THE CONNECTICUT ELECTION. The Republicans have carried Connecticut by the meagre majority of 536, after one of the hottest campaigns ever known in the history of that State. A few more such victories in New England, and the Abolition party is undone. The vote of Connecticut shows the who contributed the money he raised for the gradual decline of Republicanism in its stronghold. At the Presidential election of that the money was used improperly, though of 7,705 over BUCHANAN, and 5,090 over BUCHANAN and FILLMORE combined. It promises to be particularly severe to the Republican party-much more so than the contest of 1856.

CONGRESSIONAL.

The House Homestead Bill exhibits unexpected strength in the Senate. The Republi-cans are united upon it, and a number of the Democrats will go for it in the end. The California Senators are instructed to yote for t. The Indiana Senators will, it is said, do the same.

The issue is one of great strength in Pennsylvania, in Ohio, and in the new States .--The views which the President has expressed in regard to measures for depriving the revenue of the resource of the land sales render it

improbable that he will approve of the bill. The House is deeply engaged in the ques-tion of polygamy in Utah and the means of destroying it. The disposition to pass some measure for the object is irresistable. The South is received by the source of the South is warned by some members against a measure that will afford a precedent for controlling the local legislation and domestic institutions of a Territory. But they will take the risk, because, as they contend, the

constitution recognizes property in slaves. The negro question cannot be suppressed in Congress. It springs up on every question, no matter what it may be.

The subject of the reorganization of the militia of the United States is one of some prominence. When the existing system was adopted, there were two hundred thousand men enrolled in the militia. Now there are four millions. One plan now proposed is, that a white man, unless his pockets are well that Congress should fix upon a sertain numlined, is held at about six and a quarter cents ber for a volunteer or militia army, viz :--200,000, and provide by law for arming, organizing and equipping them, and apportion-ing them among the several States, according South behave himself-respect himself-and their population.

SAD ACCIDENT-A WOMAN NEARLY BURNT TO DEATH .-- One day last week, the wife of Alexander Mathues, residing at Grubb's bridge on the West Chester & Philadelphia Railroad, was horribly burnt. Her children had raked together and set fire to the rubbish in the garden; the fire was near a piece of woodland, and the leaves and old grass around being dry, and the wind high, the flames spread rapidly. Mrs. Mathues fearing her neighbors' property would be injured, rushed out and attempted to arrest the spread of the flames, when her dress caught fire, and almost instantly the poor woman was enveloped in flames. Horrified, and tortured, she ran to Chester creek. (some twenty yards distant, with two fences between her and the creek, which she had to elimb,) and threw herself into the water .---She was discovered by Chas. Brown, a colored man, who took her out of the water, and made known her awful condition to her family .--Some parts of her body were burnt nearly She is in a very critical condition through and it is thought she will not recover. Doctor A. W. Mathues, of Crozerville, and others, were called in, who will use every effort to restore the unfortunate mother to her family -Upland Union.

Official advices from Vera Cruz have been

held in that State on Wednesday last-two days after the Connecticut election-the Democrats and Union men swept everything before them, electing their Governor, Mr. SPRAGUE, by a majority of 1460 votes, and also a majority in both branches of the Legislature .--This is truly a glorious beginning for the campaign of 1860. The vote of Rhode Island in 1856, for President, gave 6,680 to Mr. BUCHANAN, and 11,447 to FREMONT-leaving 1,675 for FILLMORE. In 1858, the Republican candidate for Governor had 7,522 votes, and the Democratic candidate 3.618. Last year the Republican vote of the State had increased to 8,938, and the Democratic decreased to 3,546. The Republican majority for FREMONT was 3,122. In 1858 it was 3,914. In 1859 it was 5.392. And now, in 1860, the Democrats have carried the State by nearly 1,500 !

Prior to the elections of last week we had set down the New England States as a unit for the Republican candidate for President .--But we are now satisfied that we were mistaken. We confidently calculate upon Rhode Island and Connecticut as certain for the nominee of the Charleston Convention, and we should not be surprised if Maine would follow suit, as the "sober second thought" is beginning to do its work even in that benighted region.

THE SUPREME JUDGES' SALARIES .--- The salaries of the Judges of the Supreme Court are fixed in the appropriation bill at \$3400 each. The bill, as it originally passed the House, made the salaries \$3200 each. This was increased by the Senate to \$3600, and finally compromised by the Committee of Conference at \$3400.

DEMOCRATIC VICTORIES. - We have numerous and gratifying evidences, from all sections of the country, of the growth of an active National public sentiment. In Milwaukie on Tuesday the Democrats elected their Mayor and other city officers by 1,000 majority. In Cincinnati the entire Democratic ticket was elected by over 700-which is a large Democratic gain. In Elmira, N. Y., the entire Democratic ticket was elected. In Portland,

It expresses the opinion that Seward or any other Republican would be badly beaten, and the only hope of the party is in Bates. And regard success as next to hopeless, for it says, States Senate :

Or, to state it all in a single word, they must raise 1856, to 2,000,000 this year! This they cannot do; and whoever may be their candidate, they are bound to be annihilated.

The description now in use, and the nails manufactured here being of the best quality, find

The Charcoal Furnace, belonging to the same firm, is not in operation at present, but is put in use as occasion requires. These Furnaces, together with the Nail Factory and Rolling Mill, employ a force of about one hundred and fifty hands. The whole works are under the immediate supervision of Messrs, Brooke. who are practical business men of enlarged experience, and most determined perseverance. We know of no iron works that were less affected by the revulsions of trade and fluance, during the past few years, than those at Birdsboro', nor none which stand at present on a better footing.'

AN EXPENSIVE LAW SUIT .- The St. Louis Democrat states that Mr. Shaw, in defending himself in the great breach of promise case brought by Miss Carstang, paid the sum of \$525 for a single deposition, taken in New York, and that he paid the expenses of a witness from Charleston to St. Louis, her support since the 9th of January, and her expenses back to Charleston. Various other large sums were paid to secure the attendance of witnesses from a distance, to say nothing of heavy fees Other instances o lawyers, constables, &c. afford an example of the use of money, though it is due to truth to say there is not a syllable in all the evidence read on the trial, indicating an improper use of wealth to procure testimony.

A STAGE BURNED .-- On Friday morning of last week the coach carrying the mail from During Lock Haven to Tyrone, Huntingdo on county. took fire between Lock Haven and Bellefonte and was entirely consumed, together with the

mails, and the baggage belonging to the passengers. The accident occurred through the negligence of one of the passengers throwing a lighted match into the straw in the bottom of the coach. In an instant everything was enveloped in flames. It was with difficulty that the passengers escaped from the stage unhurt, and to make matters worse, the horses took fright and ran. Before they could be stopped the coach was so much burned that neither mails nor baggage could he saved. It was fortunate that no ladies were on board, as they could not have been

rescued-the flames spread so rapidly. We doubt whether there is a similar accident on record.

FUGITIVE SLAVES IN CANADA .---- Mr. J. Armstrong, of Kent county, Md., has received a letter from one of his slaves, who runaway to Canada two years ago. He begs his maser to forgive him, and entreats him to send him sufficient money to return to him, promising hereafter to serve him faithfully as a slave. He says he is without clothing, has been fearfully cheated by the Canadians, (who show no mercy to the colored population,) and has been compelled to hire himself out at \$5 a month. He adds that nine colored persons left St. Thomas, Canada, in one week last springfour for Kentucky and five for Harriso n county Va.
