<sup>2</sup> St. Louis, June 4, 1869. The weather has been warm and dry since our last de until Saturday night, when a heavy storm, accompanied with terrific thunder and lightness and considerable wind, passed over the city. It was decidedly the heaviest rain son, and, if it has been general, it has done an immense good to the growing crops. The rivers are still low, but the recent heavy rain may cause a good as liberally as was expected for this season of the year .-Sales on 'Change are slow, and market dull and drooping. Hemp sells from \$90 to \$115; Lead \$5.20; Plour \$5 40 to \$8; Wheat \$1.12 to \$1.40; Corn 49 to 58c.; Oats 42 to 43c; Rye 89c.: Pork \$18 to \$18 50; Whisky 181/4c.; Hay 75 to 90c.: Potatoes 35 to 50c.; Coffee 14c.; Hides 14c.; Butte from 9 to ISc.

Davenport had better make a rush! Politically, we have very little to write about. The "Opposition"—we mean the "American" party, not the Black Republicans—held what purported to be a State Convention at Jefferson City, in this State, on the 31st ult There were not over twenty persons present, but as this was the fourth Convention that they have held without making a nomination, they were determined to place a ticket in the field against the Democracy, and after an hour's caucus, a full ticket was made up, with Gen. Wilson, for Governor. The next day, when Gen. Wilson heard of his nomination, he immediately declined-he could not consent to make the race, and thus has left the 'Opposition" of Missouri without a candidate. What

and Iowa—the whole to be taken. The bet has not yet been covered.

The Evening News of this city has repudiated the nominations of Lincoln and Hamlin, and hoists the Bell and Everett flag; the Express also refuses to support the Black banner. We have not seen but one paper in Missouriand that the Missouri Democrat-that supports Lincoln and Hamlin, and even it feels a little sore in doing so. There is no doubt but that the Black Republicans see the formed so many cures in our neighborhood as this. L. The time is drawing near when the Democratic party will either unite and ensure a certain victory, or "split," and give Lincoln and Hamlin the control of this governnent. United, we cannot help but triumph; divided, and feat is evident. We again appeal to the Pennsylvania delegation to stand

firm for John C. Breckinridge, for we believe he is one of the men who can heal the present wounds of the Democracy.
We believe he can more thoroughly unite the party than any other man that could possibly be nominated. This will not be the first time that Pennsylvania has saved the party from defeat by uniting upon a candidate in the Convention; the "Old Dominion," too, is ready to fall into Flour, Superfine, \$ bbl....... Vention; the "Und Dominion," too, is ready to fail into line with Pennsylvania, and the entire South will prove no laggard when Breckinridge's name is proposed, and coming, too, as it should, from that old conservative State of Pennsylvania. All eyes are now turned to Baltimore and to the "Keystone" State—the latter can either make or ruin the Democratic party in that Convention-which will she prefer?

The friends of Judge Douglas in this vicinity are still confident of his nomination, but at the same time have over and over again pledged themselves to the nominee. We now think the party will units upon the nominee, and unless no unforseen difficulties arise, we will again

The storm which passed over our city on Saturday night, was still more terrific at our sister city of Alton, Ills. The building occupied by the Alton Democrat, was totally destroyed. The roof of the city hall was blown off, as was also that of the Chicago, Alton and St. Louis Railroad Depot. There were some thirty or forty buildings more or less damaged—some totally destroyed. The chimneys of the steamer David Tatum, which was lying at the wharf, were blown off, and the boat was otherwise materially injured. The hall-was terrific, and the breakzer of glass the steamer David Tatum, which was lying at the wharf, were blown off, and the boat was otherwise materially injured. The hall-was terrific, and the breakage of glass formed no small item in the general disaster. Along the track of the rallroad in the vicinity of the town trees were everywhere prostrated, fences blown down, the telegraph wires levelled with the earth, and streams overflowing their banks. The down trains of the Chicago, Alton and St. Louis road were detained some eight or ten hours in onsequence of the storm, owing to obstructions upon the track. The passengers took lodging at the Alton House, where they were handsomely entertained, and arrived in this city at nine o'clock yesterday morning. The storm must have been very severe upon the upper 15th no

river, but owing to the interruption of telegraphic com. munication it may be some time before we ascertain the extent of the loss occasioned. So far as we have learned no fives were sacrificed at Alton to the fury of the storm king. The city was all night the scene of the wildest excitement, and at the time our informant left no one could calculate the amount of the damage sustained. Notwithstanding the storm was very severe here, yet we have heard of no material damage, except the filling of collars with water, and thoroughly washing and cleansing the streets, which our municipal fathers would never have done. Since our residence in this city the streets were never so white and clean. This is unfortunate for our Black Republican friends, for just about this time of the year they put hundreds of workmen to clearing the streets, more for the purpose of obtaining their votes at the August election, than for the comfort of the citizens. They will now have to employ them in dipping out the Mississippi river! But seriously speaking, the rain was a God send to the people of this city and vicinity—rain was much needed -the earth was really burning up, and the crops suffering

HAMLIN'S RECORD.

Hannibal Hamlin was a member of the Democratic Convention in 1848, which nominated Lewis Cass; in that convention he voted against a protective tariff; in that convention he opposed a system of internal improvements; in that convention he favored the Mexican war; now he professes to favor a tariff; now he is a candidate on the same ticket with Lincoln, who denounced the Mexican war as "unjust and unconstitutional." In the Baltimore Convention of 1848, he voted in favor of a resolution that declared "that all the efforts of the Abolitionists, and others, made to induce Congress to interfere with the question of slavery, or to take incipient steps in relation thereto, are calculated to lead to the most alarming and dangerous consequences; and that all such efforts have an ivevitable tendency to diminish the happiness of the people, and endanger the stability and permanency of the Union, and ought not to be countenanced by any friend of our political

He is now the candidate of a party whose cardinal doctrine is to induce Congress to interfere with the question of slavery-a party built up solely and exclusively on this sectional basis-a party which derives its sustenance and support altogether from denouncing and villifying the Southern States and the institutions of slavery.—Pittsburg Post.

WASHINGTON MUNICIPAL ELECTION.-The eturns of the Washington City election, as published in the National Intelligencer, shows the whole vote for Mayor to have been as follows:—JAS. G. BERRET, Dem., 3,434; RICHARD WALLACH, Opp., 3,410; WM. B. MAGRUDER, Ind. Dem., 147; plurality for Berret, 24. The Democrate also elected six out of the seven Aldermen, and twelve out of the twenty one members of the Board of Common Council.

RAILING .- Greeley and Raymond are still engaged in throwing rails at each other—some of the Chicago splittings.

We hear no more about Mr. Lincolu, his friends here are satisfied that if the Democratic party are united, he will be worse beat than was Gon. Scott in 1852. They all say that Lincoln is not the man, and the Seward men in this State—though few—are denouncing the nominations as injurious to the cause and making a defeat certain. Whilst the Bates' men will not touch Lincoln and Hamlin any more than they would Garrison or Giddings. The same feeling exists in Illinois, Iowa, Minnesota, Wisconsin and Indiana. There is no unanimity for the nominees, and it is universally believed that Lincoln will be badily beaten. We heard a Bates man offer to bet a Black Republican \$500 that Lincoln would not carry a county in this State would not be less than 120,000, and \$500 that Lincoln would not get 5,000 votes in Missouri—\$500 that the vote cast against Lincoln and Hamlin in this State would not be less than 120,000, and \$500 that Lincoln would not get the electoral vote of Illinois, Indiana and Iowa—the whole to be taken. The bet has not yet been covered.

ton, during the years 1836-37 in the defence of the Americans then settled upon the frontiers of Maxico. In a brie period, with a small band of Heroes hastily raised a masse, and illy armed and accoutred, the brilliant defence of the Alamo, was made forever glorious by the bloody massacre, perpetrated by the Mexicans. This unfortunate event which showed valuable lessons and glorious illustrations of the valor of our citizen soldiers, and of the genius of the Great Chief and Hero, ought not to be for gotten or hastily glanced over. It is believed that the campaign during the Texan war has not received full justice in the narratives which were published, the numerou merits of which were marred by serious errors. Preserve merits of which were married by serious errors. By com-paring these various versions, and by consultation with those who played prominent parts in this event of our his-tory, it is believed that this Blography of the Texan Hero, which is divested of cumbrous details of military technicalities, is as faithful and exact as it is practicable to render a marrative of this description.

The sole desire of the author has been to do full justice to Ameri-an valor and patriotism, and to present truthful and vivid pictures of that memorable war, and of the conduct of the Great Chief who springing from the people, a frontier warrior, without science, art or experience in military affairs, was enabled through the smiles of Providence by his stout heart, his asyacious intellect, and ardent patriotism, to repel, punish and nearly destroy some of the most mercenary soldiers that were ever sent forth by any power on the earth. Ought such deeds be permitted to fade from the memories of a patriotic people? No! it is a reproach to the present generation, that there is not more spirit exercised by our government in defending the rights of our citizens and extending that protection to them which has ever been sanctioned by every true son of liberty.

FROM THE PREFAUE.

The Empress Josephine was one of the most remarkable of all the extraordinary characters who rose into conspicuous public positions in consequence of the French Revolution. Wooderful were the events of her life. With the kindest and most affectionate of human hearts, she united the sternest principles of rectitude and a comprehensive senins. genius.

In political foresight, her superiority to Napeleon is now universally recognized. Had he listened to her admonitions, his empire might have been averted. It is worthy of notice that this political foresight and ability has been inherited by her descendants—two of whom, Napoleon III. inherited by her descendants—two of whom, Napoleon III. and Pedro II. respectively the present Emperors of France and of Brazil, are among the ablest sovereigns now reigning in the world. The events of Josephine's life, and remarkable traits of character which she displayed amidst the most amazing vicissitudes of fortune, afford not only an exceedingly interesting but a highly instructive iesson to all who read her bingraphy. In this respect her career, taken as a whole, may challenge comparison with that of any other

ner ningraphy. In this respect her career, taken as a wholo, may challenge comparison with that of any other historical personages in history. Josephine constantly locked to the glory of France and the fame of her husband as the two most desirable objects. When Napoleon desired to perpetuate his dynasty by a second marriage which might yield him a male hoir to his throne, Josephine nobly sacrificed her own feelings to what she was told might eventuate to the advantage of France. In his adversity this true woman forgot all but their happy years of wedded love—remembered not that she had been repudiated, but that he was unfortunate. In his adversity this true woman forgot all but their happy years of wedded love—remembered not that she had been repudiated, but that he was unfortunate.

We have freely drawn upon various authors, who have recorded anecdotes and traits of Josephine, as related to them, with the tender regret of affection, which, too late, recognized her full value, by Napoleon himself, in his closing years, and it is to be hoped that the book will be found reliable as well as entertaining. Full-of truth, yet it is the very Romance of Biography.

Copies of either of the above books, with a handsome Gift, worth from 50 cents to \$100, will be sent to any person in the United States, upon receipt of \$1.00, and 21 cents to pay postage, by adressing the publisher, who is desirous of calling your attention to his liberal method of transacting business, viz:

THE IMPROVEMENTS FOR 1860, are:
lat. A more compact frame,—thus decreasing the width
of the machine, while increasing its strength; at the same
time allowing a material reduction in weight.
2d. A most important item, a lighter driver and sickle; mainly by the weight and motion of the sickle. The im-proved driver and sickle of the "McCormick" will weigh but 9½ pounds, while those of other machines are from the continuous management of the machines are from the continuous management of the management of the added to the sickle and driver, when in motion, is just so

fity to one hundred per cent. heavier. Every pound thus added to the sickle and driver, when in motion, is just so much wear and tear—not only upon the sickle itself, but also the driver boxes, crank, and all the journals. It is a strain upon the whole machine as well as horses.

The slight indeutation and peculiar cut of the sickle, with the combination of the spear-shaped fingers in our machine, gives us this advantage; and it is one of paramount importance to the farmer. As proof of what we state, we ask purchasers to weigh the sickle and driver of other machines. Owing to improvement for 1860, we are combled to increase the motion of our sickle nearly one-fifth, without danger of breaking or additional power—hence, can do good work even with a slow team.

3d. A Castor Wheel upon an entirely new principle has been added to the grain side of the machine, wholly rolleving the horses from pressure in turning, and materially lessening side draught.

4th. A Lever-shipper for throwing in and out of gear.

5th. The machine is now so balanced, that in connection with our patented semi-jointed tongue, the cutting apparatus is completely and easily thrown over obstructions while in motion, simply by the weight of the driver in his place; thus dispensing with all levers and complicated arrangements to effect the same object. This obviates an objection urged against the "McCormick" as a mower, and will be found to work perfectly, without endangering the durability of the machine.

6th. New Fingers. Shorter and narrower—thus more penetrating, yet with same angle as heretofore.

8th. The Shield to Spur Wheel is attached to the bridle, so that in raising and lowering it moves with the bridle.

9th. Angle Board dispensed with, and replaced by an adjustable from rod.

10th. New Scraper Board attachment.

adjustable from rod.

10th. New Scraper Board attachment.

The foregoing are a part of the many changes for 1860.

The whole machine is lightened and reduced in size; yet having an increased capacity for work. An improved Neck-Voke and Doubletree is also furnished with each machine.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervedes the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fith ordered or unhealthy food, impure air, fifth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only carlier for some configurations. tions not only suffer from scrofulous constitu-tions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; conse-quently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is con-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, Sr. ANTHONY'S FIRE, ROSE, or ERTSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in

pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

For sale by Grocers and Fruit Dealers everywhere. jan 17 FOR SALE .-- THE UNDERSIGNED OF-Fars for sale 1640 ACRES OF LAND, in the County of Fayette, and State of lowa, at the town of Fairbank, a few miles from the Wapspinics River, and 15 miles from the Dubuque and Pacific Railroad, now finished to Independ miles from the Wapsiphica River, and 16 miles from the Dubuque and Pacific Railroad, now finished to Independence, on the Wapsiphica River, and surveyed and located to Nebraska and designed to be extended to Oregon.

This Tract of Land is beautifully situated and all Limestone, and is well watered—four fine springs being on the premises, and spring creek passing through the land.—About 500 Acres of this is Woodland, and scattered over various parts of the Tract, is growing Hickory, White Oak, Spawn and Black Oak, Walnut, Ash and quantities of Hazel Wood. There is also a fine grass bottom, and open, rolling prairies, excellently adapted for raising Grain, 160 Acres of which are in cultivation. It is in a region noted for its fine and heaithy climate, and the adjoining lands are settled by Indiana, Illinois and Ohio Farmers, and by Germans and a few Irisit and Englishmen, and is noted for its good society. Fairbank, immediately south and adjoining his land, has Churchee, School Houses, two Hotels, five or six Stores, a fine Grist Mill, Wagon Maker's Shop, Blacksmiths and a Distillery, and is a flourishing town. The east branch of the Wapsiphinica River, passes through the estate and has some fine sites for Grist or Saw Mills.

This land is all rolling, lying in one body, and would make 8 or 10 excellent Farms, or could be need for a Slock Farm. In less than five years the Wapsiphine Valley Railroad, now about being finished from Polton, on the Mississippi, to Anamosa, a distance of 60 or 80 miles, will be made through this land to St. Paul, Minnesota, passing through one of the most fertile valleys of the West.

Any one wishing to see this land can do so in 2½ or 3 days from Philadelphia, Lancaster, Easton or Reading.

It was purchased by me and selected with the greatest care, for the purpose of locating a portion of my family; but now I have determined upon attending solely to my business in Schuylkill county. My terms are reasonable. For further information address
