sound of Bow Bells.

Although the March number of Blackwood's Magazine in not yet out, (it will be issued in a few days from the press of Messrs. It opens with an admirable paper on Lord Eigin's Mission to China Crittendeu county, Tenn., jail, by hanging himself with a and Japan. This is followed by the concluding part of Bulwer's poem, St. Stephens. The capital story of The Crusaders, The Luck of Ladysmede, is also brought to a conclusion: and Professor Aytoun's novel, Norman Sin, clair, an Autobiography, is continued. Other interesting articles are on Nelson and Caracciolo, Dies Ira. A Word About Tom Jones, etc., and two or three of Blackwood's usual powerful political papers at the close. There is also a fine poem, Betsy Brown, a True Story. This is certainly sufficient to prove that the March number will be opulant

Life Before Him exhibits a philosophy and economy which millions of human beings will appreciate who ha life before them!" It presents a vivid eleture of the dependence of intellectual capacity on solid character for real success, and in moral and in effect is just such a story as we should have expected from a man of strong charac-ter and intellect, who has himself struggled "against wind and tide," who has observed and studied character, as he suffered, and noted peculiarities and passions. The author has succeeded in giving freshness to familiar scenes, and Va., have shipped to New Orleans 64 steam engines and imparting beauty and interest to every day occurrences.

Nobody can read it and not feel ling the money, and how it was invested. the force of its simplicity, its touching pathos and homely sagacity. The plot is strongly conceived, is effective and natural, unfolding many scenes that are touchingly simple and truthful. The reader's happy healthful sympathy with sorrow will be awakened here; there will be a dewy dimness about the eyes as some of the scenes open upon him, or his tensibilities are more hardened than we should like to claim for ourself.

C. S. Kauffman, Columbia; Henry Mc-Cormick, Harrisburg; Isaac Eckert, Reading; Edward Brooke, Birdsboro': Edward M. Clymer, Reading; S. Miles Green, Huntingon; Edward S. Buckley, Philadelphia.

This committee reported the following resolutions, which were unanimously adopted: Resolved, That this meeting approve and commend the bill recently introduced into the House of Representatives by the Committee of Ways and Means, proposing to substitute specific for advalorem duties upon foreign iron and other articles imported into the United States.

Resolved, That we regard the seventh section of said bill, relating to iron and the manufactures of iron and steel, as satisfactory and fair to all parties interested in their manufacture, and that the duties fixed upor the principal items in the section do not vary materially from 30 per centum of thei verage value during the last six years, ending June 30, 1859, and are therefore based upon

a fair revenue standard.

Resolved, That the enactment of this bill wil enable the American manufacturers to compete fairly with the foreigner, and that it will tend to prevent those enormous fluctuations in the price of iron, which have, under the advalorem system, been so disastrous to our home industry; inflating prices by increasing the duty when least needed, and depressing them by reducing the duty when required.

Resolved. That we earnestly request our Representatives in both branches of Congress to use all honorable means to pass this without delay; it being in accordance with the views repeatedly expressed by James Buchanan, President of the United States, in his annual messages to Congress.

Resolved. That a copy of the proceedings of this meeting be forwarded to the President of the United States, and to each member of Congress. Adjourned.

EMBEZZLEMENT AND FORGERY IN PHILADEL-PHIA —The Philadelphia Ledger of Saturday, says: A young man, who has been employed for over two years in the gift book establish ment of G. G. Evans, on Chesnut street, has recently been discovered in the act of embezz ing large amounts of money from his employer It appears that the young man had charge of the order department, receiving letters con taining money from the Post Office, and then filling said orders by sending the books required. This whole matter being under his charge, he would abstract the money from the letters, make no note of it, and send the books. This system has been continued until th embezzlement amounted to over \$20,000, and not until lately was there any suspicion of foul play. As soon as a doubt was raised as to the honesty of the clerk, a watch was set at the Post Office, and by counting the number sty of the clerk, a watch was set at of packages sent away, and the number of orders entered upon the cash book, the discrepancy was discovered. The young man was then charged by Mr. Evans with the em bezzlement, and he eventually made a clean breast of it, by relating the manner of obtain-The money abstracted has been used in the building of houses, a number of them having been put up in the lower part of the city last year, and naid out of the money taken from the letters. A KISS IN A THUNDER STORM. BY THE BARD OF TOWER HALL.

I rambled out, one summer day, With Sallie, loved most dearly, Who needed but angel's wings, To be an angel really. A storm came up, the rain came down And we a tree went under: Then most terrific grew the storm, And loudly roared the thunder. At length there came a stunning peal, And then a flash of lightning, With terrors for a maiden's heart, My fair companion frieth'ning

Her eyes she closed, her lips I kissed; She nid not seem to wonder, Because, no doubt, the smack was not As noisy as the thunder. The storm rolled by, the years rolled on, And Saille dear I married, And oft we speak of that wild storm, When 'neath a tree we tarried;

And of the storms of life, which ne'er Shall rend our hearts asunder. Nor drown the mem'ry of that kiss, When Salile feared the thunder. To Tower Hall I will not make,
To-day, the least allusion;
The girl I kissed, controls my thoughts
While penning this effusion;

But, in my next, (LOOK OUT FOR THAT!)
I'll make my readers wonder,
By facts in PROER, which o'er the world.
Shall ring in tones of thunder. NOTE.—A complete and well asserted stock of Spring and Summer Clothing now on hand, unsurpassed in styl-and workmanship, to which the attention of wholesal and workmanship, to wanted at and retail buyers is invited at a street, Philadelphia TOWER HALL, \$15 MARKET Street, Philadelphia BRNAST & CO.

NO PAREGORIC OR OPIATE true. It contains

NO PAREGORIC OR OPIATE
of any kind, and therefore relieves by removing the suffer
ings of your child, instead of by deadening its tensibilities.
For this reason, it commends itself as the only reliable
preparation now known for CHILDREN TEETHING,
DIARRHEA, DYEENTERY, GRIPING IN THE BOWELS,
ACIDITY OF THE STOMACH, WIND. COLD IN THE
HEAD, and CROUP, also, for softening the gums, reducing
inflammation, regulating the Bowels, and relieving pain, it
has no equal—being an anti-sparamodic it is used with unfailing succests in all cases of CONVULSION OR OTHER
FITS. As you value the life and health of your children,
and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics
of which all other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL;

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy.. The scrofulous taint is variously not destroy. The scrothlous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fifth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fath

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate vigorate it by healthy food and exercise. Such a medicine we supply in

It is con-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and Skin Diseases. St. Anthony's Fire. The popular belief in "impurity of the blood." is founded in truth, for scrofula is a degeneration of the blood. So wide is the field of its usefulness and so nu-So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgetten.

The most delicious and appetising Sauce, invented by the renowned "Sour" for the London Reform Ciub, is, since his decease, manufactured by the well-known bons of CROSS & BLACKWELL, London, from the original recipe. It is the favorite Sauce in Eng the Continent, with a high and growing reputation among Ameri can Epicures, and is much approve of as a stimulant to the appetite and aid to digestion.

OPINIONS OF THE LONDON PRESS. "We recommend our correspondent to try Mons.
Source's new Sance, entitled the 'Suitana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of slow and weak diges tion."-The Lancet.

"Savory, Piquant and Spicy, worthy the genius of Soyer."—Observer. "A most valuable adjunct to Fish, Flesh, and Fowl, and

should have a place on every table."-Atlas. Sole Agents for the United States:
