ST. LOUIS CORRESPONDENCE. tion-No Nomination Yet-A Gam and North-Western Delegations-S Buff-Southern and North-Western Delegations-Sector sion de .-John C. Breckinnighe and the Keystone State-One Hundred Guns for the Nominee-The Price Right-Terrible Steamboat Disaster-Ten Lives Last-Railroad Accident-Three Lives Last-Real State-Market Report,

ST. LOUIS, April 30, 186). An entire week has been consumed at Charleston, and yet we are still in the dark as to candidate or platform. We should judge, from the transactions of the past week, that the game of " bluff" has been systematically played

at Charleston-the one side insisting on the candidate, whilst the other is rampant for a platform that said can-didate cannot consistently stand upon-both striving to oluff off the other. The threatened secession is a bold game of bluff-proclaimed to intimidate the delegates who are there for peace and harmony-for union and victors at all hazards, whilst the threatened retirement of the North-West delegations is but a game of the same sort, in retaliation for the proposed secession of the Cotton States This shrewd game will be kept up just so long as the Corvention tolerates it.

The time for speculations in regard to candidates, has feb 26 1y-5 gone by. We have not changed our opinion as to Mr. Breckinridge being the choice of the Convention, and if gone by. Pennsylvania persists in his nomination he will be the standard bearer of the Democratic party; if she drops him or any other man, Douglas will be the nominee. The Keystone State has the man in its grasp, and if she adheres, which we are inclined to think she will, the young Star of Kentucky will be the next President of the United States-if she falters in her choice Stephen A onglas will succeed James Buchanan.

We do not anticipate a secession of the Cotton States and if they do secole, the masses of those States will repudiate their delegations and rally around the nomine of the Convention, be it whom it may. Did our delegate leave the Convention, and come home and appeal to the people, they could not influence a hundred votes against the regular nominee. But we anticipate no such revolt, and believe, as we have above said, that the whole difficulty is a bold game of "bluff," and will cease as soon as the nominee is proclaimed. As soon as the nominee of the Charleston Convention is

Everything is in read? ness, and we expect to hear the roar this evening or to norrow. The general impression prevailing here, is that See Adv send for the Medicine at ouce. BEWARE OF COUNTERFEITS. Judge Douglas will be the man.

State politics have been lost sight of, and the telegraph apr 17 office is besieged every day, awaiting the announcement o the standard bearer. By the time this letter finds its way to the public eye, the Intelligencer will have the National ticket flying from its mast-head.

Next to the Charleston Convention is the international Prize Fight. On Saturday the intelligence was received here of the fight, and wherever you saw two man in con versation, they were taking of Heenan and Sayers. Little knots of people could be seen upon every corner of the streets, and the all absorbing topic was the great Prize Fight.

We have very little local news to communicate. There were 108 interments in the different cometeries in the past week, of this number 52 were children of five years and under

A terrible stampost disaster occurred on the Mississippi river on Tuesday morning last. The steamer A. T. HELMBOLD'S GENUINE PREPARA-Aver's Sarsaparilla HIGHLY CONCENTRATED " COMPOUND FLUID EXTRACT BUCHU, A compound remedy, in which we have la-

bored to produce the most effectual alterative

that can be made. It is a concentrated extract

of Para Sarsaparilla, so combined with other

substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed

that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove

of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by exper-iment on many of the worst cases to be found of the following complete-

THE BLOOD. This compound will be found a great pro-moter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous come through which the averem will strive to

ine churchards of non citipinis and incode sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body

structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sconer or later something

must go wrong, and the great machinery of life is disordered or overthrown.

sarsaparina has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed

for it, but more because many preparations pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most

of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment

has followed the use of the various extracts of

Sarsaparilla which flood the market, until the

name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend

to supply such a remedy as shall rescue the

upon it. And we think we have ground for

believing it has virtues which are irresistible

by the ordinary run of the diseases it is intend-ed to cure. In order to secure their complete

radication from the system, the remedy should be judiciously taken according to directions on

INCENDIARISM IN CARLISLE.-About o'clock on Saturday morning a week, the large school huilding, in Carlisle, known as "the Old College," was discovered to be on fire, and before the flames could be arrested the upper story was entirely destroyed. The building was occupied by four female schools, and the books. &c., of the schools were als much damaged, and many utterly destroyed. The fire was evidently the work of an incendiary, as it started at the foot of the stairway, in the centre of the building. The loss is partly, perhaps fully, covered by insurance in the North America Insurance company, of Philadelphia. A daring attempt was made burn the Episcopal Saturday night to church, in the same borough. An entrance was effected through one of the windows, and a quantity of combustible material placed in a closet under the stairway and ignited, but the incendiaries closed the closet door, and thus, unthinkingly, smothered the flames before any material damage was done.
