The Stereoscope is the most instructive, interesting, entertaining, amusing, and exciting of modern inventions.

None are too young, none too old, none too intelligent,
none too uneducated, to acknowledge its worth and beauty.

No home is complete wishout it, and it must and will
penetrate everywhere.

It presents to your view every part of the world, in all
the relief, boldness, perspective, and sharpness of detail. It presents to your view every part of the world, in all er relief, boldness, perspective, and sharpness of detail, a if you were on the apot.

Photographors are everywhere exploring Europe, Asia, fitca, America, in search of the grand and the beautiful, not the results of their skill are constantly enriching our look.

and the results of their skill are constantly enriching our stock.
We have an immense variety of paper Views of Scenes in Paris, London, England, Sochand, Ireland, Wales, France, Belgium, Holland, Switzerland, Spain, The Rhine, Versallee, St. Cloud, Foneainebleau, Tuilleries, Italy, Turkey, Egypt, Atheus, she Holy Land, China, India, Crystal Palace, also Groups Historical, amusing, marriage scenes, breakfast scenes, pienics, statuary, &c., &c. An exquisite assortment of Illuminated Interiors of Palaces, Churches, and Cathedrals of France, Italy, &c., &c. The effect of these illuminated views is most remarkable.

Every igentleman of wealth and refined taste should have in his drawing-room some of our exquisite views on glass, with a revolving steroscope, showing 12, 25, 50 or 100 scenes. Nothing can be more facinating, and one can offer no greater treat to a friend fond of the picturesque and the beautiful. wiews on any position of the Language the student ladies can substitute Music for some other branches, if they desire it.

The classes in Mensuration, Surveying, and Leveling, are practised in the beautiful.

Anthony's Instantaneous Stereoscope Views are the latest Photographic wonder. They are taken in the fortist part of a second, and everything no matter how rapidly it may be moving, is depicted as sharply and distinctly as if it had been periectly at rest. This gives an additional value, for to the beauties of inanimate nature it adds the tharm of life and motion. The process is a discovery of our own, and being unknown in Europe, we receive to the restriction and Paris large orders for Anthony and Pari rathes who wish to be advised of everything really saluable in the line that comes out, may send us their names to place on record, and we will keep them posted at

TESTIMONIALS.

COATESVILLE, July 29th, 1859.

Having been acquainted with James E. Giffin, Esq., since he has become proprietor of the Coatesville Saminary, I take pleasure in saying that I consider him very competent as a teacher, and very courteous as a gentleman, and most cheerfully recommend him, and the Institution over which he presides, as most benefiting to all persons having children for whom a thorough education is desired. My daughter is at present a student in the institution.

H. G. THOMAS.

COATESVILLE, July 29th, 1859.

MR. GIFFIN—Dear Sir: It is now near the close of your second term of school in this place, and I feel very greatly gratified in seeing your prospects of making Coatesvilles Seminary second to nose in the country. After becoming fully acquainted with your mild, but firm discipline, and close attention to your pupils' recitations, as manifested in the improvement of my son, I feel myself under obligations to recommend all my acquaintances and friends to send their sons and daughters to your school.

WM. H. THOMPSON.

COATESULE, July 29th, 1859.

I cheerfully commend to the public, and especially to my friends, the Seminary of James E. Giffin, located at this place, as being especially worthy of patronage. My son having been a pupil for the last term of this Institution, I can speak with confidence of the fidelity of the Principal as a teacher—his suavity of manner, yet firmness as governer, and his entire gentlemanly deportment in all his relations.

"After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing." Mr. E. B. Spooner, wife of the Editor of Brooklyn Star.

"I have used a Grover & Baker Sewing Machine for two years, and have found it adapted to all kinds of family sewing, from Cambric to Broadcioth. Garments have been worn out without the giving way of a stitch. The Machine is easily kept in order, and easily used." Mr. A. B. Whipple, wife of Rev. Gov. Whipple, New York.

"Your Sewing Machine has been in use in my family the past two years, and the ladies request me to give you their testimonials to its perfect adaptedness, as well as laborsaving qualities in the performance of family and household swing." Robort Boorman, New York.

"Gor several months we have used Grover & Baker's Sewing Machine, and have core to the conclusion that every lady who desires her sewing beautifully and quickly done, would be most fortunate in possessing one of these realiable and indefatigable from needle women, whose combined qualities of beauty, strength, and simplicity, are invaluable."—I W. "I take pleasure in saying that the Grover & Baker Sewing Machines have more than sustained my expectation.—After trying and returning others, I have three of them in operation in my different places, and, after four years' trial, have no fault to find."—J. "I think it by far the best patent in use. This Machincan be adapted from the finest cambric to the heaviest case simere. It sews stronger, faster, and more beautifully than one can imagine. I used it in the cultivation of various kinds of Garden Crops, and always with the very best results—Its effects upon Cabbage, Beets and Potatoes is particularly striking—by the rich dark green of their tops, as well as the size to which they grow. It is also an excellent top dressing for grass—and I am satisfied when it comes to be well known it will be regarded with great favor as a Fertilizer, and will work its way into general use.

THE GREATEST

MEDICAL

DISCOVERY

OF THE AGE. THE GREATEST MEDICAL DISCOV-EBY OF THE AGE.—Dr. KERREDT, of Rorbury, has discovered, in one of our common pasture weeds, a remedy

EVERY KIND OF HUMOR, FVERY KIND OF HUMOR,
from the worst Scrofuls down to a common pimple.
He has tried it in over 1100 cases, and never failed except
in two cases, (both thunder humor.) He has now in his
possession over two hundred certificates of its virtue, all
within twenty miles of Boston.

Five to eight bottles will cure the worst case of scrofula A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boeton. I know the effect of it in every case,—80 sure as water will exitinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places, quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853. I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesule Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fite—a discuss which was always considered incursable, have been cured by a few bottles—0, what a mercy if it prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Aque, pain in the side, Diseases of the Spine, and particularly in diseases of the Edinery, Sc., the di
