St. Louis, April 2, 1860. The weather has been pleasant but very dry until Saturday evening, when a rain storm passed over the city, and it rained throughout the night, and this morning everything has a fresh look. The river at this point is falling rapidly, and boats find difficulty in getting out to Cairo on 71/4 feet, and are unable to take the freight offering. This ity is doing an immense trade with the South this seaso -five times as great as at any former time, and which is result of Abolitionism pervading in the Northern cities—where these southern supplies were heretofore obtained. Freights to New Orleans are 60c. for flour; 80c. for Pork; 90c. for Whisky, and 30@35c. per 100 the for nound freight. Receipts of Produce are very large Lake Pepin is now open, and navigation free to St. Paul Sales on 'Change Saturday were for flour \$5.40 to \$7: Wheat 108 to 145c.; Corn 40 to 56c.; Oats 45 to 50c.; Barley 70 to 871/c.; Mess Pork \$17.25; Lard 10 to 101/c.; Whisky 181/2c.; Hides 15c.; Hay 72 to 86c.; Potatoes 45 to 50c;

Immediately on the rendition of the verdict, the counse for the plaintiff filed a motion for a new trial, with reasons assigned. The motion will probably be argued within the

Thus has ended one of the most exciting cases ever brought before our courts, and thus has Effic failed to substantiate the charge of promise of marriage. We think the verdict right and proper from the evidence elicited in the case. This was her second attempt to levy "Black Mail" upon wealthy mon-the first attempt was upon Judge Ivy, of New Orleans, where she recovered \$5,000 to withdraw the suit, although the Judge could have beat her in it, had he desired to stand a suit with her. The second attempt was in this city, against Mr. Henry Shaw. a gentleman worth probably \$500,000, and who is a bache Mr. Shaw was determined not to allow the fair Effle to swindle him, and he stood a trial with her, and the result of this case shows her up to the world in her true light. If ad Effle gained this suit, there are a dozen others like her who would have tried the same game upon the first slight opportunity. The "Black Mail" trade is now at a discount, and well it should be, for if Effie would have proved victorious, there is no telling where this infamous system would have ended.

Next to the breach of promise case, is the veto of Governor Stewart on the Railroad bill, granting further aid to the three main trunk roads. His action in regard to this measure is universally condemned in this locality, and it has been charged that the Governor has been bribed. It was his intention to sanction the bill five hours before the veto was sent to the House, and what could have produced this sudden change, is left for conjecture. Gov. Stewart was regarded as the father of Internal Improvements in this State—his whole life has been spent in the advocacy of the Railroads of Missouri, and he called an extra sessio of the Legislature expressly to pass this bill—he advocated it-used all his energies, and brought everything in his power to bear upon its passage through the House. He spoke in its favor day and night, yet when it was sent to him for his signature he vetoes it (1) Whilst there are some who cry "corruption," others say insanity was the cause of this sudden turn round, and many actually elieve that the man is insane, which is more than likely true. The course of Governor Stewart has taken every body by surprise, and no one seems able to account for this change in so short a time. His name is in the mouth

of everybody, and his action universally condemned.

in a small way, have occurred in the last month, and at prices which may be regarded as low. Mr. James Atkinson old last week 120 acres, seven miles north of town, unimproved, at \$5 per acre; and in the same neighborhood mother tract of 120 acres, with 25 acres broke prairie, at \$6 per acre. He also sold 140 acres near this place, with acres under fence, at \$6.50 per acre; and two unimproved lots in town at \$75 each; and another lot with, a small tenement on it for \$250. At these prices he very soon sell all his lands. Mr. A. has within a mile of town, a tract of land containing 240 acres, 80 under fence with a small tenement on it, which we regard as the best bargain now being offered in this section of country. The land is really desirable, and has an abundance of timber on it, and the wood, which can readily be sold for and put into cultivation, would more than pay for the tract at his price, viz: \$10 per acre. Other tracts in the vicinity have changed hands, but w

are not advised of the prices. The Vincennes (Ind.) Political excitement begins to run high, as the time of holding the Charleston Convention draws near. Our State gates to the National Convention. This will be the largest, and no doubt the most enthusiastic political body that has ever assembled in the State of Missourl. There are 105 counties in the State, and as far as heard from 98 have elected delegates, and the remaining counties will, of course, have their delegates in attendance. Having had the honor of being one of the delegates from this county, we will be in attendance, if nothing unforeseen occurs. Our opinion is that the delegates to the Charleston Convention will vote for Hon. Jas. S. Green, of this State, on the first bailot, and after which, Mr. Dickinson will get the vote of ice, looking beseechingly, but they could not Missouri until John C. Breckinridge is ready to take the third vote. Mr. Breckluridge is a great favorite, and whilst he is thought most too young, he is nevertheles the second if not the first choice of every Democrat that we have vet conversed with, and we believe this to be the throughout the South, West and North-West, and indeing from the newspaper reports, the same may be said of him in the Northern and New England States. With s patent fact, and the number of aspirants for the

We can see no possible chance for the nomination of gratis, by the city, and the number reached 3,069 during any other man now mentioned. With Breckinridge as our candidate, he would draw thousands and tens of thousands and many others. He would save us Pennsylvania and New Jersey beyond a doubt, and more we do not require to elect him. He would unite the party in Illinois and Indiana much better than any other candidate, and would sweep them like a storm, whilst Iowa, Wisconsin, Michigan and Minnesota would more than likely give him as heavy a vote as they would to Judge Douglas, their first choice. To make success doubly certain he is the mar We will pledge Missouri for 50,000 majority and Illinois at 20,000, whilst we believe the Old Keystone State would nobly maintain her position in the Democratic ranks. We are so firm in our belief, from a careful review of the field,

that we give it as our opinion, that if Mr. Breckinridge is

not the nominee, no man now mentioned can be—it must

be John C. Breckinridge or a new man, but we are not ertain that a new man can unite the Democracy as well as the Star of Kentucky.

The entire "Opposition" press of the South—which have been advocating Judge Bates' claims for the Presiiency-have all, without a single exception, in any State, enounced, in the most bitter terms, his recent letteroutting himself fairly and squarely on the Black Republi an platform. They have all cut loose from him, and he now stands solitary and alone, backed up by a few Aboli tionists in this city, who are only using him for their own personal benefit. No man, perhaps, was ever so suddenly crushed as Judge Bates has been, and if he had listened to his warm friends instead of his professed friends, he would not have thus destroyed himself. His old political enemies, and now his professed friends, placed the dagger in his hands and he did the deed. The Baltimore Co cannot touch him, standing on the platform he does, whilst they never had any idea of nominating him a Let this letter writing of Judge Bates be a warning to all Presidential aspirants in the future. Washington, April 6 .- Semi-official advi ses from Vera Cruz state, in addition to what has already been published, that the Liberals defeated the 4th Regiment of Cavalry belonging to Miramon's forces on the 5th ult., ten miles west of Jalapa, taking the horses, arms and ammunition. General Villalba, of the Liberal army, had defeated a body of 500 Reactionists at San Martin, twenty miles west of Puebla, taking seven pieces of artillery, together with their arms and ammunition. General Pueblita, a Liberal, with a force of 2,000 men, was besieging Lagarde, a Reactionist, at Hueyapam, fifty miles north of Mexico. The City of Puebla was threatened by the combined forces of Villalba, Alatuste and Caravajal. Several letters state that the city had already been taken, but this needs confirmation.—Judge Mason closed his argument to day before the Commissioners of Patents in favor of the extension of the Morse Telegraph Patent. The opinion prevails that the decision will be favorable. —The receipts into the Treasury during the past week amount to \$1,227,000—subject to draft nearly \$6,500,000. About two thirds of this amount is in the sub treasury of New York .-- It is a matter of comment that the anti-polygamy bill which passed the House yesterday excepts the District of Columbia from its operation, so far as marrying more than one person is concerned, but prevents the living or cohabiting here if the marriage of the polygamist takes place elsewhere. There is however, an existing law against polygamy in this district.—Mr. Dimmick, one of the delegates to the Charleston Convention from Pennsylvania, publishes a letter declaring for

Douglas. THE BLOW RECOILING.—A book-binder at Washington, named Pettibone, in his eagerness to sully the character of the President and Attorney General, has got in a scrape which he may find it difficult to get out of. He swore before the Senate Committee that he had placed in the hands of the President a proposal for the Executive-binding; that this proposal had been referred to the Attorney General by the President, with a certain endorse ment on the back thereof, which he had seen : and that afterward the Attorney General had carried the proposal to the President and induced him to make another and different endorsement thereon, &c.

The document itself, which was produced before the committee, proved that Pettibone \$250 to \$3 per cord on that part which ought to be cleared | had lied as to the alleged alteration of the endorsement, and the Attorney General and others who were examined as witnesses proved other falsehoods upon the malignant rascal. The Constitution charges Pettibone with

perjury, and he seems likely to be handed over to the Criminal Court for trial for that offence.

SHOCKING CALAMITY-A FATHER AND SON BURNED TO DEATH .- The Portland Argus of April 3d., says that the dwelling house, barn and shed of Mr. Asa Warren, in Naples, together with all their contents, consisting of furniture, three horses, three carriages, cow, hog, hay and grain, and farming utensils, were destroyed by fire about three o'clock yesterday morning, and sad to relate, Mr. Warren, and his son, about eight years old,

perished in the flames.

The fire originated in the barn, and is supposed to be the work of an incendiary. It was first discovered by a daughter of Mr Warren, who aroused her parents. Mr. Warren got his wife and daughter and an infant child to the door, and told them to go introduced into their town, and begin to think they have to the next neighbor's. He then went back to endeavor to save his son, and it was evident from the remains found that he reached the chamber occupied by the lad, but before they could get out of the room the fire was upon them, and they both burned to death. Mrs. Warren, with the infant and the daughter, escaped in their night clothing-the had her head scorched by the flames.

> AN EXTRAORDINARY FEAT .- The Chester county Times says that a calf belonging to Kendig, of Sadsbury, performed the following difficult and daring feat. One of the family attempted to drive it from the lawn into the barn yard, when it ran to the sheds adjoining the barn, leaped upon the roof, which was within a short distance of the ground, and from the shed mounted upon the barn roof, walked to the comb, looked up at the vane on the lightning rod, returned within two feet of the edge and looked down upon the cattle in the barn yard. Here it stood until driven down by some one who mounted the roof after it. The calf is a yearling, and the roof is what carpenters designate as a three eighths pitch.

FLOATING THIRTY MILES ON A CAKE OF ICE. The Green Bay Advocate relates a thrilling ice adventure. Henry Martin and Isaac Gagnon, one with a load of hay, the other with a load of corn meal, were traveling on the ice of the Little Bay de Noquet. About 4 P. M. they discovered a crack them off from the shore, and that the ice on which they were was floating them out into Green Bay towards Death's Door, They unharnessed their horses and let them go, and took the box off one of the sleds to use in cace they got into the water. At midnight, Convention meets at Jefferson City on Monday next, the being exhausted, they laid down to sleep 9th inst., to nominate a full State ticket and select delagation. morning, at 8 o'clock, they saw land, which proved to be Washington Island, and they landed opposite Death's Door. They had thus been driven thirty miles across the bay in one of the heaviest gales that ever blowed. The horses, after being loosened, followed the men in their rambles upon the ice, until, coming to a weak place, they went in. Two hours later one of the horses swam up to the cake help the poor brute.

Bucks County is entirely free from debt. The Commissioners had a special meeting last Saturday, to meet the Auditors and pay off the indebtedness, when every obligation against the county was cancelled.

CHILD BURNED .- A little daughter of Henry lippard, about ten years old, was very seri-usly burned, at her father's residence in Coatesville, Chester county, on Wednesday last. The family were working in the garden, ourning brush. The little girl with the children, were playing around the fire, when her dress caught, and in a moment she was enveloped in flames. The child uttered a cream of terror, at which her mother rus from the house, and made every possible effort to extinguish the flames. This she succeeded in doing-not, however, until the lower part the body and extremities of the child were horribly burned. The child was duly cared for-but little hopes are entertained of her recovery. The mother, in putting out the fire, had her hands and arms seriously burned

TERRIBLE ACCIDENT IN A COAL MINE. - The Pittsburg Chronicle, of Thursday evening, records a most frightful accident, which courred on the morning of that day at Hays & Co's Coal Works, near Irwin's station, on the Pennsylvania Railroad. It appears that six men entered the shaft for the purpose of going to work, and were being let down in he usual way, when the rope attached to the windlass through which they were being lowered broke, precipitating them a distance some one hundred and twenty feet, to the platform below. The result is easily imagined. The entire party were killed and their re nains terribly mangled. They were all miners and worked in the pit. Three of them were married and men of families. The casualty was a frightful one, and produced a deep sensation in the neighborhood where it transoired.

PIANO FOR TES.

Take great pleasure in inviting the attention of Artists, Amateurs and the public generally, to their NEW SCALE OVERSTRUNG IRON-FRAME PIANO FORTES, just introduced. The growing demand for Piano Fortes, of more than ordinary power and brilliancy of tone, directed our energies to the production of such an instrument, and we submit the result without fear of competition.

Our Pianos are all manufactured of the best well-seasoned materials, under our immediate supervision, and are guaranteed to give satisfaction whether ordered from us direct, or sold by any of our Agents throughout the country. We solicit a continuance of that patronage which we have enjoyed for the last 25 years.

C LOTHING! BY THE BARD OF TOWER HALL TO THE DEALER IN BRADY-MADE CLOTHING, WHO-EVER HE MAY BE, OR WHEREVER HE MAY LIVE, WE WISH TO PRESENT A FEW FACTS IN THE SIM-PLE GARB OF TRUTH.

The Garks Of TRUTH.

The first and most important fact is, that if a Clothi
dealer visit Philadelphia for the purpose of purchasi
clothing, he will find it for his interest to patronize

BENINETT & CO.,
and this fact we will cetablish, by presenting others
substantiate it. nbstantiate it.
They have conducted for many years a mammoth esta nent, having WHOLESALE AND RETAIL DEPARTMENTS.

and hare, therefore, gained an experience which a dealer who wholesales exclusively can never acquire. The whole-sale house, which has no restall trade, will manufacture goods year after year, instructed only by fashion plates and natterns. goods year after year, instructed only by fashion plates and patterns.

They, on the contrary, by the thousands of customers in their retail department, are instructed how far the theories of the business may be judiciously carried out in practice. They are counseled by the varied tastes of their hosts of patrons, and "in the multitude of counselors there is safety." Their patterns are the "human forms divine." They are day after day measuring and fitting garments, and, by an experience thus gained, they are enabled to make up in proper season just the styles required by the demand, and furnish to their wholesale patrons an assortment so averaged in sizes as to ensure them complete success in the suiting and fitting of their customers. So true is this, there is scarcely a day but that some dealer declares to them, that one of the strongest inducements to purchase at Tower Hall is the fact, that their clothing is always sure to fit, and nothing is ever left over on account of being fashioned from patterns which have no similitude in the forms of any his customers. They have also another distinct department, for the purpose of manufacturing

GARMENTS TO ORDER,
in which they collect in the course of a year thousands of settled measurements, all of yest importance in getting up.

tinct department, for the purpose of manufacturing
GARMENTS TO ORDER,
in which they collect in the course of a year thousands of
actual measurements, all of yeak importance in getting up
a stock for the wholesale trade; and, conducting these
various departments, they keep their hands employed the
jear round, and always have—what steady work commands—the beet, and are not obliged, like those who employ
hands periodically, to take whoever may offer, or go without. It has been used as an argument by some of their
rivals in the clothing business, that, because they have a
large establishment to support, they must, as, a consequence, receive large profits upon their clothing. The semhodied idea may serve as a text for opponants in the clothing business to preach from, but converts to their preaching
will be wrecked in their conversion. It is well known that
all men in business have more or less expense in conducting
it, and that expense, whatever it may be, must be met

ing obsnoss to preach iron, but convers to their preaching will be wrecked in their conversion. It is well known that all men in business have more or less expense in conducting it, and that expense, whatever it may be, must be met with the profits. If, therefore, a man's expenses are ten dollars per day, and he has but two customers, he must make five dollars on each of them, in order to make himself whole; but if his neighbor's expenses are one hundred dollars per day, and he has one thousand customers, then ten cents made on each man will meet the expenses.

"LARGE SALES AND SMALL PROFITS"
has ever been the guiding maxim with Bennett & Co., and this explains why such unbounded patronage has been bestowed upon Tower Hall by a discriminating public.

But, even if a man sell his clothing at a small profit, if his materials are not well purchased and judicfously manufactured, then the cost will be heavy, and a profit, however small, being added to it, will make the selling price unreasonable. How is it with Bennett & Co?

They buy on the best terms, directly from first hands, and pay no triple, nor double profits; while their long experience enables them to select durable fabrics, and manufactured them economically, and at the same time with an eye to their durability, knowing that well made clothing is always presenting a silent, but impressive argument, which the wise and prident cannot resist.

They have no drummers, but have used printer's ink to present wholesome truths, which may be tested by any clothing dealer who will visit Tower Hall. They invite him there. They ask him to come and examine the immense stock, look well at the fabrics, mark the styles, note the finish, and then consider the prices.

If these are all satisfactory, let him purchase a "bill of goods," and, in disposing of them, the fact will be demonstrated fully, that what we have said in regard to the fit of their garments, and the satisfaction they give to customers, is true beyond dispute. He will realize the truth of the old adage, tha

tomers, is true beyond dispute. He will realize the trun of the old adage, that of the old adage, that "A THING WELL BOUGHT IS HALF SOLD," and we trust he will therefore determine, that in order to have his goods well bought, he will earol himself with the multitudes whose business interests are identified with the TOWER HALL CLOTHING BAZAAR, 518 MARKET STREET, apr 10 1t 13] BENNETT & CO., PROPRIETORS.

Messrs. S. W. Fowle & Co., Boston. — Dear Sirs. Having realized in my family important benefits from the use of your valuable preparation, — Wistar's Balsam of Wild Cherry, — it affords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were ontertained. I then procured a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health. I have, in my individual case, mado frequent use of your valuable medicine, and have always been benefited by it. I would, however, aution the public against imposition, because there is a good deal of spurious Wistar's Balsam of Wild Cherry affoot throughout the country.

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other. substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cur which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by exper-iment on many of the worst cases to be found

of the following complaints: -SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCRES, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-BALGIA OR TIC DOULOUREUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPPLAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from Impurity or THE BLOOD

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the longer, for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug-alone has not all the virtue that is claimed for it, but more because many preparations pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for or these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy sh be judiciously taken according to directions on

FOR SALE...-THE UNDERSIGNED OFfers for sale 1640 ACRES OF LAND, in the County of
Fayette, and State of Iowa, at the town of Fairbank, a few
miles from the Wapsipinica River, and 15 miles from the
Dubuque and Pacific Railroad, now finished to Independence, on the Wapsipinica River, and surveyed and located
to Nebraska and designed to be extended to Oregon.
This Tract of Land is beantifully situated and all Limestone, and is well watered—four fine springs being on the
premises, and spring creek passing through the land.—
About 500 Acres of this is Woodland, and scattered over
various parts of the Tract, is growing Hickory, White Oak,
Spawn and Black Oak, Walaut, Ash and quantities of Hazal
Wood. Thore is also a fine grass bottom, and open, rolling
prairies, excellently adapted for raising Grain, 160 Acres of
which are in cultivation. It is in a region noted for its
fine and healthy climate, and the adjoining lands are settied by Indiana, Illinois and Ohlo Farmers, and by Germans and a few Irish and Englishmen, and is noted for its
good society. Fairbank, immediately south and adjoining
this land, has Churches, School Houses, two Hotels, five or
eix Stores, a fine Griat Mill, Wagon Maker's Shop, Blacksmiths and a Distillery, and is a flourishing town. The
east branch of the Wapsipinica River, passes through the
estate and has some fine sites for Grist or Saw Mills.

This land is all rolling, lying in one body, and would
make 8 or 10 excellent Farms, or could be used for a Stock
Farm. In less than five years the Wapsipinica Valley
Railroad, now about being finished from Fulton, on the
Mississippi, to Anamosa, a distance of 60 or 80 miles, will
be made through this land to St. Paul, Minnesota, passing
through one of the most fertile valleys of the West.

Any one wishing to see this land can do so in 2½ or 3
days from Philadeiphia, La

ROYAL, VIRGINIA.—Desirable Stand for a Store, School, Hotel, or other purposes. The subscriber, wishing to open a farm in Culpeper county, offers his House and Lot For Salle. The House is a large two-ctory frame building, with four rooms on a ficor, convenient closets, a hall 45 feet long running through the centre, and a cellar under the whole—all in excellent repair. 8 more rooms can be made in garret and basement of house. The lot consists of one acre, located in the heart of the village; a good garden, in which some 40 choice fruit trees of every variety have been planted, with flowers and shrubbery. It has a good well, stable, poultry-yard, kitchon, smoke house and other out-buildings, besides an excellent office, 2kitl feet, in which the Post Office is now kept, yielding a net income of over \$300 per annum. This office, with a small addition, would make a fine stand for a store. A Dry Goods and Grain Dealer would do a flourishing business here, as the village has an excellent shipping port. The situation would also make a desirable stand for a School, Hotel, or other purposes. Price \$4,000—2 cash and balance in I and 2 years.
