This is to certify that I made a fair trial of the sample of Super Phosphate of Lime, presented to me by George A. Leinau. I used it in the cultivation of various kinds of Garden Crops, and always with the very best results—Its effects upon Cabbage, Beets and Potatoes is particularly striking—by the rich dark green of their tops, as well as the size to which they grow. It is also an excellent top dreasing for grass—and I am satisfied when it comes to be well known it will be regarded with great favor as a Fertilizer, and will work its way into general use.

The Stereoscope is the most instructive, interesting, entertaining, amusing, and exciting of modern inventions.

None are itoo young, none too old, none too intelligent, none too uneducated to seknowledge its worth and beauty.

No home is complete without it, and it must and will no none is overywhere. It presents to your view every part of the world, in all he relief, boldness, perspective, and sharpness of detail, he relief, boldness, perspective, and sharpness of detail, s if you were on the spot. Photographers are everywhere exploring Europe, Asia, Africa, America, in search of the grand and the beautiful, and the results of their skill are constantly enriching our and the results of their skill are constantly enriching our stock.

We have an immense variety of paper Views of Scenes in Paris, London, England, Scotland, Ireland, Wales, France, Belgium, Holland, Switzerland, Spain, The Bhine, Versailles, St. Cloud, Fontainebleau, Tuilleries, Italy, Turkey, Egypt, Athens, the Holy Land, China, India, Crystal Palace, also Groups Historical, amusing, marriage scenes, breakfast scenes, pic-nics, statusry, &c., &c. An exquisite assortment of Illuminated Interiors of Palaces, Churches, and Cathedrals of France, Italy, &c., &c. The effect of these illuminated views is most remarkable.

Every gentleman of wealth and refined taste should have in his drawing-room some of our exquisite views on plass, with a revolving stereoscope, showing 12, 25, 50 or 100 scenes. Nothing can be more facinating, and one can offer no greater treat to a friend fond of the picturesque and the beautiful.

100 scenes. Nothing can be more inclinating, and one can offer no greater treat to a friend fond of the picturesque and the beautiful.

Anthony's Instantaneous Stereoscope Views are the latest Photographic wonder. They are taken in the fortieth part of a second, and everything no matter how rapidly it may be moving, is depicted as sharply and distinctly as if it had bean perfectly at rest. This gives an additional value, for to the beauties of inanimate nature it adds the charm of life and motion. The process is a discovery of our own, and being unknown in Europe, we receive from London and Paris large orders for Anthony's Instantaneous Views of America life and scenery.

Among other things we have just published Stereoscopic Illustrations of the Scene of the Fulton Street Prayer Meetings, in which many hearts feel an interest. The particulars of this will be found in our catalogue.

Our Catalogue of subjects and prices will be forwarded to any address on receipt of a stamp.

THE GREATEST MEDICAL DISCOV-RRY OF THE AGE—Dr. KENNEY, of Roxbury, has discovered, in one of our common pasher weeds, a runsely that cures

from the worst Scrofuls down to a common pimple.
He has tried it in over 1100 cases, and never failed except

possession over two hundred certificates of its virtue, all
within twenty miles of Boston.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in overy case.— So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite pleutiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor, In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1884, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine regret and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles.—O, what a mercy if it prove effectual in all cases of that a wird malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, sick Headache, Dyspepsie, Asthma, Fever and Ague, pain in I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepels, Asthma, Fever and Ague, pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of dist ever necessary—eat the best you get and snough of it.
