TESTIMONIALS
COATESTILE, July 29th, 1859.*
Having been acquainted with James M. Giffin, Esq., since he has become proprietor of the Coatesville Seminary, I take pleasure in saying that I consider him very competent as a teacher, and very courteous as a gentleman, and most cheerfully recommend him, and the Institution over which he presides, as most benefting to all persons having children for whom a thorough education is desired. My daughter is at present a student in the institution.

COATESTILE, July 29th, 1869.
Mn. GIPFIN—Dear Sir: It is now near the close of your second term of school in this place, and I feel very greatly gratified in seeing your prospects of making Coatesville Seminary second to none in the country. After becoming fully acquainted with your mid, but firm discipline, and close attention to your pupils' recitations, as manifested in the improvement of my son, I feel myself under obligations to recommend all my acquaintaness and friends to send their sons and daughters to your school.

COATESTILLE, July 29th, 1859.
I cheerfully commend to the public, and especially to my friends, the Seminary of James E. Giffin, located at this place, as being especially worthy of patronage. My son having been a pupil for the last term of this Institution, I can speak: with confidence of the fidelity of the Principal as a teachor—his snavity of manner, yet firmness as a governer, and his entire gentlemanly deportment in all his relations.

PREMIUM FOR 1860.

In order to increase the already large circulation of the
Kenerbocker, we publish this month a splendid line
engraving of Frith's picture of 'Merry-Making in the
Olden Time, 'which we shall present excludively to the \$3
subscribers to the Magazine for 1860, whether old or new.
The subject represents the pastimes of cour ancestors, and
is eminently of a genial, domestic character. The plate,
engraved in England at an expense of 2000 dollars, is
entirely new, measures twenty-five by nineteen and a half
inches in size, contains thirty-nine figures, and is beyond
in the country in those good old times when the men
wore cocked-hats and knee-breeches, and the women stays
and hoope—a costume not essentially differing from the
corset and crinoline of the present day. Almost in the
centre of the picture and a little to the back-ground is a
country dance on the green, with a hard-featured fiddler
perchade on a high seat, and another musician in a tiswig
standing by him, playing with all their might. On the
right two bouncing girls are gaily pulling toward the dance
a gray-haired man, who seems vainly to remonstrate that
his 'dancing days are over,' while a wagish little child
pushes him forward from behind, greatly to the amusement
of his spouse, who is still disting at the test-table

The Stereoscope is the most instructive, interesting, entertaining, amusing, and exciting of modern inventions.
None are too young, none too old, none too intelligent,
none too uneducated, to acknowledge its worth and beauty.
No heme is complete without it, and it must and will
penetrate everywhere.
It presents to your view every part of the world, in all
the relief, boldness, perspective, and sharpness of detail,
as if you were on the spot.
Photographers are everywhere exploring Europe, Asia,
Africa, America, in search of the grand and the beautiful,
and the results of their skill are constantly enriching our
stock.

Africa, America, in search of the grand and the beautiful, and the results of their skill are constantly enriching our stock.

We have an immense variety of paper Views of Scenes in Paris, London, England, Scotland, Ireland, Wales, France, Belgium, Holland, Switzerland, Spain, The Rhine, Versailles, St. Cloud, Fontainebleau, Tuilleries, Italy, Turkey, Egypt, Athens, the Holy Land, China, India, Crystal Palace, also Groups Historical, amusing, marriage scenes, breakfast scenes, pic-nics, statuary, &c., &c. An exquestic assortment of Hluminated Interiors of Palaces, Churches, and Cathedrals of France, Italy, &c., &c. The effect of these illuminated views in most remarkable.

Every gentleman of wealth and refined taste should have in his drawing-room some of our exquisite views on glass, with a revolving steroscope, showing 12, 25, 50 or 100 scenes. Nothing can be more facinating, and one can offer no greater treat to a friend fond of the picturesque and the beautiful.

Anthony's Instantaneous Stereoscope Views are the latest Photographic wonder. They are taken in the fortieth part of a second, and everything no matter how rapidly it may be moving, is depicted as sharply and distinctly as if it had been perfectly at rest. This gives an additional value, for to the beauties of inanimate nature it adds the charm of life and motion. The process is a discovery of our own, and being unknown in Europe, we receive from London and Paris large orders for Anthouy's Instantaneous Views of America life and scenery.

Among other things we have just published Stereoscopic Illustrations of the Scene of the Fulton Street Prayer Meetings, in which many hearts feel an interest. The particulars of this swill be found in our catalogue.

Our Catalogue of subjects and prices will be forwarded to any address on receipt of a stamp.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1849—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853. I peddled it and sold about six bottles per day—in April, 1854, 180d over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—ut since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.
